Executive Summary

In accordance with federal regulations, the City of Toledo (COT), Department of Housing and Community Development (DHCD), has prepared this Consolidated Annual Performance and Evaluation Report (CAPER). The CAPER provides a comprehensive overview of the city's progress in carrying out the housing and community development strategies outlined in the 2020-2024 Consolidated Plan and the corresponding Annual Action Plan.

For Program Year (PY) 2024, covering the period July 1, 2024 through June 30, 2025, DHCD directed resources primarily toward two of HUD's three National Objectives:

- **Benefit low- and moderate-income individuals (LMI); and/or**
- **Elimination of slum and blight in the community.**

This report assesses both accomplishments and expenditures during the program year, highlighting how HUD investments, combined with local, state, and federal resources, have supported community priorities and leveraged additional funding to maximize impact.

Throughout PY 2024-2025, COT partnered with numerous agencies and organizations to advance the goals established in the Consolidated Plan. Key efforts focused on the following priority areas:

- Public Facility Improvements
- Housing Rehabilitation and Repair – including owner-occupied and rental properties, as well as housing code enforcement
- Demolition of Vacant Structures
- Support for Social and Human Service Organizations – such as foreclosure prevention, educational and life-skills programming, feeding programs, access to health services, and legal assistance for housing-related issues
- Homelessness Prevention and Intervention
- Economic Development Initiatives

These activities contributed to neighborhood stabilization and supported the City's broader efforts toward economic recovery. Significant progress has been achieved in these areas, as reflected in the quantitative information presented in **Table 1: Accomplishments - Program Year & Strategic Plan to Date**, included in this report.

As DHCD continues implementing the 2020-2024 Five-Year Consolidated Plan, adjustments have been made to respond to shifts in the economic and social environment. With the housing market gradually improving, resources are increasingly directed to both new housing construction and the preservation of existing homes, while also expanding pathways for affordable homeownership for Toledo residents.

Finally, the lasting impacts of the COVID-19 pandemic remain evident within the community. Supplemental CARES Act funding has been essential in addressing emerging needs, while annual CDBG resources ensured that vulnerable residents continued to receive critical services. Together, these investments have strengthened community resilience and advanced the City's long-term housing and community development goals.

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

The COT, as an entitlement city and participating jurisdiction, receives direct funding from the U.S. Department of Housing and Urban Development (HUD) for the following three federal programs:

- Community Development Block Grant (CDBG) Program
- HOME Investment Partnership (HOME) Program
- Emergency Solutions Grant (ESG) Program

The COT's 2024 (50th) Program Year (PY), covering July 1, 2024 through June 30, 2025, represents the fifth and final year of the 2020-2024 Five-Year Consolidated Plan. Projects selected for funding were prioritized not only for their ability to promote neighborhood revitalization, community development, and economic growth, but also for their alignment with the strategic goals identified in the Consolidated Plan.

Despite the continued challenges stemming from the COVID-19 pandemic and its subsequent variants, the City achieved measurable progress in advancing housing, economic development, and public service initiatives. Over the course of the program year, investments contributed to neighborhood stabilization, expanded access to affordable housing, supported vulnerable populations, and strengthened community partnerships. These accomplishments reflect ongoing commitment to the objectives outlined in both the 2024–2025 Annual Action Plan and the 2020–2024 Five-Year Consolidated Plan.

The COT received CARES Act funding to prevent, prepare for, and respond to the Coronavirus (COVID-19). The city was awarded **\$5,979,865** in Community Development Block Grant (CDBG-CV) funding and **\$4,875,338** in Emergency Solutions Grant (ESG-CV) funding. As of this report, the ESG-CV allocation has been fully expended, while the CDBG-CV funds are still being drawn down to complete remaining activities. To date, approximately **\$5,436,444.89** of CDBG-CV funds have been spent.

The first substantial amendment to the Consolidated Plan incorporated supplemental allocations of CDBG-CV and ESG-CV funding provided under the CARES Act. The City utilized CDBG-CV resources to support a wide range of eligible activities designed to prevent, prepare for, and respond to COVID-19. Some of the activities included:

- Business Assistance
- Emergency Rental Assistance
- COVID-19 Testing
- Supplies and Cleaning
- Food Security
- Youth, Senior, and Special Populations Assistance
- Legal Support
- Outreach

Accomplishments to date for CDBG-CV and ESG-CV funded activities are summarized in **Table 2 - COVID Accomplishments** below.

The second substantial amendment utilized CDBG-CV funding to implement the Emergency Mortgage Assistance Program (EMAP), which stabilized housing for owner-occupied households during the pandemic crisis. This completed activity assisted **62** households at a total cost of **\$471,700.43**.

The third substantial amendment allocated ESG-CV funding in partnership with Toledo Public Schools (TPS), the Toledo Lucas County Homelessness Board (TLCHB), and Lutheran Social Services of Northwestern Ohio, to provide housing stabilization assistance to TPS student families. This completed activity assisted **217** families and all ESG-CV funds have been fully expended.

In February 2023, the U.S. Department of Housing and Urban Development (HUD) approved the Old South End and Englewood Neighborhood Revitalization Strategy Areas (NRSAs) for the City of Toledo Department of Housing and Community Development (DHCD).

For program year 2024, HUD further approved the Junction Choice Neighborhood Plan, establishing Junction as the City's third NRSA. In addition, DHCD designated three neighborhoods in East Toledo's Garfield, Raymer, and Starr as target areas for concentrated investment.

The following activities and investments represent DHCD and partner agency efforts in the three NRSAs and the East Toledo target areas during the reporting period.

Home At Last (HAL) Down Payment Assistance (DPA) program: Total Investment - \$38,336.41

- Junction: \$15,000.00 to 2 households
- Old South End: \$9,336.41 to 1 household
- East Toledo: \$14,000.00 to 2 households

Roof Replacement Program (Rooftops): Total Investment - \$164,390.96

- Englewood: 1 completion – \$18,705.00 (CDBG)
- Junction: 1 completion – \$21,273.00 (ARPA)
- East Toledo: 2 completions – \$33,342.00 (CDBG \$20,852.00 / ARPA \$12,490.00)
 - Total DHCD Roofs: 4 completions
- Partner Work: \$91,070.96 (Englewood, East Toledo, citywide)/\$55,325.98 (Junction & Old South End)

Lead Paint Abatement: Total Investment - \$238,120.46

- Englewood: 2 completions (\$58,836.98), 5 scheduled
- Old South End: 1 scheduled
- East Toledo: 10 completions (\$179,283.48), 22 scheduled

Department of Public Services – Demolition & Tree Planting

- Englewood: 6 demolitions and 156 trees planted
- Junction: 121 demolitions (0 trees planted)
- Old South End: 36 demolitions (0 trees planted)
- Raymer: 1 demolition (0 trees planted)
- Starr: 5 demolitions (0 trees planted).

Department of Transportation – Road Construction: Total Investment - \$1,301,200

- Old South End - \$265,000
- Junction - \$567,000
- East Toledo (Garfield/Starr/Raymer) - \$469,200

Department of Economic Development – \$363,293.00

- Old South End: 3 businesses – \$99,600.00
- Englewood: 3 businesses – \$70,000.00
- Junction: 2 businesses – \$78,693.00
- Starr (East Toledo): 2 businesses – \$115,000.00

Department of Parks & Recreation – \$2,260,299.60 Invested (with \$844,179.25 Pending)

- **Junction:** \$271,251.00 – Savage Park revitalization
- **Englewood:** \$1,088,907.75 – Robinson Park shelter & athletic field; pool & Smith Park athletic field
- **Old South End:** \$520,411.11 – Amphitheatre & Loop Trail at Danny Thomas Park updates; Ashley Park playground equipment upgrades
- **East Toledo:**
 - Garfield neighborhood: \$19,725.18 – Ravine II Park Field bleacher upgrades
 - Starr neighborhood: \$185,841.40 – Prentice Park playground equipment upgrades
 - Raymer neighborhood: \$174,163.16 – Burnett Park playground equipment upgrades

Public Services Initiatives: Total Investment - \$520,923.11

Youth Programs:

- Old South End: \$74,991.20 – 86 youth assisted – CDBO
- Junction: 71,562.59 – 71 youth assisted

Community Gardens:

- Old South End: \$90,000.00 – 276 persons assisted

Financial Opportunity Center:

- Junction: \$13,766.89 – 52 persons assisted

Food Baskets/Boxes:

- Old South End: \$60,000.00 – 6,985 persons assisted
- Junction: \$65,725.61 – 1,791 persons assisted

Senior Home Repairs:

- Englewood: \$144,876.82 – 14 households assisted

Across Program Year 2024-2025, the City of Toledo DHCD and partner agencies strategically invested in housing, infrastructure, economic development, public amenities, and social services within the three NRSAs and targeted East Toledo neighborhoods. These efforts directly advanced HUD's community revitalization goals, supported low-to-moderate income households, and strengthened neighborhood resilience through coordinated public and private investment.

Toledo Neighborhood Capacity Building Institute (TNCBI)

The Toledo Neighborhood Capacity Building Institute (TNCBI) is designed to advance neighborhood revitalization by engaging select nonprofits and grassroots organizations, equipping them with the tools and capacity needed to achieve effective and sustainable community impact.

After the success of the 2021-2022 pilot program, the TNCBI launched its 2nd Cohort October 2024 with 13 participating agencies. By June 2025, 12 agencies had successfully completed and graduated from the program.

As part of the program, each agency received a gift certificate for a workshop through the Toledo Community Foundation, along with additional incentives of 20 hours or up to \$2,000 toward costs in one of four strategic areas: Strategic Planning, Grant Writing, Financial Management, or Organizational Development. Each agency was required to select two of these four areas.

The TNCBI will return for a 3rd Cohort beginning in Fall 2025

TNCBI Framework Includes:

- Nine (9) in-person modules with six (6) hours of instruction per module
- Three (3) Virtual Sessions
- Small Group Sessions (15 Organizations selected)
- Four to six (4-6) micro-learning sessions

- Capstone project
- Formal graduation with recognition by the Mayor and City Council
- Group mentoring sessions after graduation
- Coordinated by the DHCD in partnership with outside partner (selection of partner pending)

Capacity-building incentives offered after graduation include expert assistance with:

- Strategic Planning
- Grant Writing
- Financial Management
- Organizational Development

The department remained focused on two of HUD's three national objectives: providing assistance to low- and moderate-income (LMI) individuals and addressing slum and blight conditions within the community. In alignment with the priorities established in the Five-Year Consolidated Plan, the City will continue to emphasize the development of safe, adequate, and affordable housing; the reduction and prevention of homelessness; improvements to public infrastructure and facilities; implementation of the Fair Housing Action Plan (FHAP); and the provision of essential services, including food, life skills, and healthcare.

To carry out these priorities, the Department of Housing and Community Development (DHCD) administered programs in collaboration with community partners. These efforts focus on rehabilitating and repairing homes, preserving housing affordability, addressing lead hazards, and, in many cases, preventing homelessness.

Homeownership continues to be supported through the HOME Investment Partnerships Program (HOME). During the program year, the department assisted **58** first-time homebuyers in the purchase of their homes. As part of the process, each participant completed an eight-hour, HUD-mandated homeownership training course provided by a HUD-approved counseling agency. The training equipped prospective homeowners with the knowledge to navigate the property acquisition process and to better understand the financial responsibilities associated with homeownership.

Programs supported by Community Gardens continue to reduce blight and enhance neighborhoods. By involving residents and fostering a sense of ownership and stewardship among residents in low-income areas, increased access to fresh food enhances the neighborhood. Programs supported by community gardens provided services to **3,704** persons.

HUD Section 108 - COT established a \$37 million loan pool for long-term, fixed-rate, affordable financing. Funds will be utilized to close financing gaps, allow borrowers to complete their deals, generate and maintain jobs, increase affordable housing, enhance equity and equitable development prospects, and expand the existing tax base. The City has closed on two loans, each worth \$2 million, for community centers improvements and for economic development. A third loan will close before the end of 2025 for \$616,000 in economic development.

HUD PRO Housing Grant - Toledo was one of 18 communities to receive awards and received \$4,000,000. The grant's activities include a comprehensive zoning rewrite, pre-approved templates for new housing construction, and funding for the NRSA UPLIFT Initiative. DHCD received \$1,600,000 for the program pool and, with the grant award, had pledged to expand the program from two to all three NRSAs and to increase the overall funding impact to 75 new or preserved homes during the grant performance period.

NRSA UPLIFT Initiative - Formerly the NRSA Appraisal Gap Financing, NRSA UPLIFT is a \$3 million pilot project that will be funded using a portion of the \$4,000,000 Community Project Funding (CPF) Grant and the HUD PRO Grant. The city engaged a workgroup to develop a program to provide appraisal gap financing in the designated NRSA's. The program's goals are to enhance housing markets, incentivize the acquisition and repair of unoccupied housing, rehabilitate owner-occupied housing, and build new housing in the NRSA's. The Initiative is rehabilitating a pilot home to launch the program.

Affordable Housing Development

- Evergreen Heights - 52 units - Senior Housing (closed August 2025)
- Whitney Manor - 20 units - Supportive Housing with Services (closing Fall 2025)
- HSI Infill Housing 2025 - 1 unit - single-family home

In its 50th program year, the Department of Economic Development awarded four loans totaling **\$370,000**. These funds supported the launch of one new business and the expansion of three existing businesses, creating at least **12** new jobs in the City.

The Toledo Lucas County Emergency Rental Assistance Program (TLCERAP) continued its efforts throughout Program Year 2022, providing emergency rental, utility, and internet service assistance to LMI households. Since 2021, there has been over \$42 million awarded to the City and County from the U. S. Department of Treasury for Emergency Rental Assistance (ERA). The Toledo Lucas County Emergency Rental Assistance Program (TLCERAP) continued its efforts throughout Program Year 2023, providing emergency rental, utility, and internet service assistance to LMI households. Since 2021, there has been over \$42 million awarded to the City and County from the U. S. Department of Treasury for Emergency Rental Assistance (ERA).

During the 2024 PY, TLCERAP disbursed approximately **\$2.4** million in rental and utility expenses for **388** LMI households in Toledo and Lucas County. The program was shut down for new applications effective December 31, 2023.

In addition to DHCD's ongoing efforts to reduce lead-based paint hazards, the City of Toledo (COT) revised and passed an updated Lead-Safe Ordinance in September 2020. Under this ordinance, 1–4-unit residential structures and family child care homes built prior to 1978 must undergo and pass a lead clearance—including a visual assessment and dust-wipe sampling—and register to receive a Lead-Safe Certificate.

Legal and Policy Milestones

- June 27, 2022: A lawsuit led the City to temporarily delay enforcement until August 1, 2022 to facilitate resolution efforts.
- June 27, 2022: A lawsuit led the City to temporarily delay enforcement until August 1, 2022 to facilitate resolution efforts.
- April 1, 2023: A judge granted a preliminary injunction halting the ordinance.
- June 22, 2023: A judge denied a motion to stop the ordinance from going into effect.
- January 2025: The Ohio Supreme Court declined to hear an appeal in the Toledo Lead Ordinance case.
- April 2025: City Council unanimously approved updates to the ordinance and adopted a revised phase-in schedule.

Revised Phase-In Schedule (Adopted April 2025)

- The revised compliance timeline establishes eight (8) deadline dates, beginning with the first phase-in deadline on December 31, 2025.
- Phasing continues by census tract, prioritizing the highest at-risk areas.

Compliance to Date

- As of August 18, 2025, there are 4,325 rental units in compliance with the Lead-Safe Ordinance.

ODH Lead Safe Housing Fund Community Primary Prevention Grant

- Award: \$1.05 million from the Ohio Department of Health (awarded July 2023 – June 2025)
- Grant Period Covered: July 2023 - June 2025
- Use of Funds (total \$1.05M expended):
 - Reimbursable Lead Stabilization Grant (financial assistance to support lead stabilization activities);
 - Advertising (public awareness and outreach campaigns);
 - Education and Training (community workshops and staff/partner training);
 - Lead Testing Kits (distribution and related outreach);
 - Enforcement & Compliance Software (ODH-funded purchase to support application intake, case tracking, reporting and audit trails);
 - Lead Resource Center (start-up and operational support).

The DHCD continues to work closely with the lead CoC Toledo Lucas County Homelessness Board (TLCHB) in its continued efforts toward the prevention and elimination of homelessness. In addition, many local nonprofit agencies, through funding provided by the COT, provide programs that meet the needs of individuals and their families who are homeless or at imminent risk of becoming homeless.

The COT and The Fair Housing Center (TFHC) continue to work with community partners on the implementation of the Five-Year Fair Housing Action Plan (FHAP). The FHAP provides quarterly and annual updates on the action steps that are undertaken to address barriers to housing choice identified in the 2020-2024 Analysis of Impediments. **(See the annual update on the FHAP in the attachments)**

The Fair Housing Center continues to handle a significant number of fair housing cases, assisting individuals experiencing housing discrimination. This work is made possible by CDBG funding from the City of Toledo and funding directly from HUD. During the reporting period, the Center received more than **2,000** intakes, and pursued a full fair housing investigation in more than **125** cases, and more than **8,000** people were positively impacted by this work.

The Fair Housing Center also regularly conducts education and outreach activities to advance the Action Plan. More than **13** million impressions have been realized as a result of this work, and well over **30** trainings have been conducted. An impression is realized when an adult, who is 18 years of age or older, is exposed to the intended advertising, outreach, or program. The frequency with which people encounter one of their communications is one method the Fair Housing Center measures the effectiveness of its efforts.

The Fair Housing Center will celebrate its 50th anniversary in 2025. The City of Toledo has provided funding to the Center for all of those 50 years, which may be the longest running partnership between the City and a nonprofit organization. In this most recent year, The Center continued its status as one of the most leading fair housing organizations in the country, successfully advocating for policies to reduce childhood lead poisoning and discrimination based on source of income, while also litigating fair housing cases.

The DHCD uses ZoomGrants to manage CDBG, ESG, and HOME sub-recipients, including applications, reporting, and funding requests. The platform also supports the Citizen Review Committee in reviewing and recommending funding. Its implementation has streamlined processes, reduced time and costs, improved efficiency, and delivered significant savings for the department.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

The accomplishments table prescribed by HUD has been updated and contains a comparison of actual accomplishments vs. the goals of the five-year strategic and one-year plans. The following table represents the data related to accomplishments for the 2024 (50th) PY.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Business Recruitment/ Retention Assistance	Non-Housing Community Development	CDBG: \$100,000 (carryover)	Businesses assisted	Businesses Assisted	0	167		60	114	190%

Table 2 - COVID Accomplishments

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

As an entitlement community, the City of Toledo (COT) received **\$7,134,598** in Community Development Block Grant (CDBG) funds, **\$1,899,014.76** in HOME Investment Partnerships Program (HOME) funds plus **\$2,888** in program income, and **\$646,429** in Emergency Solutions Grant (ESG) funds for the 2024 (50th) program year. The activities undertaken supported the goals outlined in the 2020–2024 Five-Year Consolidated Plan and the 2024 Annual Action Plan.

The Department of Housing and Community Development (DHCD) evaluated each funded project to ensure eligibility and compliance with CDBG, HOME, and ESG regulations. Potential applicants are educated on the priorities and goals established in the Five-Year Consolidated Plan, and each funded proposal is required to address at least one of those priorities.

A significant portion of CDBG and HOME resources were directed toward housing activities, including the rehabilitation of owner-occupied and rental units, as well as down payment assistance to promote affordable homeownership. Housing activities and code enforcement remain among the DHCD’s highest priorities. Complementary efforts - including the prevention and reduction of blight, the provision of basic needs and social services, and economic development activities - further strengthened the City’s ability to serve low- and moderate-income residents while reducing blight in low-income neighborhoods.

In program year 2024–2025, the Department of Housing and Community Development (DHCD) reviewed and certified five agencies as Community-Based Development Organizations (CBDOs). Of these, four agencies received CDBG funding - two for public services, one for affordable housing, and one for new housing construction. The certified CBDOs focused their efforts in the Old South End and Junction NRSAs.

The accomplishments outlined in Table 1 reflect progress made during program year 2024 toward the goals established in the 2020–2024 Consolidated Plan and the 2024 Annual Action Plan. Table 2 provides a summary of outcomes achieved through the City’s COVID-related initiatives.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG	HOME
White	7,106	26
Black or African American	8,937	32
Asian	27	0
American Indian or American Native	350	0
Native Hawaiian or Other Pacific Islander	37	0
Total	16,457	58
Hispanic	1,978	1
Not Hispanic	14,149	57

Describe the clients assisted (including the racial and/or ethnicity of clients assisted with ESG)

	HESG
American Indian, Alaska Native, or Indigenous	115
Asian or Asian American	1
Black, African American, or African	471
Hispanic/Latina/e/o	21
Middle Eastern or North African	0
Native Hawaiian or Pacific Islander	0
White	316
Multiracial	96

Client prefers not to answer	2
Data not collected	4
Total	1,026

Table 3 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Data regarding beneficiaries of CDBG, CDBG-CV, HOME, and ESG assistance is shown in the tables above. Under CDBG, **54%** of those served were minorities (primarily Black or African American), and under HOME, **55%** were minorities. Additionally, **12%** of CDBG beneficiaries and **2%** of HOME beneficiaries identified as Hispanic.

The tables do not reflect all racial and ethnic groups assisted. Additional categories reported in IDIS include:

- American Indian/Alaskan Native & White - **3**
- Asian & White - **1**
- Black/African American & White - **420**
- American Indian/Alaskan Native & Black/African American - **1**
- Other Multi-Racial - **1,134**

Of those in the above categories, **409** individuals or families (**26%**) identified as Hispanic.

The HESG racial composition of beneficiaries, as reported in SAGE, shows that **46%** were Black or African American and **2%** were Hispanic.

As illustrated in the attached maps, the largest concentrations of minorities in Toledo reside within low- and moderate-income census tracts.

In compliance with HUD regulations, the City of Toledo allocated at least 70% of its 2024–2025 CDBG entitlement award to programs that directly benefit low- and moderate-income individuals and families.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	9,149,598	6,542,265
HOME	public - federal	4,548,855	2,578,795
ESG	public - federal	646,429	586,900
HUD Section 108	public - federal	32,134,000	0
Continuum of Care	public - federal	4,398,182	2,643,985
HUD Office of Lead Hazard Control and Healthy Homes	public - federal	2,604,133	1,025,392
CDBG-CV	public - federal	113,947	101,029
HOME American Rescue Plan (HOME-ARP)	public - federal	7,789,937	37,223
United States Department of Treasury	public - federal	3,193,753	1,856,995
Lead Hazard Control and Healthy Homes	public - federal	70,115	134,980
BP Husky Settlement	private	700,334	326,205
Ohio Lead Safe	public – federal	500,000	500,000
Ohio Department of Development	public – federal	3,446,000	185
EDI Community Project Funding (CPF) Grant	Public – federal	4,000,000	1,605

Table 4 - Resources Made Available

Narrative

The table above represents the amount of resources available and the amount expended in 2024 (50th) PY. Other funding sources included expenditures through the American Rescue Plan Act (ARPA), HUD Office of Lead Hazard Control and Healthy Homes, CDBG-CV, ESG-CV, United States Department of Treasury, Lead Hazard Control and Healthy Homes, Ohio Department of Health, Land Bank, and BP Husky Settlement.

For Continuum of Care (CoC), the CoC partners receive and request the funding contract directly from HUD. Some CoC partners have program year or spending cycle start dates that differ from the CAPER reporting period.

The city was awarded **\$5,979,865** in Community Development Block Grant (CDBG-CV) funding and **\$4,875,338** in Emergency Solutions Grant (ESG-CV) funding. As of this report, the ESG-CV allocation has been fully expended, while the CDBG-CV funds are still being drawn down to complete remaining activities. To date, approximately **\$5,436,444.89** of CDBG-CV funds have been spent.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Citywide	68	71	
Englewood NRSA	15	12	NRSA
Garfield /Starr/ Raymer	1	1	Targeted Investment Area
Junction/Englewood	1	1	NRSA
Old South End NRSA	15	15	NRSA

Table 5 – Identify the geographic distribution and location of investments

Narrative

National economic conditions continue to affect Toledo’s efforts in neighborhood revitalization and stabilization. Many neighborhoods that were once thriving now face challenges such as an aging housing stock, increasing numbers of abandoned and deteriorating structures that contribute to blight, and limited opportunities for economic development. To address these issues, investments were directed to support low- and moderate-income residents, with a focus on minorities, retirees, and individuals with disabilities.

The Department of Housing and Community Development (DHCD) concentrated resources in the city’s most economically distressed areas. In alignment with the city’s strategy, efforts were targeted to census tracts where more than 51% of residents are low- and moderate-income (see attached maps).

The low- and moderate-income census tracts are: 8, 9, 10.01, 10.02 11, 12.02, 13.02, 14, 15, 16.01, 16.02, 17, 18, 19, 20, 24.01, 24.02, 25, 26, 27, 28, 29, 30, 31, 32, 33, 35, 36, 39.01, 39.02, 40, 42, 46, 47.01, 47.02, 48, 49, 50, 51.01, 51.02, 52, 53, 54, 57.01, 59.02, 66, 67, 68.01, 68.02, 73.02, 73.06, 73.07, 103, 105 and 106.

In addition to Citywide activities, the city also used geographic, place-based strategies to reach the goals that were identified in the 2020-2024 Five-Year Consolidated Plan. The DHCD concentrated its efforts in the most economically disadvantaged areas of the City by using two main strategies: (1) slum and blight reduction and (2) targeted investments.

In February 2023, HUD approved the Old South End and Englewood as Neighborhood Revitalization Strategy Areas (NRSAs) for the City of Toledo’s Department of Housing and Community Development (DHCD).

In 2024, HUD also approved the Junction Choice Neighborhood Plan, making Junction the City’s third NRSA. Additionally, the DHCD identified Garfield, Raymer, and Starr in East Toledo as additional target areas for focused investment.

In program year 2024–2025, the Department of Housing and Community Development (DHCD) reviewed and certified five agencies as Community-Based Development Organizations (CBDOs). Of these, four agencies received CDBG funding - two for public services, one for affordable housing, and one for new housing construction. The certified CBDOs focused their efforts in the Old South End and Junction NRSAs.

The COT, in adherence to HUD regulations, allocated at least 70% of its 2024-2025 CDBG entitlement award to programs that directly benefit low- and moderate-income individuals and families.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The COT partners with federal, state, and local organizations to address the priorities identified in the 2020-2024 Five-Year Consolidated Plan. HUD's allocations assisted in leveraging other resources and efforts for the COT and its Third-Party Partners. The combination of CDBG dollars and other resources makes it possible for Third-Party Partners to carry out their activities. Federal and state funds are leveraged by non-profits, which seek out additional dollars for operational and project expenses.

To satisfy the DHCD's policy on matching requirements for CDBG and ESG, Third-Party Partners are required to seek other funding sources as a 1:1 match for their CDBG and ESG allocation. Resources used as a match included federal, state, and local resources such as Local Initiatives Support Corporation (LISC), Ohio Department of Job and Family Services (ODJFS), Ohio Arts Council, Hospital Council of Northwest Ohio (HCNO), United Way of Greater Toledo, Area Office on Aging, private foundations and contributions, grants, local banks, program fees, developer's fees, etc.

Each HOME Participating Jurisdiction (PJ) incurs a match liability, which must be satisfied by the end of each fiscal year. This liability requires PJs to match 25 cents for each dollar of HOME funds spent toward affordable housing. Match contributions must be ones that are permanent to affordable housing provided by any public or private donor and must come from a non-federal source. The COT remains at 100% match reduction due to its distress status.

To carry out housing, economic, and community development activities, CDBG- and HOME-funded programs may obtain publicly owned land or property through the Lucas County Land Reutilization Corporation (Land Bank). HOME funds may support rehabilitation but are not used directly to acquire the property.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	0
2. Match contributed during current Federal fiscal year	0
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	0
4. Match liability for current Federal fiscal year	0
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	0

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	80	161
Number of Non-Homeless households to be provided affordable housing units	148	98
Number of Special-Needs households to be provided affordable housing units	126	35
Total	354	294

Table 12 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	80	161
Number of households supported through The Production of New Units	22	0
Number of households supported through Rehab of Existing Units	226	75
Number of households supported through Acquisition of Existing Units	26	58
Total	354	294

Table 13 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

In the table above, the one-year goal was estimated in the Annual Action Plan. The actual numbers for 2024 (50th) PY are reported with details below on the goals.

As in the previous year, with the availability of Emergency Rental Assistance (ERA) funding from the U.S. Department of Treasury, most of the potential landlord participants opted to use ERA funding as opposed to Tenant Based Rental Assistance (TRBA).

Rental and other associated housing costs to apply and engage in new housing have significantly raised the cost per household served. This has had a significant impact on the number of households that can be served.

Discuss how these outcomes will impact future annual action plans.

The Department of Housing and Community Development (DHCD) has renewed its focus on core programs, including Owner-Occupied Rehabilitation, Down Payment Assistance, Affordable Housing Developments, and Rooftops Programs. These efforts, combined with proactive contractor engagement, staff training, and regular monitoring through the Integrated Disbursement Information System (IDIS), will strengthen the City's ability to close out projects in a timely manner. These outcomes will inform future annual action plans by reinforcing the importance of prioritizing resources toward programs that demonstrate efficiency and strong community impact.

As staff capacity and contractor partnerships strengthen, future plans will continue to emphasize rehabilitation, homeownership, and affordable housing development as central strategies for meeting

community needs. Lessons learned from HOME-ARP, particularly in collaborating with partners to address barriers for Qualifying Populations (QPs) and in implementing Tenant-Based Rental Assistance (TBRA), will also guide the design of future action plans to ensure that federal resources are effectively aligned with local housing priorities.

Additionally, the City of Toledo's ordinance requiring Project Labor Agreements (PLAs) for projects receiving more than \$100,000 in funding presents a challenge for nonprofit organizations. Because this requirement limits their ability to carry out affordable housing projects, future annual action plans may need to adjust production goals downward, seek alternative funding mechanisms, or identify strategies to support nonprofits in navigating this barrier. This challenge will directly influence how outcomes are set and measured in upcoming program years.

In summary, the outcomes from current initiatives improved program efficiency, stronger contractor engagement, lessons from HOME-ARP implementation, and barriers posed by PLA requirements will collectively shape future annual action plans by focusing on what is working well, addressing systemic challenges, and setting realistic, achievable goals.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	21	0
Low-income	14	14
Moderate-income	0	14
Total	35	28

Table 14 – Number of Households Served

Narrative Information

The DHCD continues its partnership with local non-profit agencies to carry out housing support assistance. The agencies administer the rehabilitation of existing units and the production of new units. The primary goals of the partnership with non-profits are to increase housing support productivity while reducing costs. In addition to increased productivity and reduced costs, the partnerships also help to facilitate interaction, such as outreach, trust, and sharing, between the communities being served and the agencies that provide the support. The DHCD is committed to working with its partner(s) to improve and provide decent and safe housing to the communities it serves.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)
Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Over the past year, the Continuum of Care (CoC) has made significant strides in addressing unsheltered homelessness through increased coordination, targeted outreach, and structural improvements. A key development has been the establishment of an Encampment Engagement email thread, which facilitates real-time communication among a cross-sector group of partners - including police, code enforcement, street outreach teams, and PATH employees. This collaborative model has improved the identification of encampments and streamlined service delivery to those residing in unsheltered locations.

Additionally, the community is working toward integrating street outreach as a formal access point into the Coordinated Entry System. This shift will ensure that individuals encountered through outreach efforts can be assessed and connected to housing resources more efficiently. In support of this evolution, the CoC has also revamped the housing prioritization assessment tool, with implementation of the new version planned for January 2026. These updates aim to more accurately capture individual needs and vulnerabilities, allowing for more equitable housing placements.

The CoC has more fully integrated street outreach efforts into the local Coordinated Entry System. Outreach teams assess individuals and families in the locations where they are found and offer a range of services as appropriate, including engagement, case management, transportation, and connections to emergency health and mental health care. Emergency hotel and motel funds are used to bridge the gap between referral and placement into permanent housing when shelter or housing is unavailable. Enhancing the CoC with Housing Navigators that can assist with Coordinated Access is the next step in integrating street outreach into the mainstream CoC process.

The **Neighborhood Properties, Inc. (NPI) PATH Team**, which receives both CoC and Substance Abuse and Mental Health Services Administration (SAMHSA) PATH funding, plays a critical role in outreach. PATH focuses on assertive outreach to individuals experiencing Severe and Persistent Mental Illness (SPMI), including those with co-occurring substance use disorders. PATH staff assist with documents, applications, and appointments needed for housing and treatment, and typically work with individuals for up to 90 days. Their work is vital in bridging gaps between street-level engagement and long-term housing solutions.

The **Zepf Center's Safety Net Street Outreach Program (SOP)** provides dedicated services to runaways and homeless youth, including those at risk of trafficking. Zepf operates Lucas County's only drop-in shelter for youth under age 18 and has been providing youth-centered street outreach since 2019. The program continues to engage youth and collaborates with multiple coalitions, including the Lucas County Human Trafficking Coalition and the Toledo Runaway Task Force. SOP focuses on building trust, connecting youth to essential services, and ultimately supporting their exit from homelessness.

Despite these efforts, systemic barriers persist. The Grant Pass v. Johnson case has opened the door to discussions around encampment response, but local communities still face legal, logistical, and moral complexities in balancing enforcement with support. There are limited resources for street outreach expansion, which limits staffing and restricts the frequency and geographic coverage of encampments, especially in isolated areas.

The shortage of affordable and appropriate housing solutions, especially for individuals in the 18-24-year-old age range, including those aging out of foster care, remains a critical gap. While outreach teams are actively engaging this population, the lack of long-term housing solutions increases the risk of chronic homelessness. The creation of Park Apartments will help alleviate this shortage for single young adults; however, other models will need to be identified to assist families where the head of household is a young adult. TLCHB is participating in a statewide cohort focused on developing housing and support models for transition-age youth. While outreach is a crucial first step, addressing these challenges will require expanded housing stock, flexible funding, and policies that center the needs of vulnerable populations.

Addressing the emergency shelter and transitional housing needs of homeless persons

Over the past year, the Toledo Lucas County Homelessness Board (TLCHB) and the Continuum of Care (CoC) have made important progress in expanding outreach services, improving coordinated access, and developing new housing resources for individuals experiencing homelessness. One major accomplishment includes the addition of 46 Permanent Supportive Housing (PSH) units for single adults, which enhances the system's capacity to house individuals with high service needs. In parallel, the CoC is developing a new PSH program specifically for youth aging out of foster care (Park Apartments), with programming expected to begin in late 2025. This effort addresses a longstanding gap in services for transition-age youth who are at high risk of homelessness and housing instability.

To improve coordination and response to unsheltered homelessness, the CoC launched an Encampment Engagement email thread that brings together outreach providers, zoning officials, law enforcement, and city staff. This structure has enhanced the community's ability to quickly identify encampments and deliver services in a coordinated, trauma-informed way. In addition, the CoC is moving toward formally including street outreach as a direct access point into the Coordinated Entry System, ensuring that unsheltered individuals can be assessed and referred to housing without the need to enter an emergency shelter first. In support of this shift, a new housing prioritization assessment tool has been developed and will be implemented in January 2026 to better capture household needs and streamline housing placements.

The CoC continues to partner with key outreach providers, including Neighborhood Properties Inc.'s PATH Team and the Zepf Center's Safety Net Street Outreach Program. The PATH team, funded by SAMHSA and the CoC, serves individuals with serious mental illness and co-occurring disorders, providing engagement, case management, and assistance with obtaining documentation and treatment. The Zepf Center focuses on engaging runaway and homeless youth, including those at risk for trafficking, and operates Lucas County's only drop-in center for youth under 18. Both teams play vital roles in connecting vulnerable populations to essential services and housing pathways.

Despite these advancements, several barriers continue to limit progress. The most significant is the ongoing shortage of affordable housing in Lucas County. While 364 households exited homelessness, only 256 moved into affordable units, underscoring the mismatch between need and availability. The lack of emergency housing options and limited outreach resources also restrict system flexibility and responsiveness. Legal uncertainty following the *Grant Pass v. Johnson* case and the President's executive orders regarding unsheltered homelessness has complicated encampment response strategies, requiring communities to balance enforcement with the rights and needs of unsheltered individuals.

In response to these challenges, TLCHB will focus on expanding housing access, advocating for more street outreach, and supporting the development of housing for youth. The CoC will also improve data systems, formalize outreach as an access point, and implement the updated assessment tool in early 2026. These changes are aimed at building a more equitable and effective homeless response system that prioritizes housing stability for all populations.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Over the past year, the Toledo Lucas County Homelessness Board (TLCHB) and its Continuum of Care (CoC) partners have worked diligently to prevent homelessness among extremely low-income individuals and families, with focused efforts on those at risk of homelessness following discharge from publicly funded systems of care. This includes people leaving hospitals, mental health treatment centers, foster care, youth facilities, and correctional institutions. Significant progress has been made in coordinating cross-sector partnerships to identify and support individuals vulnerable to housing instability during critical transition periods.

One of the key accomplishments has been the strengthening of community partnerships and protocols aimed at preventing discharge into homelessness. For example, the CoC has continued to collaborate with the Lucas County jail, local hospitals, and mental health institutions through the Housing Justice Peer Network to identify best practices for individuals who are homeless or at risk to engage inmates with services before they are released.

The CoC's Encampment Task Force and Encampment Engagement communication system - established in 2024 - have also played a critical role in tracking individuals with system involvement and ensuring that they are connected to outreach teams and housing resources promptly.

Progress has also been made through the expansion of permanent supportive housing units and the upcoming development of a housing program for youth aging out of foster care, with implementation scheduled for September 2025. These targeted housing initiatives aim to catch individuals during vulnerable transitional periods and offer immediate stabilization through permanent housing and supportive services.

Additionally, outreach providers like PATH and the Zepf Center actively engage clients who have recently exited mental health, foster care, or juvenile justice systems, helping them connect to services and avoid homelessness altogether.

However, barriers continue to impact progress in preventing discharge into homelessness. Chief among these is the lack of standardized discharge policies across institutions. While some facilities have protocols in place, others discharge individuals without ensuring they have a safe and stable place to go. This is particularly true for those exiting from local jails, inpatient mental health facilities, and youth care settings. Furthermore, the limited availability of emergency housing, transitional programs, and affordable rental units makes it difficult to offer immediate placements for individuals who are identified at discharge as being at risk of homelessness.

The CoC also faces challenges in data sharing and coordination across systems, which hinders the ability to identify at-risk individuals before discharge. Without a centralized system to flag clients with prior system involvement, opportunities to intervene early are often missed. In the case of youth aging out of foster care, the absence of real-time data sharing with the child welfare system has delayed timely referrals to housing programs or case management services.

To address these challenges and improve outcomes, TLCHB is working on formalizing and aligning discharge planning protocols with key institutional partners. The CoC is developing MOUs and workflow agreements

with local hospitals, correctional facilities, and child welfare agencies to ensure housing status is assessed as part of discharge planning. Additionally, a statewide initiative in which TLCHB is actively participating is focused on expanding housing and support models for transition-age youth. Investments are also being made in improved HMIS data integration to support earlier identification of individuals in need of housing stabilization pre-discharge.

Moving forward, the CoC will continue to prioritize cross-system coordination, early intervention, and targeted housing placements to prevent homelessness before it begins especially for those exiting publicly funded systems of care and already navigating economic and social vulnerability. The CoC recognizes a gap in service delivery for individuals and families who are likely to become homeless after being discharged from institutions. Conversations with key players in institutions help to reduce the gap in systemwide homelessness.

TLCHB has developed a strategic plan to address barriers and gaps to the homelessness system, including the implementation of Open HMIS. The concept of Open HMIS will allow system partners to work more cohesively and allow data to inform outcomes and improvements in a more meaningful way.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Over the past year, the Toledo Lucas County Homelessness Board (TLCHB) and its Continuum of Care (CoC) partners have made measurable progress in supporting individuals and families experiencing homelessness particularly those who are chronically homeless, families with children, veterans, and unaccompanied youth on their path to permanent housing and independent living. A key priority has been to reduce the length of time people remain homeless, increase access to affordable housing, and support long-term stability to prevent returns to homelessness.

A major accomplishment during this reporting period was the addition of 46 new Permanent Supportive Housing (PSH) units for single adults experiencing chronic homelessness. These units directly address the need for stable, service-enriched housing for individuals with long histories of homelessness and disabling conditions. In parallel, the CoC continues to prioritize households for housing through a Coordinated Entry System that uses a vulnerability-based assessment tool, ensuring those with the greatest needs are matched with appropriate housing resources as quickly as possible. In January 2026, an updated version of the assessment tool will be launched to improve accuracy in identifying needs and prioritizing referrals across all populations.

Progress has also been made in reducing barriers to accessing permanent housing, particularly through the integration of street outreach into Coordinated Entry. Outreach teams will have the ability to engage individuals in encampments, vehicles, and public spaces, offering assessments and direct referrals to housing programs without requiring shelter stays. This low-barrier approach has proven especially effective for engaging chronically homeless individuals, unaccompanied youth, and veterans who may be reluctant to access traditional shelter services. Additionally, emergency hotel and motel funds have been used to bridge the gap for households awaiting placement, helping to reduce the time spent unsheltered.

Families with children continue to be a high priority for Rapid Re-Housing (RRH) programs, which provide short- to medium-term rental assistance and supportive services. These programs have helped families exit homelessness quickly and build the capacity to maintain housing independently. TLCHB monitors returns to homelessness through its HMIS system and has observed a decrease in recidivism among RRH participants who receive comprehensive case management and follow-up services.

For unaccompanied youth, the Zepf Center's Safety Net Program remains a key asset. It operates the only youth-focused emergency drop-in shelter in Lucas County and conducts targeted outreach to youth experiencing or at risk of homelessness. A forthcoming PSH project for youth aging out of foster care, scheduled to begin in 2025, will provide a long-term solution for youth with high service needs.

Despite these gains, several barriers continue to impact the CoC's ability to move people into permanent housing quickly and keep them stably housed. The most significant challenge is the ongoing shortage of affordable rental units in the region. In 2024, for ESG funded project, while 364 households exited homelessness, only 256 were able to secure affordable housing units. This gap reflects a broader issue of supply versus demand, which slows the flow of individuals through the system and increases time spent in shelters or on the streets.

Lastly, funding constraints limit the ability to scale up case management and housing navigation services, both of which are essential for supporting individuals in transitioning to and maintaining housing. To address these challenges, TLCHB is implementing several key improvements. These include advocating for more inclusive eligibility criteria for PSH, supporting affordable housing development efforts, expanding short term RRH capacity, and enhancing data collection to identify trends and target interventions more effectively. The CoC is also participating in a statewide cohort focused on increasing housing stability for transition-age youth and will continue to promote cross-sector collaboration to ensure long-term housing success for all populations.

These collective efforts aim to not only shorten the time individuals and families experience homelessness but also to ensure they are connected to the right supports, remain housed, and ultimately regain independence and stability.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

During the 2024 Program Year Lucas Metropolitan Housing (LMH) accomplished the following:

Strategies:

1. New Strategic Plan

Actions Completed:

In 2024 LMH released its “**Strategic Action Blueprint; Building For The Future**”. This plan is meant to guide the agency from 2024-2028.

Six goals were identified with strategies, tasks noted along with how success would be measured. The Executive Office and Compliance Department, in conjunction with Agency department heads, monitors the progress of the goals, and reports out status results at Board Meetings and within the 5 Year & Annual Plans.

The six goals are as follows:

- i. Invest in Employee Growth and Enhance Workplace Satisfaction
- ii. Increase Income and Pursue Diverse Revenue Streams
- iii. Lead in the Effort to Create Affordable Housing Opportunities in Toledo and the Region
- iv. Streamline Processes and Elevate User Experience and Satisfaction
- v. Launch and Inclusive Communication Strategy to Educate Stakeholders and Foster Community Awareness
- vi. Building Pathways to Family Income Wealth Building and Economic Advancement
- a. In this plan, LMH aligned the above goals to its’ Mission, Vision & Values.
 - i. Mission – To lead in the development and sustainability of housing accessible to all and providing pathways to an enhanced quality of life to empower vibrant communities.
 - ii. Vision – To be a lead partner in creating communities of choice where everyone has a place to call home.
 - iii. Values – Integrity, Influence, Inspiration, Equity, Servant-Leadership, Passion, Respect
2. Portfolio Repositioning Strategy
 - a. Create housing opportunities in existing high opportunity neighborhoods.
 - b. Improve neighborhood conditions to create mixed income communities of choice.

Actions Completed:

- a. LMH has been examining financially viable methods in which to transition some of its Low-Income Public Housing (LIPH) Portfolio to a subsidy platform other than LIPH operating subsidy, while keeping the units affordable at 30% of AGI and ensuring the fiscal health of the agency.

Status: In October 2023 LMH received an award from HUD to enter into a Housing Assistance Payment (CHAP) for TenEck Towers. LMH is working with developer partner Gorman USA to put together a financing plan for the Rental Assistance Demonstration (RAD) conversion of the building.

The financing pro forma demonstrated a funding gap. Consequently, the project has been placed on hold until additional funding sources can be identified.

- b. LMH expects to increase the number of apartment units through a combination of new construction, renovation, acquisition, project-based vouchers (PBV), Housing Choice Vouchers, Low-Income Housing Tax Credits and by leveraging funds through the Rental Assistance Demonstration (RAD) program.

Status:

Park Apartments, supportive housing for transition age youth ages 18-24, will wrap up construction in August 2025, with move in is slated for October 2025.

Palmer Gardens financial closing is slated for 4th quarter of 2025.

Thurgood Marshall, housing for seniors, is in the planning stage with no specific closing date due to site control challenges.

Mission Point, housing for homeless, is planned as a multifamily building that will provide housing for chronically homeless individuals through a partnership with Cherry Street Mission. This project has received a 9% Low-Income Housing Tax Credit (LIHTC) Award Reservation from OHFA in May 2025. The projected closing is spring 2026 with construction proceeding soon after.

Washington Village, a homeownership opportunity, in collaboration with the city of Toledo, is designing a 5 single family unit housing program for families ready to be homeowners.

Collingwood Green V project, housing for seniors, is currently under construction and will be completed in 2026.

- c. Improve neighborhood conditions and create housing in high opportunity areas, leveraging on capital through public resources, corporate support and private investments."

Status: Partnering with Evergreen Residential Preservation Specialist to renovate Palmer Gardens a 75-apartment family complex located in a high opportunity neighborhood of Toledo Old Orchard. The financial closing date is slated for September 2025.

Collaborated with Family House, an institution that provides housing to homeless families, on a beautification project, including but not limited to litter pick-up throughout the neighborhood, mulching the Family House landscape and planting flowers.

Public Housing community beautification projects throughout LIPH program communities.

Renovations of multiple single-family unit homes throughout the city of Toledo.

- d. Transition to a flexible and reliable financial platform while maintaining and growing the supply of income-based affordable housing.

Status: LMH has begun the implementation of a repositioning and renovation strategy. This includes work being done as part of the Collingwood Green phased development, Weiler Homes and Spieker Terrace renovations, Vistula Manor improvements, McClinton Nunn improvements and the TenEyck Towers RAD conversion.

- e. Renovate our existing housing stock on a Tier Approach to address the unmet capital needs backlog and build new mixed-income communities in all areas.

Status: Capital projects are ongoing at multiple sites, with annual expenditures of \$6-\$8 million. Expenditures are anticipated to increase by \$15-million over the next 2 years.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Lucas Metropolitan Housing has received the designation as a Financial Opportunity Center (FOC). LMH is the first housing authority in Ohio to receive this designation.

- FOCs are on-site career and financial coaching service centers that help families living on low- to moderate-income build effective money habits and focus on the financial bottom line.
- LMH has partnered with LISC to implement a successful model. LISC has over 100 FOCs across the country that are situated within local community organizations. These organizations are known for their exceptional services, convenient location, and trusted reputation. The success of the FOC will rely heavily on ESUSU and employment support.
- FOCs provide employment and career counseling, one-on-one financial coaching and education, and low-cost financial products that help build credit, savings, and assets. They also connect clients with income support such as food stamps, utility assistance, and affordable health insurance. The cornerstone of the FOC model is providing these services in an integrated way - rather than as stand-alone services - and with a long-term commitment to helping clients reach their goals.

Status:

The Financial Opportunity Center Model (FOC) is now a permanent, core LMH service thanks to the partnership with LISC (Local Initiative Support Corporation) Toledo. It's fully institutionalized and expanded across multiple properties.

FOC Highlights:

In 2024, the FOC served 111 residents, delivering over 800 coaching sessions. Notable outcomes included:

- 79 residents were connected to income support, with over half approved and receiving benefits.
- Net worth increased for 29 residents.
- Multiple residents obtained living-wage employment.

The FOC continues to partner with programs such as ESUSU rent reporting, Getting Ahead, Benefits Bridge, and CC2JR, and works closely with Owens Community College, GED providers, and entrepreneurship coaches.

In 2023, LMH hired dedicated financial coaches and an FOC coordinator, allowing expansion to additional developments. The Weiler Homes food pantry is now tied to FOC engagement, and adult education linkages are being strengthened to support economic mobility goals.

Actions taken to provide assistance to troubled PHAs

Lucas Metropolitan Housing (LMH) is not a troubled PHA.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City does not impose any public policies that would present barriers to affordable housing, such as rent controls or impact fees. Instead, the City seeks to maintain inclusionary zoning through policies such as allowing multifamily housing in select residential districts (as well as in commercial and mixed-use districts) and the adoption of flexible zoning regulations for existing inadequate lots to enable infill. While most land in the City has already been developed, zoning regulations consider the ongoing need for inclusionary practices to provide opportunities for the creation of affordable housing.

While hurdles to affordable housing exist, many of these are outside of City control, e.g., higher land costs, and rehabilitation costs in underdeveloped areas of the city can significantly increase development costs and rehabilitation costs to bring units up to code. Additionally, conditions such as population outflow to surrounding suburbs and poor property maintenance can result in the loss of viable housing stock through vacancy and dilapidation. These conditions often disproportionately restrict housing opportunities for LMI individuals and impose higher housing costs, reducing the range of housing choices in many neighborhoods.

Although suitable infrastructure is widely available throughout the city, sustained code enforcement efforts are required to keep the current affordable housing stock in workable condition and stabilize existing neighborhoods. While these initiatives are needed throughout the city, Toledo restricts the use of CDBG funds for code enforcement actions to qualifying low- and moderate-income districts that are in deterioration.

The Department of Housing and Urban Development requires jurisdictions that receive federal dollars, directly or indirectly, to complete an Analysis of Impediments to Fair Housing Choice (AI) as part of the jurisdictions' certification of affirmatively furthering fair housing. The federal Department of Housing and Urban Development and the State of Ohio's Department of Development both prescribe and monitor the AI process. To be eligible for HUD Community Planning and Development formula funding, a jurisdiction must (i) certify its commitment to actively further fair housing choice; (ii) maintain fair housing records; and (iii) complete an Analysis of Impediments to Fair Housing Choice. Partnering with The Fair Housing Center (TFHC), a 2020-2024 Analysis of Impediments (AI) to Fair Housing Choice was completed, and now a 2025-2030 AI has been completed as well. The AI includes action steps for the removal of fair housing obstacles in its Fair Housing Action Plan (FHAP). The COT and TFHC work with community partners in putting the Five-Year FHAP into action.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City of Toledo (COT) and its partners took several steps during the program year to address barriers that limit access to housing and services for underserved populations. Despite ongoing challenges, including limited resources and local policy constraints, progress was made through both policy initiatives and program delivery.

One significant obstacle arose from Toledo Municipal Code Section 187.12(d) requiring any project that receives \$100,000.00 or more, funded by the City of Toledo to undertake a new process before the City will provide the funding. This new process includes a meeting with the Northwest Ohio Building and Construction Trades Council ("NWOBTC") and entering into Project Labor Agreement (PLA) that requires negotiations over wages with local unions. While intended to strengthen engagement with local labor organizations, this

requirement has created difficulties for nonprofit developers, particularly those working to expand affordable housing or rehabilitate existing units. The Fair Housing Center has recommended amending this ordinance to exempt nonprofits serving historically disinvested area. The City has, so far, not taken this step to amend the local law.

One barrier to the development of affordable housing is the City of Toledo's current zoning code's restrictions on the development of group homes for persons with disabilities. The Fair Housing Center has proposed changes to the zoning code to eliminate this barrier. However, the City has chosen not to adopt The Center's recommendation. The City has received additional grant funds to review local zoning laws for improvements, and The Center hopes this may yield an opportunity to review this issue and make appropriate corrections to the local law.

Beyond regulatory challenges, the greatest obstacle remains the scale of need versus available funding. Demand for affordable housing, community development programs, and basic needs services continues to far exceed resources. Recognizing this, the City prioritized affordable housing as the highest need in its Strategic Plan, while also supporting programs that address fundamental basic needs.

To advance affordable housing, COT promoted owner-occupied rehabilitation, preservation of existing housing stock, and new homeownership opportunities for first-time buyers, seniors, individuals with disabilities, and other special populations. Through the HOME program, multiple initiatives supported both housing stability and foreclosure prevention.

COT also strengthened tenant protections and access to legal resources. In 2023, the Tenant Landlord Services Manager launched community-wide surveys for tenants and landlords. There were two separate surveys, one for landlords and one for tenants. 180 landlords and 456 tenants completed the surveys.

The survey results proved valuable since they were employed by the local housing authority in their strategic planning. Furthermore, the survey was utilized to develop several educational messages for billboards throughout the city, focusing on rent escrow, illegal water shutoffs, and source income discrimination. The billboards were successful in that they sparked conversations throughout the community.

A new concept called "**Tenant Tuesday**" was piloted in October 2023. Tenant Tuesday offered free, private legal counsel to renters in a clinic setting on a myriad of tenant issues, such as living conditions, lease review, eviction sealing, and tenant/landlord obligations, to name a few. Tenant Tuesday was organized in collaboration with Legal Aid of Western Ohio, The Fair Housing Center, Advocates for Basic Legal Equality, Inc., The Toledo Bar Association, and the University of Toledo Law School Legal Clinic, all of whom provided free legal assistance. Sixty-six individuals were serviced at the clinic, and a special clinic on "housing conditions" was established due to the tremendous demand for legal counsel on the subject.

The city has made some progress toward implementing a local source of income discrimination law. The city also made some headway toward enacting a local lead poisoning prevention law, which requires property inspections to protect children from being poisoned in unsafe housing stock. The City has increased funds to the local legal aid agency in order to provide greater representation in court. The City also changed some local laws related to access to water services for tenants with the intent of ensuring better access to water services for tenants.

One important new development has been the creation of a new program by The Fair Housing Center thanks to funding from the City of Toledo. The new program assists tenants with housing conditions issues. One of the most prevalent issues identified in the Analysis of Impediments to Fair Housing Choice was the quality of housing conditions. Many tenants live in substandard conditions with few options for other housing.

The new program provides legal representation for the tenant in filing a rent escrow case in court. The program has already recovered more than \$50,000.00 back for tenants who faced substandard conditions and ensured the provision of safe habitable housing for residents.

The COT and TFHC continue to work with community partners on the implementation of the Five-Year Fair Housing Action Plan (FHAP). The Fair Housing Action Plan provides quarterly and annual updates on the action steps that are undertaken to address barriers to housing choice identified in the 2020-2024 Analysis of Impediments. (Please see the Fair Housing Action Plan for more detailed information in the attachments)

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The COT uses a network of health officials, community development corporations, public housing entity, social service agencies, and other city departments to reduce lead-based paint hazards. The effort targets central city neighborhoods where low-income families occupy two of every three residential units, and the concentration of pre-1978 structures containing lead paint is estimated to exceed 85 percent.

The Department of Housing and Community Development (DHCD) housing programs utilize hazard control methods to ensure units are lead-safe, including low-level interventions, interim controls, and hazard abatement. Abatement is the city's preferred method of addressing paint surfaces; however, the programs do not perform full abatement but rather the replacement of specific components and systems. Therefore, units are made lead-safe but not lead-free (**please see the definition of lead-safe following this section**).¹

The DHCD receives funding to administer dedicated lead-based paint hazard control activities through the Lead-Based Paint Hazard Control Grant program. Funding sources include the HUD Office of Lead Hazard Control and Healthy Homes (OLHCHH), which includes both the Lead Hazard Reduction grant as well as the Healthy Homes and Weatherization Coordination Demonstration Grant (HHWCD), the Toledo-Lucas Regional Health District Cenovus-EPA settlement, the Ohio Department of Development (ODOD) and the Community Development Block Grant for supplemental funding on high-cost units.

During the PY 2024 reporting period, the DHCD continued to administer two OLHCHH grants along with two remaining dedicated lead-based paint hazard control funding sources.

Aggregate results from the dedicated lead-based paint hazard control activities during PY 2024 included **37** additional eligible units enrolled, **86** units having received a comprehensive Lead Inspection/Risk assessment and **43** units achieving lead clearance (18 owner-occupied and 25 rental). This equates to a total of **\$1,251,406.00** investment into the community, assisting **42** households, 24 children under the age of six in providing a lead-safe environment; additionally, 38 persons between the ages of 6-17 years of age and 58 persons 18 years of age and above were also positively impacted with a lead-safe unit in which to reside, with an average household income of 31.6% AMI.

The DHCD's lead program must still comply with Toledo Municipal Code Section 187.12(d) requiring the successful bidder of a public improvement contract of \$100,000 or greater, which is funded by the City of Toledo or other sources that do not exclude Project Labor Agreements ("PLA"), to enter into a PLA with the Northwest Ohio Building and Construction Trades Council ("NWOBTC"). The bidding documents for each such public improvement or private improvement funded in whole or in part by the City of Toledo shall contain a written provision requiring the successful bidder, and all the bidder's contractors and subcontractors, to comply with and adhere to all of the provisions of the project labor agreement negotiated by the Parties for the project. The City Administration is requiring prevailing wage and/or union labor agreements for the DHCD's current Lead Licensed contractors and also for any the third-party that would contract with lead-based paint hazard control program. The DHCD continues to develop expeditious ways to respond to the PLA requirements including a full revision of the current policy and procedure model for the LBPHC program.

The DHCD also provides ancillary lead-based paint hazard control activities through its other housing programs as well. The DHCD administers owner-occupied rehabilitation, rental rehabilitation, the Lead Based Paint Hazard Control grant program (LBPHC), and CHDO programs, which are required to incorporate lead inspections and/or assessments on any unit the DHCD evaluates. For rehabilitation projects, properties with lead hazards utilize component abatement, interim controls, standard practices, or lead-safe work practices. State-licensed lead abatement contractors and personnel, along with Certified Lead Renovation, Repair, and Painting contractors are used in accordance with federal regulations. All units are required to pass a final lead clearance examination upon completion of all work. For PY 2024, the DHCD continued to conduct Housing Quality Standard (HQS) inspections ensuring compliance with 24 CFR 982.401, for 534 units that were performed by licensed Lead Risk Assessors.

In PY 2024, the DHCD was able to make one owner-occupied unit lead-safe through the HOME-funded Owner-Occupied rehabilitation program. Homes awarded down-payment assistance through HOME funds were inspected for lead. Results of assessments and actions needed to meet city, state, and federal regulations require that the dwelling meet minimum property standards, and no deteriorated paint in excess of the following was found: 20 sq. ft. of exterior or 2 sq. ft. of interior surface, or 10 percent or more of any building component with a small surface painted area. In PY2024, **58** Down Payment Assistance grants were provided, with **58** lead visual assessments completed.

In addition to the efforts of the DHCD to reduce lead-based paint hazards, the COT revised and passed a new Lead-Safe Ordinance in September 2020. Under this Ordinance, 1-4-unit residential structures and family child care homes built prior to 1978 are to undergo and pass a lead clearance, which includes a visual and dust-wipe inspection, and register to receive a lead-safe certificate. To date, **4,325** units are complying out of approximately 30,000-40,000 estimated affected units. The ordinance activities will also generate a lead-safe unit registry to be developed and maintained by the Lucas County Regional Health District.

¹**Criterion for the definition of Lead-Safe is: at the time of the lead clearance inspection by a state licensed lead assessor, the property contained no lead hazards. Lead-Safe does not mean that all lead paint has been eliminated from the property. Criteria for designating a Lead-Safe unit includes: no visible paint chips or dust, all painted surfaces were visibly intact and windows were replaced or repaired. Additionally, dust wipes samples were collected and the lab results were in compliance with the state regulations of safe lead levels.**

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The Consolidated and Action Plans aim to reduce poverty in Toledo by helping individuals and families achieve stability through education, income growth, and healthier lives. The Department of Housing and Community Development (DHCD) supports housing initiatives that strengthen households by promoting economic opportunity, family stability, health improvements, homeownership, and overall community growth.

In addition, DHCD administers non-housing programs that encourage business creation and job retention in sectors such as construction, finance, and entertainment. These efforts not only support economic development but also make Toledo more attractive for future business and residential investment. DHCD also works in partnership with institutions such as ProMedica, Mercy Hospital, and community development corporations to concentrate resources in low-income and distressed neighborhoods, ensuring that programs reach the areas of greatest need.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The Department of Housing and Community Development manages all aspects of the HUD grant programs and recognizes the need to maintain a high level of coordination on projects involving other City departments and/or organizations. This collaboration assures efficient use of resources and optimal accomplishments.

The COT will continue to coordinate efforts with partners, including:

- Toledo-Lucas County Homelessness Board (TLCHB)
- Toledo-Lucas County Plan Commission
- United Way of Greater Toledo
- Lucas Metropolitan Housing (LMH)
- Mental Health and Recovery Services Board of Lucas County
- Lucas County Board of Developmental Disabilities
- Ohio Means Jobs/Lucas County
- Lucas County Land Bank
- Toledo-Lucas County Health Department
- Toledo-Lucas County Port Authority
- Toledo Public Schools
- The Fair Housing Center (TFHC)

Each of the City of Toledo's partners brings specialized service components and experience. A continued commitment to these partnerships and collaborations is critical to achieving the desired outcomes for the community. Many relationships exist among the business community, faith-based organizations, public service entities, housing providers, foundations, and other community organizations that advocate on behalf of those in need. Increased communication with all community stakeholders will continue.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The COT will continue to work with a broad cross-section of public, private, faith-based, and community organizations to identify the needs of its residents. By continuing to collaborate with the CoC and the community, the city will continue to streamline the actions of public service agencies to improve the lives of all persons in Toledo. These groups address a broad range of needs for families, including homelessness, workforce development, and community health.

Regarding public housing, LMH enhances coordination between public and private housing with other social service agencies in several ways, including a continued relationship with its Program Coordinating Council community partners and the Network/Zepf, Toledo Public Schools, and Toledo-Lucas County Public Library.

In addition, LMH has designed a strategy that moves low-income public housing residents toward self-sufficiency. In partnership with Local Initiatives Support Corporation (LISC), LMH is developing a Financial Opportunity Center (FOC) that will provide career and financial coaching to help families living on a low- to moderate-income focus on financial stability and spending habits.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The city has made some progress toward implementing a local source of income discrimination law. Most recently, the City provided a grant to The Fair Housing Center for it to conduct Source of Income Discrimination fair housing testing through its testing program. This has allowed The Center to identify cases of source of income discrimination and a report to the City about the prevalence of this issue. However, the City must create the internal systems for complaint filing and investigation to enforce the local law.

The City also took significant action to reduce childhood lead poisoning with its local lead poisoning prevention law, which requires property inspections to protect children from being poisoned in unsafe housing stock. The City won a significant battle in court to ensure it is allowed to enforce this law and retained staff to begin enforcement.

The City also changed some local laws related to access to water services for tenants with the intent of ensuring better access to water services for tenants. However, the City must ensure enforcement of this law and greater public knowledge of these rules.

One important new development has been the creation of a new program by The Fair Housing Center thanks to funding from the City of Toledo. The new program assists tenants with housing conditions issues. One of the most prevalent issues identified in the Analysis of Impediments to Fair Housing Choice was the quality of housing conditions. Many tenants live in substandard conditions with few options for other housing. The new program provides legal representation for the tenant in filing a rent escrow case in court. This program continues to be highly successful and is directly aligned with the City's consolidated plan.

The COT and TFHC continue to work with community partners on the implementation of the Five-Year Fair Housing Action Plan (FHAP), and will continue to do so with the new 2025-2030 plan. (Please see the Fair Housing Action Plan for more detailed information in the attachments)

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The DHCD oversees compliance for CDBG, ESG, HOME, LEAD, and NSP programs. Written agreements are executed with all partners and beneficiaries to ensure that projects are both eligible and consistent with HUD regulations.

Monitoring is carried out on a monthly basis, or more frequently if needed, to confirm that partners remain in compliance with program requirements. Reviews include financial management, ongoing operations, program eligibility, performance outcomes, procurement practices, and board governance. DHCD uses Progressive Corrective Actions (PCAs) as a structured tool to bring subrecipients into compliance when deficiencies are identified.

Each month, Third-Party Partners (TPPs) are required to electronically submit the following documentation through the City's online system, ZoomGrants:

- Tracking Sheets
- Daily Activity Reports
- Financial Documents (bank statements, financial balance sheets, and reconciliation statements)
- Request for Funds, including timesheets
- Board of Director minutes & signed roster

In addition, a Program Monitoring Specialist conducts monthly onsite visits to review client files, financial records, and other documents relevant CDBG- and ESG-funded activities. Findings are documented using a standardized **"Monitoring Tool"**, which verifies accuracy and evaluates compliance in the following areas:

- Drawdowns
- Administrative documents, including Financial Audits
- Monthly reports (performance, financial, and board documentation)
- Internal Controls
- Taxes and Financial documentation
- Activities, objectives and outcome verification
- Progressive Corrective Action (when applicable)
- Match proof and supporting documentation
- Program Income (if applicable)
- Overall evaluation results

On a quarterly basis, TPPs are required to submit electronic updates regarding their fundraising activities. Following review of all submission and onsite monitoring, the Program Monitoring Specialist issues quarterly monitoring reports assessing the subrecipient's performance and compliance as a whole. Where non-compliance is identified, a TPP must submit a Corrective Action Plan to ensure timely resolution.

Twice a year, TPPs must also submit proof of property and payroll tax payments, as well as beautification reports when applicable. These submissions provide an additional layer of accountability regarding both fiscal compliance and programmatic outcomes.

Desk audits are also conducted as needed.

To further strengthen compliance, DHCD requires all subrecipients to attend quarterly mandatory trainings. These sessions provide instruction on HUD regulations, City policies and procedures, and the use of the ZoomGrants system for reporting and reimbursement requests. An orientation is also offered to all new TPPs, as well as any existing partners seeking additional support.

All CDBG- and ESG-funded subrecipients receive the updated Third-Party Partners Manual. Reviewed and updated annually, this document outlines DHCD's policies and procedures and provides detailed guidance on HUD compliance requirements. It serves as a critical reference tool for agencies as they implement their funded activities.

Monitoring is a key tool that the Housing Division uses to evaluate their operating procedures and systems and those of their housing partners. The Housing Compliance Manager, with the support of the Neighborhood Development Specialists (NDSs), monitors housing development projects that are funded by HOME on an annual basis. Two key mechanisms to ensure long-term compliance include the HOME written agreement and restrictive covenants. Both Rental Development and Owner-Occupied Rehabilitation projects are monitored annually during the affordability period. Owners of rental housing must provide annually to the City of Toledo information on rents and occupancy of HOME-assisted units to demonstrate compliance with 92.252.

Subsequently, other HOME requirements that are monitored and that apply throughout the period of affordability for rental properties include:

- Income-eligibility of tenants;
- Maintaining unit mix;
- Affirmative marketing;
- Marketing accessible units to disabled tenants or applicants (if applicable);
- Tenant rights and protections;
- Tenant selection;
- Ongoing property standards; and
- Financial oversight for projects with ten or more units.

Additionally, ongoing periodic inspections of HOME-assisted rental housing must be performed to determine compliance with the property standards of 92.251 and on-site inspections under 92.251. An onsite inspection must occur at least once every three (3) years throughout the period of affordability. The minimum requirement is that four units must be inspected for all projects that have up to twenty units.

The goal of the Owner-Occupied Rehabilitation program is to ensure that any homeowner unit assisted meets code standards and promotes the longevity of the repairs. Although there are no long-term affordability or occupancy requirements from HUD associated with rehabilitation assistance to owner-occupants, the city has elected to impose the below-noted requirements:

- On an annual basis and for a period of ten (10) years, the DHCD will perform an AREIS verification check in May. The document will be initialed, dated, and placed in the appropriate client file. If there is a discrepancy, the AREIS verification will be placed in the Housing Compliance Manager's mailbox for further investigation.
- For each year of continued ownership and use as a primary residence by the beneficiary, the mortgage is forgiven in an amount not to exceed 1/10th of the assistance amount.
- If, prior to the first anniversary of the mortgage note, the housing unit is sold or transferred or the owner-occupant ceases to use the residence as their primary residence, then the principal balance of the note shall be due and payable in full.

Other uses of monitoring include tracking progress and production to ensure timely use of public funds; holding recipients accountable for compliance with requirements; providing feedback to improve program design and management; and training staff and program partners.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The City of Toledo (COT) follows the procedures outlined in its Citizens Participation Plan (CPP) to ensure residents are informed and have the opportunity to review and comment on all documents related to the CAPER.

For each CAPER, the CPP requires a minimum of one public hearing, with notices issued at least fifteen (15) days in advance. Notices include information on where the DRAFT CAPER is available for review. For the 2024–2025 CAPER, the draft was posted on the City’s website, the websites of key local service providers, and made available at the main Toledo-Lucas County Public Library and branches upon request.

Residents were invited to provide input and comments for a 15-day period. The City encouraged feedback on program achievements, fund allocation and expenditure, and opportunities to propose initiatives or ask questions.

Public notices were placed in three periodicals: The Blade, Sojourners Truth, and La Prensa, the latter two targeting African-American and Hispanic/Latino audiences, respectively. In addition, a press release was issued to local media, and notices were sent to all Third-Party Partners (TPPs).

The public hearing was held at 5:30 p.m. in the fully accessible City Council Chambers, allowing residents working standard business hours to attend. Attendees were provided the opportunity to ask questions and offer comment during the hearing.

Timeline for Citizen Comments on the DRAFT CAPER:

- 08/01/2025: Public notice sent to The Blade, Sojourners Truth, and La Prensa
- 08/06/2025: Notice published in Sojourners Truth and La Prensa
- 08/10/2025: Notice published in The Blade
- 08/11/2025: Notice posted on City website
- 08/14/2025: Press release issued; emails sent to TPPs and local organizations
- 08/25/2025: DRAFT CAPER emailed to designated locations for website posting
- 08/27/2025: 15-day public comment period begins
- 09/04/2025: Public hearing on DRAFT CAPER at 5:30 p.m.
- 09/10/2025: Public comment period ends

Copies of the public notices, along with a summary of the public hearing and citizen comments, are included in the attachments to this document.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

In PY 2019, PY 2020, PY 2021, PY2022, and through PY 2024, the Coronavirus and subsequent variants are still having an impact on the COT and its residents. As a result, the COT continues to evaluate its program objectives and activities. The added funding of the CARES Act has been essential in meeting new and challenging needs in the community while the annual CDBG funds provide continued access to services for the most vulnerable residents.

As of PY 2024, the city expended **\$5,436,444.89** of CDBG-CV, while the ESG-CV funding has been fully spent. The city of Toledo staff is monitoring the COVID activities to ensure that all funds will be expended according to the HUD-required expenditure deadlines.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

The following housing developments received on-site inspections by the Division of Housing during the 2024 program year (due to scheduling and/or timing some projects were inspected twice):

Mercy Outreach Ministries: units – 6325 Nebraska 2A, 6325 Nebraska 2D, 1149 Shadow 1A, 1149 Shadow 1B; **New Town Apartments:** units – 1019 Dorr, 931 Dorr, 1029 Dorr, 715 Dorr, 1111 Dorr, 1121 Dorr; **SETH I:** units – 317 Dearborn, 573 Viking, 515 South, 835 Utah; **SETH II:** units – 637 South, 968 Kingston, 210 Sumner, 1205 Ironwood; **Oakwood Homes III:** units – 1435 Foster, 1817 Lawrence; **Oakwood Homes IV:** units – 1463 Norwood, 1625 Norwood, 1265 Palmwood, 1307 Palmwood, 1311 Palmwood; **YWCA:** units – #506, #1B, #3I, #402; **Cherry Legacy:** units – 102 Delaware, 3008 Fulton; **West Central Homes:** units – 635 Palmwood, 1361 Fitchland; **Pilgrim Port:** units – 4545 Angola #004, #029, #041, #050; **Chestnut Hill:** units – 1127 Champlain #107, #202, #309; **Englewood Senior Housing:** units – 2737 Monroe #210, #301, #311; **St. Hedwig:** units – 300 Bronson #100B, 203B; **Palmer Gardens:** 2716 Wayman Palmer #02-007, 2756 Wayman Palmer #06-029, 2807 Wayman Palmer #09-051, 2733 Wayman Palmer #11-064, 2711 Wayman Palmer #13-076; **Ottawa River Estates:** 2006 Abygail Trail A, 2018 Abygail Trail A, 2042 Abygail Trail A, 4638 David's Creek A; **Ottawa River Estates (scattered):** units – 2938 E. Lincolnshire A, 2938 E. Lincolnshire C; **ROOST I:** units – 1623 Copley B, 4325 Holly Hill A, 4325 Holly Hill D; **ROOST II:** 5107 Adella C, 2653 Nash C; **REACH:** units – 201 Northgate C, 5615 Parkstone B, 5615 Parkstone A; **Secor Senior Lofts:** units – 3839 Secor #106, #202, #303, #214, #414; **Parqwood Apartments:** units – 2125 Parkwood #223, #328, #348, #114; **Collingwood Green I:** units – 800 Division #208, #303, #417, #310; **Collingwood Green II:** units – 731 Rogan #8, 734 Division #7, 354 Belmont #4, 828 Rogan #1; **Collingwood Green III:** units – 732 Rogan Way, 352 Addie Way, 360 Addie Way, 725 Clemente, 722 Division, 363 Addie Way; **Secor Senior Lofts:** units – 3839 Secor #106, #202, #303, #214, #414; **Ottawa River Estates (scattered):** units – 2938 E. Lincolnshire A; **Palmer Gardens:** units – 2716 Wayman Palmer #02-008, 2722 Wayman Palmer #03-016, 2734 Wayman Palmer #04-021, 2752 Wayman Palmer #05-028, 2809 Wayman Palmer #08-042, 2711 Wayman Palmer #13-071; **St. Hedwig:** units – 300 Bronson #102, #202, #307; **Chestnut Hill:** units – 1127 Champlain #107, #202, #309; **Legacy Hills:** units – 4454 Hill CG04, #C103, C202, C205; **New Town Apartments:** units – 1019 Dorr, 931 Dorr, 1029 Dorr, 715 Dorr, 1111 Dorr, 1121 Dorr; **Mercy Outreach Ministries:** units – 6325 Nebraska 2A, 6325 Nebraska 2D, 1149 Shadow 1A, 1149 Shadow 1B; **West Central Homes:** units – 1452 Oakwood, 1361 Fitchland; **Oakwood Homes III:** units – 1435 Foster, 1817 Lawrence; **Oakwood Homes IV:** units – 1463 Norwood, 1625 Norwood, 1265 Palmwood, 1307 Palmwood, 1311 Palmwood; **Cherry Legacy:** units – 102 Delaware, 3008 Fulton; **SETH II:** units – 637 South, 968 Kingston, 210 Sumner, 1205 Ironwood; **SETH I:** units – 317 Dearborn, 575 Viking, 515 South, 835 Utah; **Parqwood Apartments:** units – 2125 Parkwood #102, #213, #323, #322; **Ottawa River Estates:** units – 2006 Abygail Trail B, 2030 Abygail Trail B, 2052 Abygail Trail B, 4656 David's Creek B; **Pilgrim Port:** units – 4545 Angola #010, #020, #030, #040; **Covenant House:** units – 702 N. Erie #103, #611, #608, #804, #119; **ROOST I:** units – 1623 Copley C, 4325 Holly Hill B, 4325 Holly Hill C; **ROOST II:** units – 5107 Adella C, 2653 Nash B; **REACH:** units – 201 Northgate B, 5616 Parkstone A, 201 Northgate A; **Bridge Point Senior Village:** units – 2005 Abygail #2, #3, #5, #8, #9, #11; **Englewood Senior Housing:** units – 2737 Monroe #103, #206, #302, #312; **Woodside Village Apartments:** units – 1045 Brookview #01, #05, #11; **Valley Bridge Senior Housing:** units – 5351 Nebraska – units #107, #118, #323; **YWCA:** units – #503, #1B, #1F, #402; **United North Schools I:** units – 918 Baker, 922 Moore, 917 Moore, 824 Page; **Collingwood Green I:** units – 800 Division #206, #300, #417, #418; **Collingwood Green II:** units – 354 Belmont #4, 802 Rogan #4, 744 Rogan #9, 344 Belmont #3; **Collingwood Green III:** units – 360 Addie Way, 352 Addie Way, 731 Clemente Trace, 395 Addie Way, 722 Division, 363 Addie Way; **Brookview Gardens:** units – 1119 Hilltop #3m 5736 Staghorn #3, 1051 Brookview #4.

The following housing developments still need to be inspected – owners to receive letters, certified letters and/or emails:

New Cheney Flats

Lucas Housing Services Corporation – 1442 N. Huron, 1453 N. Huron,
Bluff Street Tiny Village – 3560 Bluff, 3564 Bluff

The COT conducts onsite inspections at least once every three years during the period of affordability (CFR92.504 (c)(6)(d)(iii)). HOME property standards also apply to common areas and the building exterior.

Frequency of inspections. The participating jurisdiction must perform an on-site inspection within 12 months after project completion and complete one of the following every 3 years during the period of affordability:

(A) Perform an on-site inspection in accordance with the participating jurisdiction's inspection procedures to determine compliance with the property standards; or

(B) Accept a determination made within the past 12 months in satisfaction of another funding source's requirements, that the HOME-assisted project and units are decent, safe, sanitary, and in good repair in an inspection conducted under the National Standards for the Condition of HUD housing ([24 CFR part 5, subpart G](#)) or an alternative inspection standard, which HUD may establish through Federal Register publication. If a participating jurisdiction is accepting a determination, then the participating jurisdiction must document the determination in accordance with [§ 92.508\(a\)\(3\)\(iv\)](#) and is not required to perform an on-site HOME inspection of the project and the units for compliance with [24 CFR 5.703](#).

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)

The DHCD Division of Housing will continue to follow its affirmative marketing for HOME units, which includes following its Affirmative Fair Housing Marketing Policy (AFHMP) developed in response to HUD's July 16, 2015 final rule requiring all partners, i.e., Community Housing Development Organizations (CHDO), non-profit entities, for-profit entities, and sub-recipients, to develop and utilize a marketing plan that includes Fair Housing Standards.

The policy was designed to promote good-faith efforts by Housing's partners and/or subrecipients to identify and attract those persons "least likely to apply" for housing and/or services or who are underrepresented within a neighborhood community.

A partner, most likely a developer, sponsor, or owner of a project, describes what efforts they will make to attract those protected classes who might not normally seek housing in their project. This is required as part of the DHCD's formal underwriting process. This is in effect for both homebuyer and rental projects.

At a minimum for projects containing five (5) or more HOME-assisted housing units, the COT requires the following:

- Prior to sales/rental activity, the partner or subrecipient shall identify and target individuals, organizations or agencies within the community that are involved with serving low-income persons who benefit from special outreach efforts;
- The Equal Housing Opportunity logo will be included in all public advertisements for rental units advertised during the period of affordability;

- Utilization of media sources that advertise to a particular audience (e.g., newspapers that serve protected classes);
- All partners and/or subrecipients must display the HUD fair housing poster in an area accessible to the public;
- All partners (or authorized agent) must collect information on the race and ethnicity of each program applicant (demonstration of results to be made available upon request); and
- All partners (or authorized agents) of rental projects must maintain information demonstrating compliance with the above five bullets throughout the period of affordability, making such information available to COT housing staff during onsite inspections.

As part of the annual review for all rental units, Housing staff will be reviewing affected projects for evidence of the following:

1. Copies of correspondence with any individual, organization, or agency whose membership consists of primarily protected class members;
2. Copies of advertisements on behalf of particular audiences;
3. Information on how the project does/will provide accommodations for persons with disabilities; and
4. Current policies or notices for referrals of housing complaints and/or questions to its agency contact and/or the Toledo Fair Housing Center (TFHC).

In an effort to ensure compliance with and proper implementation of its AFHMP, the Division of Housing maintains an active partnership with the TFHC. This is to guarantee proper understanding among city staff and enforcement of the implementation of marketing practices for all projects supported by HOME. It also provides for standard practices and consistency of treatment among all housing partners. At this juncture, no immediate effects of the policy require changes, but staff maintains active communication with the TFHC to strengthen the connection between written marketing policies and the actions of partners.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

The Division of Housing drew down **\$452,412.99** in HOME Program Income (PI) for the period July 1, 2024 through June 30, 2025. The PI drawn supported **48** projects under the HOME At Last - Down Payment Assistance Program (DPA) and **1** (one) Owner-Occupied (OO) project.

Down Payment Assistance is offered to first-time home buyers whose income falls below the 80% AMI threshold and participants are eligible for up to \$7,500 towards the purchase of a home in Toledo, Ohio. Additionally, if the home is in a designated target neighborhood the participant can be eligible for up to \$9,500 of assistance.

The breakdown of the demographics for the DPA and OO projects are as follows:

IDIS#	Project	Amount	#Persons	Race	Hispanic	Family Type	AMI
5675	DPA:1347 Corbin Road	\$9,336.41	3	AA	No	Single Parent	60-80

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

In PY 2023, DHCD continued to work with projects selected in the PY 2022 NOFA to move them to permitting and finance closing. Toledo City Council approved \$10,000,000 of ARPA gap financing for the Glen and Grand Family Housing, Collingwood Green V Senior Housing, and the YWCA Non-congregate shelter projects, for a total of 167 units. These three ARPA-subsidized projects include 4% LIHTC in their respective capital stacks. It is anticipated that these three projects will close by the end of 2026.

In addition to commitments of ARPA gap funding, Toledo has provided conditional commitments of \$10,200,000 of U.S. Treasury Emergency Rental Assistance (ERA 2) funds for the Thurgood Marshall adaptive reuse senior project, the Park Hotel permanent supportive housing for youth aging out of foster care, and recapitalization of the Toledo Heritage Village scattered site portfolio, for a total of 283 units. The Park Hotel Project has received a 9% LIHTC competitive award. The Thurgood Marshall senior project and Toledo Heritage Village projects will be submitting applications in September 2023 for Ohio Housing Finance Agency (OHFA) Bond gap financing and 4% LIHTC. These projects are also expected to close in 2024.

PUBLIC HEARING SUMMARY

DRAFT 2024-2025 Consolidated Annual Performance and Evaluation Report (CAPER) Thursday, September 4, 2025, 5:30 p.m.

A public notice was posted on electronic media and published in local newspapers announcing the public hearing. The public hearing was held in person inside Toledo City Council Chambers, One Government Center, 1st Floor, Toledo, Ohio 43604. The public hearing was also accessible through live stream. Those attending were given the opportunity to ask questions and provide comments. There were five people in attendance at the public hearing.

Monica Brown: Good evening. In the essence of everyone's time, we want to welcome you to the 2024 2025 Consolidated Annual Performance and Evaluation Report, or CAPER, as we like to call it. What we're going to do is go over some highlights from the 2024-2025 program year. We'll also have presentations from some of our other partners on public housing, fair housing, and homelessness. My name is Monica Brown and I'm the Community Planning and Development Grants Manager for the Department of Housing and Community Development. Also here is Coleena Ali, Deputy Director, Department of Housing and Community Development.

So, what is the CAPER? The CAPER is, again, the Consolidated Annual Performance and Evaluation Report that provides the annual performance reporting to HUD on our overall program performance and accomplishments. What they do is compare it to the goals and objectives that are outlined in the 2024 Program Year Annual Action Plan. The CAPER reports on program performance and accomplishments measured against the goals and objectives that are also identified in our 2020-2024 Consolidated Plan. This particular CAPER that we're doing today is the final one for the 2020 2024 Consolidated Plan. Next year, we will be doing the CAPER for the 2025-2029 Consolidated Plan.

For the 2024 Program Year, the available program funds we had under Community Development Block Grant (CDBG) was \$7.1 million. We had estimated carryover of about \$2 million, so, in total, we had \$9.1 million in CDBG funds. For HOME Investments Partnership (HOME) funds, we had \$1.8 million that was allocated to us and \$2.6 million that were carryover funds. We also had some program income in the amount of \$2,888.00 for a total of \$4.5 million. For Emergency Solutions Grant (ESG), we received \$646,429.00 for the 2024 program year.

For expended funds that we had under CDBG, we expended at least \$6.5 million. Of that, we expended \$2.1 million to our third-party partners. \$586,900.00 was expended out of the ESG dollars and about \$2.5 million was expended out of HOME funds. We did leverage some funds including some agency funds, foundation grants, funding from Local Initiatives Support Corporation (LISC), fundraising efforts, other federal grants, and state grants. There were also funds from Job and Family Services, Ohio Link, Lucas County, and program income that we leveraged.

For some of the activities that we allocated funding for during the 2024 program year, some of the key initiatives included public service projects. These included neighborhood revitalization and community facilities, housing stabilization services, the Toledo Neighborhood Capacity Building Institute, the new affordable rental housing development, and homeownership assistance. We also did some strategic demolition and redevelopment of blighted properties and a lot of housing preservation during the 2024-2025 program year.

Additionally, we funded 14 nonprofit agencies that carried out public services activities for low- to moderate-income persons. These activities consisted of youth programs, soup kitchens, homelessness services, community gardens, legal services, as well as medical services and life skill programs. Out of that, we budgeted \$976,777.00, and we actually spent \$925,155.00 for 14,440 persons that were served through those different initiatives or activities.

In the 2024-2025 program year, we spent the funding that was allocated for the Wayman Palmer YMCA. The city committed \$19 million of ARPA funding, as well as some CDBG dollars in the amount of \$6.7 million. The groundbreaking, or the ribbon-cutting, was on May 12th. As you can see from the pictures shown, we had a lot of representation there. The YMCA is expected to employ six full-time employees and 40 part-time employees, and they expect to serve at least 10,000 residents on an annual basis.

So, the new YMCA did open up and started serving people. We are showing you some of the renderings of Swayne Field and adjacent properties. We are going to be doing some upgrades to Swayne Field and these are some of the

pictures showing what's going to be done. The parking lot will also be upgraded and there will be some potential mixed-use and residential in the area.

The city held workshops, did an online survey, and held community meetings. There were about 198 participants that attended those meetings. Again, here are some more renderings of what it's going to look like when everything is done. We started a lot of initiatives in our targeted neighborhoods, or our NRSAs. NRSA stands for Neighborhood Revitalization Strategy Area. We have three designated NRSAs in Toledo. The first one is the Old South End, and this map shows those boundaries. Our second NRSA is in Englewood, and then the third one is in Junction, which is part of the Junction Choice Neighborhood Planning Grant. So, some of the initiatives, or dollars, that went into those NRSAs included Home at Last Down Payment Assistance in which we invested about \$45,000.00. In Junction, there were two households that received about \$15,000.00 in down-payment assistance. In the Old South End, one household received \$9,336.00.

East Toledo is not a NRSA, but a targeted neighborhood, and we assisted three households in the amount of \$21,500.00 in down-payment assistance. These are just some of the highlights – I'm not going to go through all of them.

For Lead Paint Abatement, we invested about \$238,000.00. In Englewood, we completed two projects in the amount of \$58,836.98, and five more are scheduled. In the Old South End, they didn't do anything yet, but it is scheduled.

In East Toledo, there were 10 completions for a total of \$179,283.00, and they have 22 scheduled. Some other initiatives completed under public service included demolition and tree planting. So, in Englewood, there were six demolitions, and 156 trees planted. In Junction, there were 121 demolitions and no trees planted, and in the Old South End, there were 36 demolitions and no trees planted.

Under Economic Development, in the Old South End, three businesses were assisted for a total amount of \$99,600.00. In Englewood, three businesses were assisted for a total amount of \$70,000.00, and in Junction, two businesses were assisted for a total amount of \$78,693.00. On the East Side, we assisted two businesses for a total amount of \$115,000.00.

There has been a lot of revitalization of our parks. A total of \$2.2 million has been invested in parks. In Junction, we did the Savage Park revitalization for a total of \$271,251.00. In Englewood, about \$1 million was put into that for the Robinson Park Shelter and Athletic Field, and the Pool and Smith Park Athletic Field. In the Old South End, they are working on Danny Thomas Park doing some updates to the amphitheater and the loop trail, so, for the Old South End, a total of \$520,411.00 was invested. There's also going to be an upgrade to the playground equipment at Ashley Park. So, as you drive around the city, you'll see a lot of upgrades to a lot of parks. We're going to continue doing that. Even for the next five years, we'll be investing in revitalizing the parks.

Additionally, public service initiatives included youth programs in the Old South End. Eighty-six youth were assisted from a program through the Believe Center for a total of \$74,991.00. The Believe Center is a Community Based Development Organization located in the Old South End. In the Junction NRSA, 71 youth were assisted for a total of \$71,562.00. For community gardens, \$90,000.00 was invested, which assisted a total of 276 people. The Financial Opportunity Center assisted about 52 people for a total of \$13,766.00. In Englewood, 14 households were assisted with senior home repairs for a total of \$144,876.00. So, we did help a lot of people with public service activities.

The city's Toledo Neighborhood Capacity Building Institute was designed to help neighborhood organizations, such as grassroots and nonprofits, and help revitalize certain neighborhoods. What we do is equip them with the tools and capacity they need to achieve effective and sustainable community impact. The first year, 2021-2022, was the pilot program and we had a very good turnout, so we decided to go with the second cohort, which began in October of 2024. We had 13 participating agencies, and by June 2025, we had 12 agencies that had successfully completed and graduated from the program. As a part of the program, each agency received a gift certificate for a workshop through the Toledo Community Foundation, along with another incentive where they could earn 20 hours, or up to \$2,000.00 towards costs for one of four strategic areas including strategic planning, grant writing, financial management, and organizational development.

As a requirement, participants had to select one of the four areas in order to receive the \$2,000, or up to 20 hours. We are going to be starting our third cohort which will begin in the fall of 2025. There will be nine in-person modules, with six hours of instruction per module, and three virtual sessions. They'll have some small group sessions, including 4-6 micro-learning sessions. They will also be participating in a capstone project, and then they'll have their formal graduation with recognition by the Mayor and City Council. After graduation, they will participate in some group mentoring sessions. The city will be working with an outside partner to do this and are in the process of doing a Request for Proposal. Some of the other incentives offered, again, include strategic planning, grant writing, financial management, and organizational development.

For Affordable Rental Housing Existing Development Pipeline, after we did our comprehensive housing study, we found that there's a gap of over 12,000 rental units for low- to moderate-income households. Eleven affordable housing projects are identified for construction and preservation over the next three years, with an estimated value of \$200 million. Six hundred and ninety units will be completed for a \$25.3 million city gap financing commitment. Some of the funding sources used were ARPA, HOME-ARP, and ERA-2 dollars.

One of the affordable rental housing developments that we're working on currently that is under construction is the Glen and Grand. Construction started in November of 2024. The Glen has 50 units – 31 one-bedroom and 19 two-bedroom. There will be a total of 70 units. The HOME investment totaled \$493,704.00. The next one is the Grand, which is located on Detroit and Grand avenues. There are going to be 20 units – 10 three-bedroom and 10 four-bedroom townhomes. Again, that investment amount is \$493,704.00 and construction started in November of 2024.

For Housing Preservation, we did some roof repair replacements, owner-occupied rehabilitation, and emergency repairs for seniors, along with paint and siding. We budgeted \$2.2 million out of HOME and CDBG, and 58 housing units were rehabbed. Some of the partners that we worked with included Maumee Valley Habitat for Humanity, Pathway, East Toledo Family Center, Preferred Properties, Lucas Metropolitan Housing, NeighborWorks Toledo Region, and Historic South Initiative.

For Lead-Based Paint Hazards, some of the actions taken to reduce lead-based paint included the following: there were 37 eligible units enrolled; 86 units that had received a comprehensive lead inspection and risk assessment; 43 units that achieved a lead clearance – 18 owner-occupied and 25 rental; 42 households assisted; 24 children under the age of six, 38 persons between the ages of six to 17 years of age; and then 58 persons that were ages 18 and above.

The average household income was 31.6% AMI, and \$1.2 million was invested into the community with our lead-based paint hazards. Through our Home at Last program, 58 homeowners were assisted and \$4.4 million in mortgages were provided by our participating lenders including Fifth Third Bank, KeyBank, and Huntington Bank, who were top producers. So, 58 homeowners received assistance through our down-payment and closing costs assistance program, which we call Home at Last.

Through our Lead Safe initiative, we have done a couple of different things. Pre-1978 rentals with up to four units and child care homes must be certified as lead safe in order to protect children and families. The certificates are valid for five years, or 20 years if full abatement is completed. Under the Lead Resource, we focus on education, grants, and workforce training. Under education, we did landlord resource fairs with about 92 participants, and a Homeownership Fair, with a little over 450 participants. At Wayman Palmer, we did a back-to-school event with 1,200+ participants, and at Salvation Army, we did a backpack event with over 700 participants. In grants, we have a Lead Stabilization Grant that provides up to \$15,000.00 in reimbursable assistance per property for lead stabilization activities. The total number of properties assisted was 29, and the total amount we have dispersed was \$379,000.00. Through our Healthy Homes Weatherization Cooperation Demonstration Grant, offered in partnership with NeighborWorks Toledo Region, \$1 million in total funding was provided and 35 units were assisted.

Under Workforce Training, we have two lead abatement worker trainings. We held two lead abatement worker trainings with nine attendees. We also had a lead inspector initial training with 23 attendees, a lead risk assessor initial training with 22 attendees, and a lead clearance technician initial training with 23 attendees, which is a lot.

I'll turn it over to Coleena now.

Coleena Ali: Thank you, Monica. There have been a number of tenant/landlord initiatives throughout 2024-2025, but some of the bigger ones have been Tenant Tuesday in conjunction with The Fair Housing Center, Legal Aid of Western Ohio, ABLE, and also the Toledo Bar Association, and lastly, the University of Toledo Clinic, where they provide one-on-one services for tenants who have questions about their lease, tenants who may be facing eviction, or housing conditions. This has been very useful for them. It is very rare for tenants to even have that type of interaction with an attorney or have access to an attorney, so it's been quite successful, and that's something that we will continue throughout the year.

One of the other initiatives has been the source of income testing that was done through The Fair Housing Center. The purpose of that was to really have a good idea. Now, a couple of years ago, the City of Toledo passed an ordinance where it is now illegal for a landlord to say they will not take a housing choice voucher or other sources of income. They are no longer allowed to discriminate, and while that's all well and good, one of the issues is – Okay, they're no longer advertising for that, but is it still occurring? By investing in this and working with The Fair Housing Center, they are actually kind of doing what I call a secret shopper – a mystery shopper, and going out and finding if landlords are actually not taking vouchers or not taking certain sources of income as people apply for their housing. This has been successful; we will be having a report on that, and it will also continue into the next year.

The other initiative was the Code Blue Warming Centers. This was the first year that we've done this, and this is essentially a program that, with cooperation with the Toledo-Lucas County Homelessness Board, United Way 2-1-1, and the City of Toledo, when the temperature reaches a certain degree with what is called Code Blue and we open up overnight warming centers for those homeless individuals who have no place to go. We certainly don't want anyone to be in adverse weather conditions and possibly freezing, particularly children. This was quite successful. We also had a number of sites throughout the city, and we also had a couple of day centers, too, and we will continue with that, and right now we're in the midst of looking for additional funding for the 2025-2026 year.

Finally, the last one is the Emergency Rental Response and that's just a broad category talking about how the city, in collaboration with other entities, once again, usually the Toledo-Lucas County Homelessness Board, United Way 2-1-1, The Fair Housing Center, ABLE, and Lucas Metropolitan Housing – when there's an adverse impact to tenants, we respond collectively to that. We've had some recent incidences in Toledo, such as Executive Tower, where we all came together and were able to respond to the tenants because they were having some adverse housing conditions. We've also had to respond to entities such as Ashland Manor. So, when these situations come up, we can come together collectively so that we can respond and provide an answer to the tenants in a very timely fashion and try to get them in some safer housing conditions.

Thank you, Monica.

Monica Brown: Thank you, Coleena. To round out, we did some other initiatives with our Section 108 Loan Pool. We had a couple of loans that have been approved with some going to community center improvements and some going towards the Swayne Field improvements. So, with the Section 108, we are using strategic partnerships with CDFIs and banks to leverage funds. Again, we submitted and HUD approved us for a \$37 million loan pool. We're going to be doing some real estate acquisition and development; small business financing; housing rehabilitation; and also, public facilities, which are our community centers.

I'm not going to go through all of the goals and outcomes. These are located in the CAPER, starting at page 9. It shows you over the five years what we said we were going to do under our strategic plan, what we actually did, and then, also, what our expected outcomes were for the program year. From there, we were able to determine whether we had either exceeded or met our outcomes proposed in our strategic plan and our action plan. Some were a little lax, but for most of them, we did hit those proposed outcomes.

So, now, I'm going to turn it over to The Fair Housing Center for doing their presentation on fair housing.

George Thomas: All right, thank you, Monica. So, my name is George Thomas. I'm the CEO and General Counsel for The Fair Housing Center. We are the fair housing agency serving Lucas and Wood County here in northwest Ohio. We're a nonprofit civil rights agency, so we're separate from the City of Toledo. We're a 501(c)3 that receives a little bit of funding from the city, but most of our funding comes from a separate funding source from the Department of Housing and Urban Development. We fight for housing rights to support strong communities free from housing discrimination, because your home, where you live – we've been kind of talking a lot about

housing here and talking about new projects and developments and things like that, but it's important to pause for a second on this idea of housing is that where you live powerfully affects every aspect of your life including job opportunities, education, transportation, health, and safety. Fair housing then – if you're protected, your civil rights are protected in that space. That's ensuring that everyone can access housing regardless of their protected class. Our services are free for victims of housing discrimination. We also have an additional program that provides landlord-tenant services, which Coleena mentioned. I'm working with the city on that.

We serve Lucas and Wood County, as I said, and a ton of information is available on our website, so <https://toledofhc.org> for more information about your rights. I wanted to zero in on thinking about fair housing work in this community over the last year. Personally, The Fair Housing Center received more than 2,000 intakes from people requesting assistance with housing issues, and we've separately reported our work on those day-to-day cases, that individual case advocacy that we do, which we report to the City of Toledo and also to HUD.

I wanted to hit on some things that are a little bit more interesting here, as big-picture kind of developments for fair housing. So, one of the things that we completed this last year was the Analysis of Impediments. So, I just want to explain what that is and the process for that. It begins with outreach and surveys of focus groups. We also review the local history and demographics, we draw on census data and other studies, and the purpose of all that work is to identify barriers to fair housing choice, and that all culminates into an action plan and a larger report that identifies those barriers and then talks about the next steps we need to take to address those issues. We identified a good number of issues in the areas that we needed to resolve, and I'm going to talk about just a few of those. I'm not going to go through all of those today just because of our time constraints. I'm going to be respectful of everyone's time. So, let's hit one of the really important ones. It's kind of like this big-picture issue for our area that we've identified, which is access to home ownership.

We have seen Toledo, like many communities across the country, but particularly in the Midwest that have a lot of investor landlords who sweep in and buy up a lot of the properties. It makes it harder for individuals here in our community to buy those homes and become homeowners. We also see a stark difference in racial categories with access to home ownership with Black families far less likely to be able to access home ownership as compared to, for example, White families in the area. We also analyzed that banks typically are issuing loans much more frequently to different areas geographically that are outside the central city area. That kind of analysis led us to realize this is a really important barrier for our area.

Some of the things that we identified that we need to work on is 1) education to the community, acknowledging that you can become a homeowner, and talking about the process for that. The city has done a great job of having some events on home ownership, including a Homeownership Fair that The Fair Housing Center has also been a part of. We also need to look at incentives for local banks to do a little bit better job of getting their products out to community groups that normally have not been able to access those. So, we have some suggestions in that regard. We won't go through all those here to save time, but the idea is that this is an important issue in our area, and we as a community need to work together in the city of Toledo. There are certain things that they can do as well to make progress on that barrier.

Another example I want to talk about, which Coleena also mentioned, is the source of income discrimination. This has been a really important issue in our area, which is true for many other communities across the country. If you're trying to use a housing choice voucher to obtain your next housing opportunity, sadly, many residents face discrimination when using that source of income. The idea of the voucher program originally was that if you had that housing choice voucher different from, let's say, public housing or Section 8 project-based housing, you could go anywhere that you would like, as long as it could pay for the amount of rent that the landlord wanted to charge.

But the reality of that, though, is that housing choice voucher recipients are often highly clustered in certain neighborhood areas. They're forced to only live in certain community areas where landlords are willing to accept vouchers. So, what this law does then is prohibit discrimination based on source of income, meaning that landlords can no longer reject tenants simply because they're using a housing choice voucher to pay for their home. This is a type of law that has been adopted in many other communities across the country. Some whole states have adopted source of income protections. Several other cities in Ohio have adopted them. Columbus, Ohio, now has such a rule and we're at that stage with this work, as more and more communities pass this, to try to figure out like, how do you make sure these rules are enforced, and how do you make sure you have the staffing in place to do the kinds of investigations, to uncover this kind of discrimination, and really make these rules very real for people? That's part

of what the city's going to be working on over the next year and The Fair Housing Center is a partner in a lot of the ways that Coleena already mentioned. We're doing some source of income testing, for example.

Another really important issue in our community, which is true for many communities, is land use and zoning. It's really important that we make sure our zoning code is progressive and helps people, that it does the right thing for our community to accomplish their goals. So some of the things that we identified, for example, when residents were complaining that Dollar stores or small box stores were preying on particular areas, and that really ends up being a housing issue because it means that if you live in that area, if your housing is in that area, you have limited access to fresh produce or good stores – those kind of opportunities that you should be able to access regardless of what neighborhood you're in, those are less available in part because of small box stores and Dollar stores. So, we suggested a zoning resolution that would require some spacing limitations on box stores, spreading those out a little bit more in our community, and then therefore making it much more likely that grocery stores could establish in those same areas, or fresh produce providers could establish in those same areas. That actually just passed very recently in June, so we're really happy to see that development. That's a huge win for our neighborhoods and fair housing as well.

Another thing that's important to look at is local rules related to group homes and housing for persons with disabilities. There are some improvements that we need to make in our local zoning code that make it better and easier to create housing opportunities for everyone, and that includes persons with disabilities. When we did all those surveys, focus groups, and met with people and also considered the many, many case calls that we received personally here at The Fair Housing Center, it's very clear that substandard housing conditions are a really significant issue in our area. This is a quote-unquote rust belt area with housing deteriorating over time.

There's a lot of lead poisoning caused by deteriorated lead-based paint. Housing condition issues are a significant problem, especially in those central city areas. So, there's some things that the city and other partners can do to address that and which we have been working on and hope to continue to work on. One of those, for example, is implementing the relatively new lead poisoning prevention law. It's going into effect now. There's going to be requirements for that and enforcement of those rules.

Coleena talked about some of the things that were happening in that regard and Monica mentioned that as well. We need to also think about other programs to reach those communities, whether it's new roof replacements or CDBG programs that Monica was mentioning as well. The Fair Housing Center also helps tenants living in deplorable housing conditions. We've been filing rent escrow cases and trying to target those community areas that were historically redlined and disinvested to try to find ways to help those tenants and uplift those areas.

Finally, I just want to talk about, too, that public awareness of these rights is still really critical. Many people contact us and they really just do not understand their basic civil rights under fair housing laws and their basic civil rights under landlord-tenant laws as well. So, we do a good job of doing ads and community events, but we can always do more of that in partnership with the city and other community agencies. We'd like to see more of that happening in this next year – more educational events, kind of like those Tenant Tuesday type events that were mentioned earlier. So, I want to thank everyone.

If there's any questions, I'm happy to answer those, but we're excited to continue this partnership with the city and talk about all the progress we've made and hope to make in the next year.

Monica Brown: Thank you, George. If you just came in, if you can make sure that you sign in for us so we know that you're here and if you have any questions. We'll have all the questions at the end of the session.

Next up, we're going to have Julie Embree talk about some homelessness initiatives for the 2024-2025 program year, and then we'll round it out with Senghor Manns from Lucas Metropolitan Housing.

Julie Embree: Thank you, Monica and thank you for the opportunity to talk about the work within the community and our coordination and collaboration in our community. As Monica mentioned, the purpose of the CAPER is to really do an evaluation of who's been served and the outcomes and barriers experienced.

So, what I would like to do is to shine a light on the ESG, or Emergency Solutions portion of that funding and what that's looked like within our community. As far as persons served, unfortunately, we have not moved the mark on

the distribution of population that's being served in our community that are unsheltered and in need of housing security, although we all know that population only in Lucas County for persons that are Black and Brown hovers around 19.3%. Fifty-nine percent of the persons within the homeless service system were persons who identified as Black and Brown.

Sixty-six percent of the population in Lucas County is White, whereas only 32% presented for services in the unsheltered system. We had over 800 persons served by the ESG-funded portion only of the homeless service system, and we were able to bring another \$2.6 million to the table through HUD Continuum of Care funding to help complement that and provide further permanent supportive housing options and greater stability to individuals, families, and children in our community. As far as affordable housing outcomes in the homeless and unsheltered sector, we had sought to be able to provide 80 households with affordable housing. We actually were able to strive well above that in housing 285. We did strive to serve a larger proportion that were Special Needs households with 126. We only performed that at 27, so the greater population need was presenting significant pressure on the unsheltered population that needed services this last year.

Services were provided to 107 different types of households. They were able to acquire 62 new units within the community to develop some new housing opportunities, mainly through the Warren Commons development, which provided permanent supportive housing and was the mainstay of the number of those units. As far as shelter utilization, we have made significant improvements in how individuals within the community, as well as families, access shelters – how we evaluate and prioritize those most vulnerable, and I'm happy to say that last year our shelter bed utilization was over 92%. This is a good mark. HUD's concern and sort of a marker is making sure that you're at or above 80%. Unfortunately, this does, however, speak to the need of the community, but it speaks to the utilization, collaboration, and ensuring that we're using all resources effectively.

There was a total of 178,000 bed nights available within the shelter system, and we used a little over 164,000 of those throughout the year to come to that utilization methodology. I will point out we are at a crux in the road with a lack of resources within the community. Currently this year, this time of year, our largest shelter within the community would run at approximately 60% utilization, and they have been running between 95% and 100% utilization for several months despite the good weather.

We have yet to see the cold season, and the wait lists continue to grow for housing and needed support within our community, and I'll reflect a little bit back on that in a few moments. Some of the key challenges in the system – we have 40,000 renters seeking about 15,000 units that are available within the community, being able to compete with individual records that speak to whatever may have led to some kind of criminal history or some kind of ding on a credit history. Those are all things that haunt people, so we will continue and move forward to work with folks in our community to be able to work on eviction sealing efforts and other pieces that can better represent and repair their credit in order to address this.

We have limited outreach resources in our community. Currently, there are no funds, or very limited money that the city of Toledo receives through the ESG funding. None of that is dedicated to outreach resources, and so the outreach we have is limited to those funded by the Mental Health and Recovery Service System. While greatly valued, they're significantly limited in their ability to continue and maintain outreach to all of the citizens who remain unsheltered. We have barriers for transition-age youth, families, and high-need individuals, and of late, although it didn't represent last year, we're starting to see a large increase currently in the number of seniors who are seeking housing or have unstable housing situations, particularly those that also have medical needs, and if you have medical needs, you are not eligible to be served by the shelter system, so we're starting to experience a large gap.

There's also inconsistent discharge planning from multiple different institutions, including skilled care and hospitals, that we continue to look to address and bring into the fold as we look to implement an open HMIS system and data sharing so that we can better utilize resources within the community and provide cost-effective solutions that are coordinated amongst the different systems that can often be siloed from each other. There's been a significant reduction in the available resources post-COVID and through other different systems and nationally through several different service delivery systems. This has significantly impacted our ability to move individuals and families out of the shelter system. Unfortunately, we are seeing much longer lengths of stay and individuals languishing without consistent housing, which often leads to significant health issues, children missing school, and in the end, significantly worsened mental health needs.

We have made several accomplishments. Again, 46 units of permanent supportive housing were created for folks who have been on the street the longest and are chronic, and we continue to work with those individuals in a successful program. We've developed permanent supportive housing for youth who are in vulnerable populations that is scheduled to launch later this month or next month. I won't steal Senghor's thunder on that, but very excited to be part of the ribbon-cutting for that project today. It is an enormous accomplishment to start meeting some of the different subpopulation needs within our community. We've integrated outreach efforts as part of our coordinated entry and access point within the community to utilize resources we have. Again, because those aren't currently funded, how do we do that differently?

We've significantly improved our encampment engagement system, which will become critically important as every day we see more and more street folks who are unsheltered. We're happy to report that this collaboration is amongst the Toledo Lucas County Homelessness Board, the city of Toledo, Toledo Police, Toledo Fire, Toledo Code Enforcement, Mental Health Crisis teams, and many others that are making the opportunity to reach folks with significant and varied needs amongst our unsheltered population and connect them to services. Many of these are folks that experienced trauma or may have other needs or bad experiences, and so they may not enter the shelter system.

The key to this is those are folks that previously weren't seen, heard, and were totally overlooked. So, we are now connecting those folks in a better and different way to services that they weren't able to connect before unless they were willing to go through the shelter which, again, was a traumatic experience. So, we see this as one of our largest wins this year, particularly because of coordination and collaboration amongst so many entities to make sure that we as a community take care of our citizens and are not criminalizing those that are experiencing a lack of housing.

We were able to get 248 households into permanent housing, but there's still work to do. I can tell you as of today, there are 190 and all shelter beds are full – 588 beds across the system are full. There are 196 families on the wait list for shelter. This is up 7.5% over last week's wait list. For males, there are 38 on the wait list, and that is up 17% just over last week, and for females, there are 70 on the wait list, up 5.5% from last week. So, we continue to work with this, refine the system, and evaluate how we can work differently and start to stretch our community resources and collaborations. One of the ways that we'll continue to do that in the upcoming year is to compare data and information from our system to other systems so we can be more cost effective in service delivery and identify increased solutions with dwindling resources.

We look to advocate for additional affordable housing development and to work closely with the city of Toledo, its land bank, and other landlord engagement efforts and home-ownership efforts to provide possible options and solutions to the folks in our system. The Board itself is expanding landlord engagement and housing navigation on a daily basis through implementation of software and collaboration with landlords through an implementation called Hive, and we work closely and collaborate resources so that we are not duplicating with the landlord engagement staff currently with Lucas Metropolitan Housing.

This has been a significant improvement and led to already reduced wait times for folks that do have resources to be able to reestablish themselves in permanent supportive housing. We can improve the discharge planning with our institutions. What we particularly need to do in this space is to come up with an option for medical respite or other needs, particularly given the large senior population we're starting to see being discharged from skilled institutions if they have Medicaid coverage. We did not anticipate to see this happening for at least a year – year and a half, but it is already occurring. And again, if you are in need – if you have open wounds, if you can't take care of yourself on a daily basis, a shelter is not equipped to serve you. So, if skilled nursing and a hospital aren't appropriate, where do our seniors go? So, we have to come together to provide better service and solutions in that arena and that subpopulation. We'll look to prioritize this Hive need with any and all possible flexible funding sources that may come to light or things that may change with the ever-changing landscape on both the national, state, and local level. Ending homelessness will require even more collaboration, innovation, and finding some sustained investment to be successful.

So, we look forward to working with our partners – the City of Toledo, The Fair Housing Center, and Lucas Metropolitan Housing here this evening, as well as our Continuum of Care partners in trying to look at, evaluate national programs that work, and how those programs can be implemented here and scalable, particularly to our city. We're sort of a unique size where we can't bring all effective programs here because they're just not scalable. But

we're doing everything we can to evaluate what the parts and pieces are that we can implement here and be effective in how we provide a service-delivery system that's more affordable and more effective for the persons in need.

A particular focus on this will be ensuring that we can heed HUD's call to improve income. While it is not the sole source and means for improved housing, it is a significant supporting factor. So, we will increase our efforts for workforce development connections, making sure that we're connecting both people on the wait list and those in the shelter system to financial opportunity centers and having cross-system collaboration there that's much more intentional than what we've had in the past, instead of warm handoffs, much more intentional integration of our services, and of course, continuing to ensure our citizens are connected to mainstream resources. We invite the community along with us on that journey and opportunities to get involved in the Continuum of Care at any point, whether it's from prevention, or connection to permanent supportive housing, we welcome our citizens and our community partners at that table at any time in that effort.

Thanks for the opportunity to speak, Monica.

Monica Brown: Thank you, Julie. Now on the rounded off, we'll have Senghor Manns talk about public housing.

Senghor Manns: Good evening, my name is Senghor Manns. I'm the Chief Executive Officer and President of Lucas Metropolitan Housing. What we'll do is provide some high-level information on some of the projects that we've worked on over the last year from July to present day, so to speak. As a matter of fact, Julie had mentioned one of the projects that we had a ribbon-cutting on today. So, a couple of things I wanted to point out initially. Well, actually, the first one I want to point out is that it's not September 5th, it's September 4th, for the record. We'll change that. Like I said, you didn't get the revised one.

What is our purpose? So, Lucas Metropolitan Housing's vision is to be a lead partner in creating communities of choice where everyone has a place to call home. Our vision is to lead in the development and sustainability of housing accessible to all and providing pathways to an enhanced quality of life that empowers vibrant communities.

We have a strategic plan. That strategic plan actually started in 2024 and ends in 2028. We have primarily six goals. We have some sub-goals as well, but the six primary goals are Goal 1 – Invest in employee growth and enhance the workplace satisfaction. Goal 2 – To increase revenue and pursue diverse income streams. This is primarily a result of us not wanting to depend solely on our HUD funding, and so we believe that we have to have a diverse income stream. Goal 3 – To lead in the effort to create accessible housing opportunities in Toledo and the region. We're actually Lucas Metropolitan Housing, so our catchment area is Lucas County, actually even beyond Lucas County in some ways with our housing choice voucher program. Goal 4 – Streamline the processes and elevate user experience and satisfaction, so we are upgrading our IT system. Goal 5 – Launch an inclusive communication strategy to educate stakeholders and foster community awareness. We are actually developing a communication plan, and you might have noticed if you've followed us on any of the social media platforms, we've had increased engagement with our social media platforms such as LinkedIn, Facebook, and Instagram. Goal 6 – Build new pathways to family income wealth-building and economic advancement. I'll talk a little bit about our FOC. I think Julie had mentioned that earlier.

Statistics for our public housing program – we actually have three primary programs, but we're going to really talk about public housing in the context of housing affordability and housing access. So, for our public housing program, the total number of units that are under management by us are 2,414. Total number of families on our wait list was 1,539, but it's actually a lot lower than that now.

Our average annual turnover is about 300 units, or 300 folks moving out. Our wait list is currently closed, but we actually plan on, and this is, again, one of the things I wanted to revise, and that's why. So, we intended to open our wait list September 26th to the 28th. That has changed now, so it will probably be in October – late October. So, please don't go out and say to people that we're opening our wait list in late September. The last time that we opened our wait list for our public housing program was two years ago. It was in October of 2023 and the cadence that we want to hit now is opening our wait list between a year and a year and a half. Every year to a year and a half, we want to open our wait list, and so, we're not going to wait two, three, four, five years like housing authorities generally do.

So, for us, what's next? So, we have primarily two categories, if you want to call it that, of housing in our public housing program. One is our housing that primarily serves our families, sometimes called a general occupancy, and then we have housing that's designated for elderly and/or disabled families. So, in order to have housing that's primarily designated for elderly or disabled families, you actually have to receive a HUD designation. So, you go through a formal planning process, you go through a formal submission, and then HUD will approve or not approve that plan. So, we continue to provide housing dedicated to the needs of the elderly by maintaining the designation of certain public housing properties through the designated housing plan that we submitted to HUD. This plan was approved in 2018 and has been extended through 2025. Because we're in 2025, we actually did make, last week, an application for an extension of our elderly designation, and so, we believe that we're going to get that approved, but we will wait to see what HUD says.

What is provided in the table shown are units that have that specific designation. So, you'll see that we have roughly 320 total units that have that elderly designation. In a general sense, there are some exceptions, but generally speaking, the elderly designation is 62 years of age and older. There are some exceptions to that, but for people that are interested, that's generally what it is. We also have, as a part of our program, units that may be in a state of disrepair that makes it very challenging or difficult for us to turn them over very quickly, and so we put them into what's referred to as a modernization status. HUD has to actually approve that status, so, if we have, for example, a week and a half ago, we had a unit that caught fire. Actually, we believe it might have been arson, but everybody was okay, but we put it into a modernization status because it's going to take us quite a while to have that unit cleaned out, turned, improved, renovated, etc.

We have about 66 total units that are in this modernization status. Four of them are fire units and 60 are when the family moved out and the units were in such poor condition that we knew that it was going to take us quite some time, so we placed those into modernization status. It gives us then two years to turn those units. We don't want to have too many units in modernization status. We don't want to take two years. Everybody knows that we need to have units online and have families occupying these units, so we try to keep that number as low as we possibly can, but when we have it, it's because it's a necessity for us to have these units in mod status.

There was a fair amount of activity that had started during the last year and that we expect over the next year. Some of it is highlighted here, and I'll talk about each of them very, very quickly. Palmer Gardens – 75 units, mixed-income and seniors. It's going to be about a \$22 million project. We hope that we'll have that renovated apartment complex ready to go by 2027. TenEyck Towers is a 154-unit RAD, senior/disabled potentially, with \$38 million that will be placed into that development. That's still a little tentative, but right now, that's kind of what we're looking at. Collingwood Green IV – 40 units of mixed-income and families, not seniors, but families, at about \$20 million. Hopefully, that delivery date, if all goes well, will be in 2027.

In addition, Julie had made reference to Park Apartments. We had our ribbon-cutting event this morning. It was fantastic – about 115 attended. It's a 45-unit complex geared to homeless transition-age youth, so youth ages 18 to 24. It's a \$14 to \$15 million project, and we expect that we'll be opening those doors for our new residents in early October. Collingwood Green IV is a 75-unit senior-only building that, if you go down Nebraska, you'll see that it's under construction right now. Well, actually, it's about \$28 million. We actually expect to have a ribbon-cutting event in 2026, so February of 2026 – first quarter. Also, Mission Point – a 65-unit complex that we're finalizing our financing for, which will serve the homeless population. It'll be about a \$21 million complex that we hope to be operating in 2027. So that's what we are working on.

We actually have a few others that we're working on. Washington Village is, hopefully, a new construction single-family unit project with five sites that we're focusing on in the Junction area. Thurgood Marshall is an old school that had been closed down, and we were in the process of trying to take advantage of that particular property by converting it to 53 apartments, which would be senior-only. We're working with the Area Office on Aging. It would be about a \$25 million project. We're still working through some of the finer details with the school to gain access.

McClinton-Nunn, right off of Nebraska, just across from Collingwood Green, is a 379-unit family and senior facility. We expect to put about \$10 million in facade improvements, boiler room, or mechanical improvements, along with some exterior work – some facade work that will actually make it look a lot more modern than it is right now. That will start in 2026.

Vistula Manor, which is off of Cherry Street – we actually plan on improving the exterior work at Vistula Manor and also doing some renovation work on the first floor, as well as installing some new air conditioning units for the families. I already talked about Collingwood V, but I repeated myself there. Also, Weiler Homes/Speiker Terrace, 425-unit family and senior site, planning on doing demolition work and renovation on some of the buildings, doing some new construction, and actually doing some deconcentration of the amount of poverty over there. So, we'll have to, as part of the demolition, figure out what's a good number over there. And then we'll have, of course, the families that are willing to move to another area. We'll actually figure out how to relocate them so that there's a proper and very thought-out process for having our families move to other locations without displacing them or dislocating them by having them going somewhere where they really don't have any support system. So, we want to deconcentrate the area – 400+ units are a lot of units in one space, so we're going to try to be very thoughtful in the development of that space, but it's been a long time coming.

There was a mention of FOCs. FOC stands for Financial Opportunity Center. Lucas Metropolitan Housing received this designation two years ago, I believe – maybe three years ago. We are the first housing authority in Ohio to receive this designation. It's an on-site career financial coaching service center that helps families living on low- to moderate-income build effective money habits and focus on the financial bottom line. Lucas Metropolitan Housing has partnered with LISC to implement a successful model. LISC has over 100 FOCs across the country that are situated within the local community organizations. So, we thank LISC for their participation. They provide technical assistance and some funding. We've been fortunate enough to have them as we hire coaches, have them train our coaches, and provide a number of tools to us so that we could effectively operate that particular program. So last year, for our FOC, we served 111 residents and delivered over 800 coaching sessions. Some of our outcomes included 79 residents which were connected to income support with over half approved and receiving benefits. There was a net worth increase to 29 residents, and we had a lot of residents who obtained living-wage employment as a result of the work that we did with our families. As I said before, we've dedicated time, energy, and funding to hiring coaches and we have a team of coordinators and coaches that provide these services to our residents and others in some cases.

So, with that, I will entertain any questions.

Monica Brown: Thank you, Senghor. So, to round it out, I just want to go over a couple quick things and some important dates.

The Draft CAPER was distributed on August 25th. It is available at the public libraries if you want to get a copy, or review a copy of it. It's also available on the city's website, as well as our partners' including The Fair Housing Center, Lucas Metropolitan Housing, as well as the Toledo Lucas County Homelessness Board, and Lucas County Board of Developmental Disabilities. It's on their websites where you can download and review it.

The comment period started on August 27th. There is a 15-day comment period that will run until September 10th, and then the final CAPER has to be submitted to HUD no later than September 29th, so we are finalizing, looking at our accomplishments, and reconciling everything to get the final numbers of what we need to submit to HUD.

If you want to provide us with a written comment, you can send that to the City of Toledo. Department of Housing and Community Development, 2024-2025 CAPER, One Government Center, Suite 1800, Toledo, Ohio 43604, or you can also send your comments to myself, Monica Brown, at monica.brown@toledo.oh.gov.

At this time, I will now open up the public hearing for any questions.

No questions? Okay.

The time is now 6:36 p.m. and that concludes our public hearing for the 2024-2025 Consolidated Annual Performance and Evaluation Report – CAPER.

**PUBLIC NOTICE
CITY OF TOLEDO
DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT
CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORT
for
2024 Program Year – July 1, 2024 to June 30, 2025**

The City of Toledo (COT) is directed by the U.S. Department of Housing and Urban Development (HUD) to notify the general public of the undertakings, activities, and accomplishments completed in and at the close of each Program Year through a Consolidated Annual Performance and Evaluation Report (CAPER). The CAPER provides an assessment of the federally funded programs administered by the COT's Department of Housing and Community Development: Community Development Block Grant (CDBG), Emergency Solutions Grants (ESG), HOME Investment Partnerships Program (HOME), Neighborhood Stabilization Programs (NSP), and Lead Hazard Control & Healthy Homes Grant.

The Draft CAPER will be available for review beginning **Wednesday, August 27, 2025**, on the website of the following entities:

Department of Housing and Community Development
One Government Center, 18th Floor
Downtown Toledo, Jackson & Erie Streets
website: <https://toledo.oh.gov/departments/housing-community-development>

Lucas Metropolitan Housing
424 Jackson Street
Toledo, Ohio 43604
website: www.lucasmha.org

Office of the Mayor
One Government Center, 22nd Floor
Downtown Toledo, Jackson & Erie Streets
website: <https://toledo.oh.gov/government/mayor>

Toledo Lucas County Homelessness Board

Department of Housing and Community Development to Report Accomplishments; Encourages Public Comments

 Friday, August 15, 2025

The city of Toledo's (COT) Department of Housing and Community Development is seeking comments on its DRAFT Consolidated Annual Performance and Evaluation Report (CAPER). Citizens are invited to participate in a virtual Public Hearing and learn more about how the City utilized federal dollars for the benefit of low- and moderate-income residents during the Program Year 2024 (ending on June 30, 2025).

The 2024 DRAFT CAPER will be presented at the following public hearing:

Thursday, September 4, 2025, 5:30 p.m.

City Council Chambers, 1st Floor

One Government Center, Toledo, OH 43604

Comments on the 2024 DRAFT CAPER are welcome at the Public Hearing. The city of Toledo will accept written comments from the public beginning Wednesday, August 27, 2025 through Wednesday, September 10, 2025 by submittal to: City of Toledo, Department of Housing and Community Development, 2024-2025 CAPER, One Government Center, Suite 1800, Toledo, Ohio 43604 or by email to: monica.brown@toledo.oh.gov

The DRAFT CAPER will be available for review beginning Wednesday, August 27, 2025, on the website of the following entities:

Department of Housing and Community Development
One Government Center, 18th Floor
Downtown Toledo, Jackson & Erie Streets
Toledo, Ohio 43604
website: <https://toledo.oh.gov/departments/housing-community-development>

The 2024 DRAFT CAPER presentation will provide an assessment of the federally funded programs monitored by the COT's Department of Housing and Community Development:

Community Development Block Grant (CDBG) for community, economic and housing development;
HOME Investment Partnerships Program (HOME) for housing development:

- **Emergency Solutions Grant (ESG) for the elimination of homelessness;**
- **Lead Hazard Control and Healthy Homes Grant; and**
- **Other HUD Grants & Grants from the U. S. Treasury.**

The Department of Housing and Community Development continues to work closely with the Toledo Lucas County Homelessness Board to assist in the goal of eliminating and reducing homelessness and with The Fair Housing Center to affirmatively further fair housing in Toledo. At the Public Hearing, more information will be provided related to the progress achieved in these areas.

Fair Housing Report

Fair Housing Action Plan: July 2024 through June 2025 Update

According to HUD's guidance, the plan to address the impediments should:

- List fair housing action(s) to be completed for each objective.
- Determine the time period for completion.
- Identify resources from local, State, and Federal agencies or programs as well as from financial, nonprofit, and other organizations that have agreed to finance or otherwise support fair housing actions.
- Identify individuals, groups, and organizations to be involved in each action and define their responsibilities. Obtain written commitments from all involved, as a formal recognition of their agreement to participate in the effort in the manner indicated. HUD recommends that jurisdictions specify these commitments in the appropriate contracts that may arise in connection with the fair housing actions.
- Set priorities. Schedule actions for a time period which is consistent with the Consolidated Plan cycle.¹

Consistent with HUD's guidelines, the action plan provided here will help guide the City of Toledo to address the identified local impediments to fair housing.

Action Plan Format and Explanation

The action plan provided on the following pages is organized into charts covering each of the identified goals to address Fair Housing Impediments. Each chart provides objectives as required by HUD's guidelines, City departments with appropriate responsibilities, information about the potential involvement of other partner institutions including The Fair Housing Center, and suggested deadlines for completion. Under chart, space is provided for discussion. As the City moves forward, this "discussion" space will provide notes on progress made or potential changes, or suggestions for changes, to the action plan.

¹ *Id.*

Fair Housing Issue: Criminal History Screening

Goal: Ban the box policy

Measurable Objectives	City Department Responsible	Other Institutions	TFHC's role	Deadline
Complete initial meeting	City staff should consult with City Council and then schedule an initial meeting to evaluate	RCNO	TFHC will attend initial meeting	First half of FY 2020
Develop schedule for next steps in evaluation	Leadership, meeting space, encouragement	RCNO, other groups as determined	TFHC will provide technical assistance and support	Second half of FY 2020
Draft legislation	City's law department will assist		TFHC may provide review and technical assistance	Second half of FY 2020
Introduce legislation to City Council	City Council and Mayor's office seeks introduction			First quarter of 2021
Complete hearings and final council vote on the issue	City Council	RCNO and other groups to provide public support	TFHC may provide support and technical assistance	First quarter of 2022

Discussion:

Reporting period: July – September 2020 & October – December 2020

No updates this reporting period.

Reporting period: January – March 2021 & April – June 2021

- Community partners and several City Council representatives have been meeting regularly to discuss policies and legislation that will improve housing stability for tenants by expanding access to safe, affordable, quality housing. Discussion has included consideration of an ordinance that would limit the criteria housing providers use to screen tenants, including restrictions on use of

criminal history. The group advocates for legislation that would ensure housing providers' tenant selection policies comply with 2016 HUD guidelines regarding criminal history screening, including evaluation of the nature of offenses to determine whether they demonstrate a risk to the safety of the property or residents. These types of policies help to prevent unfair denial of housing to applicants who would otherwise qualify and increase the availability of housing for individuals returning from incarceration.

- In June 2021, HUD released a memo outlining plans to improve access to stable housing for reentry by increasing the availability of housing vouchers, providing tools and guidance to housing providers to ensure tenant selection plans are consistent with 2016 HUD guidelines regarding criminal history screening, evaluating HUD's policies to identify barriers for reentry, and making information about best practices more widely available.

Reporting period: July - September 2021 & October - December 2021

No updates this reporting period.

Reporting period: December 2021 through January 2023

- So far, a local ban the box proposal has not been formally presented to City Council or other decision-makers. While the potential for it has been discussed, tangible movement on a local ban the box law has not occurred.
- The City and other stakeholders may wish to consider convening focus group discussions with advocates to review how such a local policy could be crafted and how it could be enforced. It is important to note that other policies that the City has adopted, such as source of income discrimination laws need to be enforced as well.

Reporting period: January 2023 through June 2023

No further updates at this time.

Reporting period: July 2023 through June 2024

The Fair Housing Center filed a case in federal court on behalf of Mr. Henry Reed alleging discrimination on the basis of race after a housing provider refused to renew his lease due to criminal history. TFHC took this opportunity to educate the public on the importance of criminal history screening as a fair housing issue.

There are no further updates at this time related to the potential development or passage of a local ban the box law.

Final report

There are no further updates on this project. Given the lack of progress on this issue. The Center has redirected efforts in this area in the new 2025-2030 AI and Action Plan to focus on taking advantage of a new state law that allows ex-offenders to seek a certification for qualification for housing, while also enforcing fair housing rights for ex-offenders.

Fair Housing Issue: Criminal History Screening

Goal: Set aside affordable housing opportunities

Measurable objectives	City Department Responsible	Other Institutions	TFHC's role	Deadline
Complete initial meeting	City staff to schedule meeting and review potential for unit set asides with LMH	LMH	TFHC will attend initial meeting	First half of FY 2020
Develop schedule for next steps in evaluation	City staff to provide assistance and follow through to ensure progress	LMH	TFHC may provide assistance in determining next steps	Second half of FY 2020
Determine number of hard units and vouchers to be set aside	In consultation with LMH, determine a projection for potential set aside of units and vouchers	LMH		Second half of FY 2020
Set target time for roll out of set aside	City staff to track	LMH	TFHC may also monitor	First quarter of 2021

Discussion:

Reporting period: July – September 2020 & October – December 2020

Update from LMH: The Ridge Project is designed to provide vouchers to the re-entry population. This program in initial phase.

Reporting period: January – March 2021 & April – June 2021

Update from LMH:

- For the Emergency Voucher Program, HUD allowed PHAs, like LMH, to waive certain requirements in the Admin. Plan related to prior criminal activity. LMH has accepted those waivers.
- LMH is also in process of a review of the Admin. Plan in its entirety. That process will include a review, and likely revision to the look back period, so that it matches the standard set in the ACOP. That is likely to be done within next year as LMH has had a large turn over in leadership within the HCV program.

Reporting period: July - September 2021 & October - December 2021

Update from LMH: Emergency Voucher Program is still moving forward, more updates expected next quarter.

Reporting period: December 2021 through January 2023

- The Fair Housing Center has not yet received updated on the status of LMH's Emergency Voucher program. The Fair Housing Center is currently reviewing LMH's local policies on criminal history screening as they relate specifically to the housing choice voucher program and may soon discuss the potential for improving these policies with LMH. The City may also wish to review these policies from its perspective considering the goal of eliminating barriers to fair housing choice.

Reporting period: January 2023 through June 2023

- No further updates at this time.

Reporting period: July 2023 through June 2024

LMH has begun setting aside housing choice voucher opportunities for the reentry population. In addition, in December 2023, LMH updated its criminal history screening policies related to the voucher program to improve compliance with fair housing and HUD's guidelines.

TFHC met with the Ridge Project which is coordinating the receipt and implementation of HCV opportunities with LMH for the reentry population. The Ridge Project is grateful for the HCV opportunities but its clients are still experiencing significant barriers as they attempt to use the vouchers in the community.

Final Report

The Center is glad to see that this project which we had advocated for over the years come to fruition with the Ridge Project.

Fair Housing Issue: Criminal History Screening

Goal: Private housing provider compliance

Measurable objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Develop and review plans for outreach	Provide support to TFHC	LMH	With available resources, will perform outreach	Second half of FY 2020

Develop and implement plans for enforcement	Provide support to TFHC		With available resources, enforce Fair Housing laws	Second half of FY 2020
--	-------------------------	--	---	------------------------

Discussion:

Reporting period: July – September 2020 & October – December 2020

TFHC drafted a model criminal history screening policy for housing providers that complies with HUD's 2016 guidelines. This document can serve as a template that housing providers can adopt or use as a guide to develop their own criminal history screening policy that aligns with fair housing recommendations. TFHC plans to share this policy more widely with contacts in the reentry community as well as with housing providers during its regular fair housing training sessions.

Reporting period: January – March 2021 & April – June 2021

- Community partners and several City Council representatives have been meeting regularly to discuss policies and legislation that will improve housing stability for tenants by expanding access to safe, affordable, quality housing. Discussion has included consideration of an ordinance that would limit the criteria housing providers use to screen tenants, including restrictions on use of criminal history. The group advocates for legislation that would ensure housing providers' tenant selection policies comply with 2016 HUD guidelines regarding criminal history screening, including evaluation of the nature of offenses to determine whether they demonstrate a risk to the safety of the property or residents. These types of policies help to prevent unfair denial of housing to applicants who would otherwise qualify and increase the availability of housing for individuals returning from incarceration.
- TFHC conducted a virtual training focused on fair housing rights for reentry via Zoom and Facebook Live in April 2021, helping reentry advocates and service providers better understand how fair housing laws apply to individuals returning from incarceration.

Reporting period: July - September 2021 & October - December 2021

- The Building Bridges of Opportunity Community Experience virtual conference took place in October 2021, engaging statewide reentry advocates to learn about effective practices for successful reentry, connect to reentry resources, and collaborate with other reentry coalitions. TFHC participated in the conference by conducting a training session on how fair housing rights are applicable to reentry populations, including guidance on use of criminal history screening criteria by housing providers.

-
- TFHC regularly investigates allegations of housing discrimination based on criminal history.
 - TFHC regularly conducts fair housing trainings for housing professionals, and these sessions include guidance for housing providers on how to conduct criminal history screenings in compliance with fair housing and HUD regulations.

Reporting period: December 2021 through January 2023

- TFHC continues to regularly conduct fair housing trainings for housing professionals, and these sessions include guidance for housing providers on how to conduct criminal history screenings in compliance with fair housing and HUD regulations.
- TFHC has been successful in multiple cases filed before the Ohio Civil Rights Commission regarding criminal history screening.

Reporting period: January 2023 through June 2023

- TFHC continues to regularly conduct fair housing trainings for housing professionals, and these sessions include guidance for housing providers on how to conduct criminal history screenings in compliance with fair housing and HUD regulations.
- TFHC has been successful in multiple cases filed before the Ohio Civil Rights Commission regarding criminal history screening.

Reporting period: July 2023 through December 2023

- TFHC continues to regularly conduct fair housing trainings for housing professionals, and these sessions include guidance for housing providers on how to conduct criminal history screenings in compliance with fair housing and HUD regulations.
- TFHC has been successful in multiple cases filed before the Ohio Civil Rights Commission regarding criminal history screening.
- TFHC has been increasing its litigation in federal court as well. TFHC filed several cases in federal court during this reporting period.

Reporting period: January 2024 through June 2024

- No additional updates at this time. See immediately proceeding points.

Final Report

This project with LMHA continues to represent an important milestone success story in addressing criminal history screening.

Fair Housing Issue: Homeownership: Lending and Insurance

Goal: Encourage private lenders to provide credit opportunities in minority and low-income neighborhoods

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Develop and review plans for outreach	Provide support to TFHC		With available resources, will perform outreach	Second half of FY 2020
Develop and implement plans for enforcement	Provide support to TFHC		With available resources, enforce Fair Housing laws	Second half of FY 2020

Discussion:

Reporting period: July – September 2020 & October – December 2020

TFHC continues to work with KeyBank and Premier Bank (formerly First Federal Bank) to make lending accessible in underserved communities. TFHC met with KeyBank on 9/23/2020 and 2/1/2021. TFHC met with Premier Bank on 10/30/2020.

Reporting period: January – March 2021 & April – June 2021

TFHC met with Key Bank regarding the EQ2 investment on 3/2/2021, 3/10/2021 and 3/26/2021. TFHC held a quarterly meeting with Premier Bank on 3/26/2021.

Reporting period: July - September 2021 & October - December 2021

- TFHC met with KeyBank on 11/4/21.
- KeyBank, NeighborWorks Toledo Region, and The Fair Housing Center announced a partnership to make financing single-family homes easier and more affordable for low- to moderate-income individuals and families throughout the City of Toledo. The program, funded by a \$3 million investment from KeyBank and administered by NeighborWorks, will provide an estimated 60 first mortgage and refinance loans at below market rates to borrowers in primarily LMI neighborhoods with an annual income not exceeding 80 percent of the area median income. Designed to remove many of the obstacles people face when applying for a traditional loan, this new effort will help to improve access to homeownership by supporting first-time homebuyers in historically underserved neighborhoods.

Reporting period: December 2021 through January 2023

- TFHC continues regular meetings and review of KeyBank's loan program. As of January, 2023, KeyBank has implemented about \$1.5 million in loans in LMI neighborhoods as a result of the settlement agreement with TFHC.
- Starting in 2023, TFHC will be meeting with all the largest local banks in Toledo to discuss their CRA commitments.
- At the end of 2022, Fifth Third notified its members and the Office of the Comptroller of the Currency that it would be closing an important branch location in Toledo. The Fair Housing Center and others in the community are reviewing this issue and the impact it will have on Toledo.

Reporting period: January 2023 through June 2023

- Fifth Third recently indicates that it would be selling the branch that it chose to close to a local credit union at below the market rate for the property.
- The OCC has committed to providing a listening session for the Toledo area.
- The Fair Housing Center plans to work with local groups to prepare for the listening session and also educate more community groups on the CRA and CRA advocacy.

Reporting period: July 2023 through December 2023

- Fifth Third recently indicates that it would be selling the branch that it chose to close to a local credit union at below the market rate for the property.
- The OCC has committed to providing a listening session for the Toledo area.
- TFHC has scheduled with OCC the first training session on Jan. 18, 2024. It is inviting many local institutions to attend the training.
- A listening session will be held in February as well.
- This training and listening session is a significant development for the Toledo area in terms of building work around CRA advocacy.

Reporting period: January 2024 through June 2024

- The Fair Housing Center conducted the CRA training and listening sessions as explained above. Approximately 100 persons attended and the sessions were very well received.
- In addition, the Center has continued to meet with local banks, including KeyBank and others to encourage investments in the Toledo area for low-income and minority residents and census tracts.

Final report

The need for an increase in homeownership opportunities for Toledoans continues to be a critical issue. TFHC continues to recommend action on this in a continuation of the efforts listed above. There are no further updates.

Fair Housing Issue: Homeownership: Lending and Insurance

Goal: Address insurance discrimination issues

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Develop and review plans for outreach	Provide support to TFHC		With available resources, will perform outreach	Second half of FY 2020
Develop and implement plans for enforcement	Provide support to TFHC		With available resources, enforce Fair Housing laws	Second half of FY 2020

Discussion:

Reporting period: July – September 2020 & October – December 2020

- TFHC filed a case against the Ohio FAIR Plan demanding access to the Ohio Fair Plan's public records. The Ohio FAIR Plan's position is that it is not subject to public records requests. TFHC filed a mandamus action which is still pending in the Court of Appeals for the 10th Dist. of Ohio.
- TFHC also has at least one insurance discrimination case currently pending before the Ohio Civil Rights Commission.

Reporting period: January – March 2021 & April – June 2021

TFHC met with Key Bank regarding the EQ2 investment on 3/2/2021, 3/10/2021 and 3/26/2021. TFHC held a quarterly meeting with Premier Bank on 3/26/2021.

Reporting period: July - September 2021 & October - December 2021

- TFHC was recently successful in assisting a complainant in asserting a redlining claim against Allstate Insurance. The Ohio Civil Rights Commission found probable cause and the matter is now before an administrative law judge.
- TFHC was successful in a mandamus action filed against Ohio Fair Plan to force it to provide public records regarding access to insurance in Ohio. TFHC was successful before the magistrate in the 10th Dist. Court of Appeals. The case is currently pending with objections to the magistrate's decision filed by Ohio Fair Plan.

Reporting period: December 2021 through January 2023

- TFHC's lawsuit against the Ohio Fair Plan, discussed above, was successful before the 10th Dist. Court of Appeals. The Ohio Plan appealed to the Ohio Supreme Court. Oral arguments in the case are scheduled for March 22, 2023.

Reporting period: January 2023 through June 2023

- Oral arguments in the case described above took place in March. We are presently waiting for the Court to issue a decision.

Reporting period: July 2023 through December 2023

- The Fair Housing Center was successful in the case described above after oral argument. This is a significant victory before the Ohio Supreme Court.
- After this success, Ohi Fair Plan provided the insurance data that TFHC requested. The University of Toledo's Urban Affairs Center is currently working with the data to analyze trends and map the addresses of insurance applications denied and approved.

Reporting period: January 2024 through June 2024

- After The Fair Housing Center's success in suing the Ohio Fair Plan to uncover its records, the Center worked with UT's Urban Affairs Center to analyze the data. The data show that there are "cold spots" in the implementation of the insurance program. This means that there are areas that receive a relatively lower number of insurance policies. Some of these areas are ones that should qualify for the insurance product. This initial analysis merits further investigation.

Final Report

The Center continues to identify insurance access as an important, though difficult to track, barrier to fair housing choice. There are no further updates at this time as The Center continues to hope to do more with the Ohio Fair Plan data mentioned above.

Goal: Coordinate with local banks to create a loan product to address credit needs in minority neighborhoods

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Complete initial meeting	City staff should consult with TFHC to identify appropriate next steps for outreach and models from other cities		TFHC will attend meeting	Second half of FY 2020
Develop schedule for next steps in evaluation	Research models from other cities for coordination to encourage improved loan products		TFHC may assist with technical support as needed	Second half of FY 2020
Convene meetings with banks as appropriate	Discuss potential product collaborations with banks		TFHC can be available if needed	First half of 2021
Set time frame for roll out of new loan products	Consults with banks to determine this		TFHC reviews, discusses with city	First half of 2021

Discussion:

Reporting period: July – September 2020 & October – December 2020

- TFHC continues to work with KeyBank to create a much-needed community loan product.
- While TFHC continues its work as listed above, TFHC suggests that the City should convene a meeting of local banks to discuss improving the products that they make available to Toledoans, especially in majority-minority neighborhoods.
- At the same time, TFHC plans to analyze more closely local HMDA data that will become available later in 2021. TFHC is in discussions with other researchers to

help with analysis of this data. This information may be helpful to report publicly in order to encourage banks to improve lending services.

Reporting period: January – March 2021 & April – June 2021

TFHC met with Key Bank regarding the EQ2 investment on 3/2/2021, 3/10/2021 and 3/26/2021. TFHC held a quarterly meeting with Premier Bank on 3/26/2021.

Reporting period: July - September 2021 & October - December 2021

- TFHC met with KeyBank on 11/4/21.
- KeyBank, NeighborWorks Toledo Region, and The Fair Housing Center announced a partnership to make financing single-family homes easier and more affordable for low- to moderate-income individuals and families throughout the City of Toledo. The program, funded by a \$3 million investment from KeyBank and administered by NeighborWorks, will provide an estimated 60 first mortgage and refinance loans at below market rates to borrowers in primarily LMI neighborhoods with an annual income not exceeding 80 percent of the area median income. Designed to remove many of the obstacles people face when applying for a traditional loan, this new effort will help to improve access to homeownership by supporting first-time homebuyers in historically underserved neighborhoods.

Reporting period: December 2021 through January 2023

- As explained above, about \$1.5 million of the loan product provided through Neighborworks by KeyBank has been implemented.
- As mentioned above, TFHC will be meeting with all the largest banks in the area to review their CRA commitments.

Reporting period: January 2023 through June 2023

- No additional updates in this reporting period. The work described above is ongoing.

Reporting period: July 2023 through December 2023

- KeyBank continues to implement its product as described above.

Reporting period: January 2024 through June 2024

- KeyBank continues to implement its product as described. In the most recent meeting with KeyBank, it communicated that it had nearly expended all of the funds. Less than \$100,000 remain. The Fair Housing Center has advocated that Key continue the product with additional funding. Key is evaluating the potential for this.

Final report

The Center successfully advocated for actions by Fifth Third bank to reduce the harm of a branch closure in a majority-minority neighborhood.

Fair Housing Issue: Accessibility for persons with disabilities

Goal: Enforce current visitability and accessibility rules

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Collect information on current enforcement efforts	City staff may help provide information on current enforcement of accessibility rules		TFHC will help collect information	Second half of FY 2020
Develop and review plans for outreach	Provide support to TFHC		With available resources, will perform outreach	Second half of FY 2020
Develop and implement plans for enforcement	Provide support to TFHC		With available resources, enforce Fair Housing laws	Second half of FY 2020

Discussion:

Reporting period: July – September 2020 & October – December 2020

Update from TFHC:

- TFHC has a representative that serves on the Toledo Lucas County Commission on Disabilities and Community Advocates for Transportation Rights (CATR).

Update from The Ability Center:

- The Ability Center participated in the City of Toledo Consolidated Planning process and gave input on the basis of the needs of people with disabilities.
- The Ability Center monitored monthly reports regarding new housing developments.
- The Ability Center held regular meetings with the Department of Neighborhoods and Area Office on Aging to discuss housing issues.
- 8/25/2020: Housing Equity Roundtable
- 9/2/2020: Ohio Housing Policy Panel
- 9/29/2020: Housing Equity Policy Group

-
- 10/15/2020: COT 10-year Housing Action Plan
 - 12/16/2020: DD Council Housing Policy Panel

Reporting period: January – March 2021 & April – June 2021

- A settlement was reached in a lawsuit filed by TFHC, The Ability Center, and resident Jenny Tillman against the builders and developers of Brooklynn Park senior housing community, alleging discrimination against persons with disabilities for failing to comply with federal regulations for housing accessibility. The agreement requires defendants to pay \$400,000 in damages and provide remediations to properties at no cost to residents. The case was covered by the local media and helped to raise awareness of the fair housing accessibility requirements that apply to design and construction.

Update from The Ability Center:

- 3/10/2021 Ohio Housing Policy Panel
- Tenant Protection Initiatives
- 4/7/2021: housing review for accessibility
- 4/2021: meeting with DON to discuss housing accessibility
- 4/2021: COT 10-year housing plan
- 5/2021: OSILC Housing Workgroup meeting
- 5/2021: housing accessibility review

Reporting period: July - September 2021 & October - December 2021

Update from TFHC:

- TFHC has a representative that serves on the Toledo Lucas County Commission on Disabilities and Community Advocates for Transportation Rights (CATR).

Reporting period: January 2023 through June 2023

- No further updates at this time. The work described above is ongoing.

Reporting period: July 2023 through December 2023

- No further updates at this time. The work described above is ongoing.

Reporting period: January 2024 through June 2024

- No further updates at this time. The work described above is ongoing.

Final Report

No further updates.

Fair Housing Issue: Accessibility for persons with disabilities

Goal: Encourage developers to increase accessibility

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Review current advocacy efforts	Consult with Ability Center	Ability Center	TFHC may engage in discussion as well	First half of FY 2020
Develop schedule for next steps in evaluation	Consult with Ability Center in this schedule	Ability Center		Second half of FY 2020
Draft legislation or other policy	Completed in consultation with Ability Center	Ability Center		Second half of FY 2020
Set timeframe for implementation of legislation or policy	Completed in consultation with Ability Center	Ability Center		First quarter of 2021

Discussion:

Reporting period: July – September 2020 & October – December 2020

Update from TFHC:

- TFHC has a representative that serves on the Toledo Lucas County Commission on Disabilities and Community Advocates for Transportation Rights (CATR).
- TFHC recently achieved a victory in the Federal Court for the Northern District of Ohio. On Summary Judgment, the Court found that the front entrances of a certain housing development must be made accessible even where the defendant alleged that another entrance, such as a garage, may be accessible. The authority extending from this case may be helpful for future enforcement efforts to assist persons with disabilities.

Update from The Ability Center:

- Ability Center convened the Universal Design Coalition, which put together a list of desired single-family housing accessibility features.
- The Universal Design Coalition made contact with an architect who will give a free consultation to single-family developers on how to adapt their plans in order

to offer an accessible/ visitable plan to potential customers.

- The Ability Center monitored reports from the City of Toledo and gave input into the plans of four different multi-family housing developments.
- 8/25/2020: Housing Equity Roundtable
- 9/2/2020: Ohio Housing Policy Panel
- 9/29/2020: Housing Equity Policy Group
- 10/15/2020: COT 10-year Housing Action Plan
- 12/16/2020: DD Council Housing Policy Panel

Reporting period: January – March 2021 & April – June 2021

- A settlement was reached in a lawsuit filed by TFHC, The Ability Center, and resident Jenny Tillman against the builders and developers of Brooklynn Park senior housing community, alleging discrimination against persons with disabilities for failing to comply with federal regulations for housing accessibility. The agreement requires defendants to pay \$400,000 in damages and provide remediations to properties at no cost to residents. The case was covered by the local media and helped to raise awareness of the fair housing accessibility requirements that apply to design and construction.
- Community partners and several City Council representatives have been meeting regularly to discuss policies and legislation that will improve housing stability for tenants by expanding access to safe, affordable, quality housing. Discussion has included consideration of an ordinance that would increase the required number of accessible units for any newly constructed federally subsidized housing developments.
- TFHC participates on The Ability Center's Universal Design Coalition.

Update from The Ability Center:

- 3/10/2021 Ohio Housing Policy Panel
- Tenant Protection Initiatives
- 4/7/2021: housing review for accessibility
- 4/2021: meeting with DON to discuss housing accessibility

-
- 4/2021: COT 10-year housing plan
 - 5/2021: OSILC Housing Workgroup meeting
 - 5/2021: housing accessibility review

Reporting period: July – September 2021 & October – December 2021

Update from TFHC:

- TFHC has a representative that serves on the Toledo Lucas County Commission on Disabilities and Community Advocates for Transportation Rights (CATR).
- TFHC participates on The Ability Center's Universal Design Coalition.

Reporting period: December 2021 through January 2023

- TFHC reached a settlement agreement in a case filed against an entity called Clover Group that owns and manages properties across the county including Northwest Ohio. The lawsuit was based on a failure to comply with accessibility requirements. The lawsuit requires the defendant to implement changes to improve accessibility at the housing projects.
- TFHC continues to support the Ability Center's work as described above.

Reporting period: January 2023 through June 2023

- The Fair Housing Center and the Ability Center continue to partner in the work described above.

Reporting period: July 2023 through December 2023

- The Fair Housing Center and the Ability Center continue to partner in the work described above. The Fair Housing Center is assisting with the Ability Center's Universal Design Coalition, attending meetings, etc.
- The Fair Housing Center also recently filed an important fair housing design and construction case with the Ohio Civil Right Commission against a development completed in 2022.

Reporting period: January 2024 through June 2024

- No further updates at this time. The work described above is ongoing.

Final report

The Ability Center has not proceeded with its prior plan to encourage developers with a "Universal Design Coalition" and are focusing on other priorities. Without this key partner, it is unlikely that this goal will progress as previously expected. The new 2025-2030 AI aims to address these issues in different ways.

Fair Housing Issue: Source of income discrimination and voucher mobility

Goal: Enact local source of income discrimination protections

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Review status of local ordinance with Council	City to conduct this review		TFHC will attend initial meetings as needed	First half of FY 2020
Determine barriers to implementation of legislation	City to complete this review with Council	Possibly LMHA	TFHC can assist in discussions	Second half of FY 2020
Develop plan to address barriers if needed with clear timeframe for progress	City in consultation with others	LMHA	TFHC to assist	Second half of FY 2020
Complete vote to approve legislation	City Council			First quarter of 2021
Complete hearings and final council vote on the issue	City Council		TFHC to provide support	First quarter of 2022

Discussion:

Reporting period: July – September 2020 & October – December 2020

An ordinance prohibiting discrimination based on source of income—initially introduced to Toledo City Council in 2018 but not acted upon—was reintroduced in the fall of 2020. The legislation updates the City of Toledo's already existing anti-discrimination ordinance to include source of income as an additional protected class, effectively requiring housing providers to accept all legal, reliable sources of income including disability and military benefits, Social Security, and Housing Choice Vouchers (HCV). Public hearings were held by City Council, including a Neighborhoods Committee meeting and a Committee of the Whole meeting, which featured presentations from several community partners and allowed for public input. The legislation received support from organizations including TFHC, LMH, The Ability Center, ABLE, TLCHB, MHR SB, UPSE, and United Way of Greater Toledo. Many landlords and property owners expressed opposition to the ordinance, citing a reluctance to accept vouchers and participate in the HCV program. Legislation passed in December 2020 and goes into effect 120 days after passage. Partners including TFHC and LMH are developing an educational campaign to inform housing providers about the ordinance, in an effort to address FAQs, help housing providers become more familiar with the HCV program, and encourage compliance. Plans include distributing informational documents and hosting an online training session.

Reporting period: January – March 2021 & April – June 2021

- TFHC and LMH collaborated to conduct a virtual informational session in March 2021 via Zoom and Facebook Live. Geared towards housing providers, the session provided an overview of the requirements of the SOI anti-discrimination ordinance and the housing choice voucher program, addressed common concerns, and answered questions from attendees. TFHC and LMH also developed educational materials for distribution to the community. In addition, TFHC incorporated information about SOI into its training curriculum that is utilized on an ongoing basis to educate housing providers and community members about fair housing rights and responsibilities.
- TFHC is accepting complaints and compiling relevant data related to instances of SOI discrimination.
- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement of SOI and other local civil rights protections. To assist in this effort, TFHC is conducting research to determine what methods other cities are employing to enforce local anti-discrimination ordinances.

Reporting period: July - September 2021 & October - December 2021

- TFHC regularly investigates allegations of discrimination based on source of income.
- TFHC assists housing providers in complying with SOI protections by conducting trainings, distributing educational materials, and providing guidance on policies and practices.

-
- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement of SOI and other local civil rights protections.

Reporting period: December 2021 through January 2023

- The overall status of local SOI protections has not changed. However, the City of Toledo has created a new position, Landlord-Tenant Services Coordinator. One of the purposes of this position is to ensure enforcement of the local SOI discrimination law. The Fair Housing Center has been coordinating with the City and provide information and support as needed.

Reporting period: January 2023 through June 2023

- The City of Toledo has recently discussed with TFHC plans to implement enforcement of the local SOI discrimination law. The City also convened meetings with local stakeholders on these issues. TFHC looks forward to seeing enforcement and to continued collaboration with the City to implement the local SOI discrimination law.

Reporting period: July 2023 through December 2023

- The Fair Housing Center continues the discussion with the City as described above. TFHC may draft a potential update to local laws to further this work. This could be modeled on the enforcement systems used in Dayton, Ohio as an example.

Reporting period: January 2024 through June 2024

- The City plans to implement funding for source of income testing to be conducted by The Fair Housing Center. This funding will help The Fair Housing Center test for discrimination based on source of income, a major next step for implementation of this local law.

Final Report

As an important update, the City has provided The Center with a grant to perform fair housing testing to specifically identify source of income discrimination. With this funding, The Center has already provided one report identifying source of income discrimination trends.

Fair Housing Issue: Source of income discrimination and voucher mobility

Goal: Increase voucher mobility

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Discuss voucher mobility improvements and what support the PHA may need	City to offer support and convene discussions as appropriate to review issues	LMH	TFHC will attend discussions	First half of FY 2020
Develop schedule for next steps in evaluation	In consultation with LMHA, determine if SAFMR is feasible or if other mobility improvements are possible	LMH	TFHC to provide technical support if needed	Second half of FY 2020
Implement strategies	Providing support as needed	LMH	TFHC to provide support if possible	Second half of 2021

Discussion:

Reporting period: July – September 2020 & October – December 2020

An ordinance prohibiting discrimination based on source of income—initially introduced to Toledo City Council in 2018 but not acted upon—was reintroduced in the fall of 2020. The legislation updates the City of Toledo's already existing anti-discrimination ordinance to include source of income as an additional protected class, effectively requiring housing providers to accept all legal, reliable sources of income including disability and military benefits, Social Security, and Housing Choice Vouchers (HCV). Public hearings were held by City Council, including a Neighborhoods Committee meeting and a Committee of the Whole meeting, which featured presentations from several community partners and allowed for public input. The legislation received support from organizations including TFHC, LMH, The Ability Center, ABLE, TLCHB, MHR SB, UPSE, and United Way of Greater Toledo. Many landlords and property owners expressed opposition to the ordinance, citing a reluctance to accept vouchers and participate in the HCV program. Legislation passed in December 2020 and goes into effect 120 days after passage. Partners including TFHC and LMH are developing an educational campaign to inform housing providers about the ordinance, in an effort to address FAQs, help housing providers become more familiar with the HCV program,

and encourage compliance. Plans include distributing informational documents and hosting an online training session.

Reporting period: January – March 2021 & April – June 2021

- TFHC and LMH collaborated to conduct a virtual informational session in March 2021 via Zoom and Facebook Live. Geared towards housing providers, the session provided an overview of the requirements of the SOI anti-discrimination ordinance and the housing choice voucher program, addressed common concerns, and answered questions from attendees. TFHC and LMH also developed educational materials for distribution to the community. In addition, TFHC incorporated information about SOI into its training curriculum that is utilized on an ongoing basis to educate housing providers and community members about fair housing rights and responsibilities.
- TFHC is accepting complaints and compiling relevant data related to instances of SOI discrimination.
- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement of SOI and other local civil rights protections. To assist in this effort, TFHC is conducting research to determine what methods other cities are employing to enforce local anti-discrimination ordinances.

Reporting period: July - September 2021 & October - December 2021

- TFHC regularly investigates allegations of discrimination based on source of income.
- TFHC assists housing providers in complying with SOI protections by conducting trainings, distributing educational materials, and providing guidance on policies and practices.
- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement of SOI and other local civil rights protections.

Reporting period: December 2021 through January 2023

- Enforcement of the local SOI protections, as described above, will likely help with voucher utilization and mobility. Developments with SOI protections are relevant to this action plan items as well.
- LMH recently reported that it is implementing a limited SAFMR to increase flexibility of voucher payment standards to improve access to other neighborhood areas.

Reporting period: January 2023 through June 2023

- No additional updates at this time. The work described above is ongoing.

Reporting period: July 2023 through December 2023

- No additional updates at this time. The work described above is ongoing.

Reporting period: January 2024 through June 2024

- No additional updates at this time. The work described above is ongoing.

Final report

The Fair Housing Center has scheduled a meeting with LMH to discuss issues they have seen with recent calls from LMH voucher holders. They report that they are facing difficulties with communicating with LMH staff especially during the moving process or when a move may be necessary due to housing conditions issues.

Goal: Enforce Fair Housing protections

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
TFHC to enforce Fair Housing Act	City to provide assistance and resources as appropriate to support enforcement work		TFHC will implement its enforcement work through direct client representation and in other matters	Ongoing

By issue:

0	HOA
69	Rental
1	Sales

- Total number of persons impacted from successfully resolved cases: 6,866 persons

Reporting period: January 2024 through June 2024

The work described above is ongoing with very similar numbers as those provided in the previous report. The reporting period for our HUD private enforcement initiative grant will close soon, and in the next regular FHAP report, The Fair Housing Center will provide updated numbers.

Final Report

The Fair Housing Center continues to report its cases including the rate of different forms of discrimination to the City, HUD, and the National Fair Housing Alliance. The statistics provided above show ongoing trends that remain fairly consistent over time, with the most recent trends provide din the 2025-2030 AI.

Fair Housing Issue: Increase awareness of fair housing rights and responsibilities

Goal: Engage in education and outreach activities

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Conduct fair housing trainings and presentations	Department of Neighborhoods will distribute information to CDBG partners as appropriate	Northwest Ohio REALTORS® (NOR), Property Investors Network (PIN), Real Estate Investors Association (REIA)	TFHC will coordinate and manage	Ongoing, reported quarterly
Distribute fair housing educational materials	Department of Neighborhoods will distribute information to CDBG partners as appropriate	Northwest Ohio REALTORS® (NOR), Property Investors Network (PIN), Real Estate Investors Association (REIA)	TFHC will coordinate and manage	Ongoing, reported quarterly
Place advertisements and seek media coverage of fair housing issues		Local media outlets, including print, television, radio, and digital	TFHC will coordinate and manage	Ongoing, reported quarterly
Participate in outreach events			TFHC will coordinate	Ongoing, reported quarterly

			and manage	
Post fair housing information on website and social media	Mayor's office will share content as appropriate		TFHC will coordinate and manage	Ongoing, reported quarterly

Discussion:

Final Report

The Fair Housing Center continues to report its education and outreach activities to the City, HUD, and the National Fair Housing Alliance. The statistics provided above show ongoing trends that remain fairly consistent over time, with an increase in impressions in the most recent report.

Fair Housing Issue: Voucher Mobility

Goal: LMH should adopt the Poverty Race Research Action Council's recommendations to increase voucher mobility

Measurable objectives	City Department Responsible	Other Institutions	TFHC's role	Deadline
Landlord development	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH, Northwest Ohio REALTORS® (NOR), Property Investors Network (PIN), Real Estate Investors Association (REIA)	Advocacy for policies that support the HCV program, provide education to housing providers	Ongoing, reported quarterly
Target population outreach	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH	Advocacy for policies that support the HCV program, provide education to housing providers	Ongoing, reported quarterly
Pre-search counseling	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH	Connect clients to resources through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Housing search assistance	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH	Connect clients to resources through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Post-move support	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH	Connect clients to resources through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Explore Small Area Fair Market Rents (SAFMRs)	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LMH	Advocacy for policies that support the HCV program	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

No updates this reporting period.

Reporting period: January – March 2021 & April – June 2021

LMH has been working with the local Continuum of Care regarding the Emergency Voucher Program to make vouchers available to homeless or those in threat of homelessness. This is a new HUD initiative that LMH is developing and will be implementing until the vouchers are distributed within the next 18 months.

Reporting period: July - September 2021 & October - December 2021

Update from LMH: Emergency Voucher Program is still moving forward, more updates expected next quarter.

Reporting period: December 2021 through January 2023

- As mentioned above, LMH has implemented a small area FMR program, which is consistent with a PRRAC recommendation.

Reporting period: January 2023 through June 2023

- No further updates at this time. The work described above is ongoing.

Reporting period: July 2023 through December 2023

- See notes further above that LMH has changed its criminal history screening policies related to vouchers and had adopted SAFMR standards.

Reporting period: January 2024 through June 2024

- No additional updates at this time. See notes above.

Final Report

TFHC and LMH plan to meet soon to review trends TFHC has seen in callers with issues in communications with LMH.

Fair Housing Issue: Land Use and Zoning

Goal: Change policies to welcome the development of affordable, group, permanent supportive, and recovery housing

Measurable objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Review current policies and recommend changes	Plan Commission	MHR SB	Provide input on policy revisions	First half of FY 2020
Present proposed changes for approval	Plan Commission, City Council	MHR SB	Advocate for policy changes during public hearings	Second half of FY 2020
Consider neighborhood input on proposed projects that negatively impact historically disinvested areas	Plan Commission, City Council	MHR SB	Advocate for policy changes during public hearings	Ongoing, reported quarterly
Grant reasonable accommodations when applicable	Plan Commission, City Council	MHR SB	Advocacy and support for persons requesting accommodations	Ongoing, reported quarterly
Educate the public about the City's reasonable accommodation policy	Plan Commission, Department of Neighborhoods	Ability Center	Educate tenants and landlords	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

- Community partners including TFHC, ABLE, MHRSB, and The Ability Center have repeatedly submitted testimony and comments to the Plan Commission and City Council regarding the City's zoning regulations, expressing concerns that the regulations are overly restrictive as it pertains to housing for persons with disabilities. These organizations have also provided letters and comments of support for several specific supportive housing projects that have come before the Plan Commission and City Council for approval. These proposed projects have often faced NIMBYism from neighbors who express opposition on the basis of unfounded fears and stigmas about the residents.
- This group of community partners has also been conducting research and discussing amendments to the City of Toledo's zoning code to bring it more in alignment with fair housing and ADA guidelines. An ordinance has been drafted which removes outdated and offensive language, redefines group living categories, eliminates unnecessary permitting restrictions, and establishes an exception for Reasonable Accommodations. The ordinance will be proposed to City Council/Plan Commission for input and approval.

Reporting period: January – March 2021 & April – June 2021

- Community partners and the Plan Commission have held several meetings to discuss and make revisions to the group living ordinance described above. The legislation is currently under review by the City of Toledo law department.
- Community partners and several City Council representatives have been meeting regularly to discuss policies and legislation that will improve housing stability for tenants by expanding access to safe, affordable, quality housing. Discussion has included consideration of an ordinance that would increase the required number of accessible units for any newly constructed federally subsidized housing developments.

Reporting period: July - September 2021 & October - December 2021

In October 2021, Toledo City Council approved Warren Commons, a proposed 46-unit permanent supportive housing project to provide safe, stable housing options for individuals who are experiencing homelessness, returning from incarceration, in recovery, or diagnosed with mental health conditions. The project will support residents by connecting them to local services and resources including education, employment, and health care. The \$11 million development is a partnership of TASC of Northwest Ohio and Community Housing Network. The project received competitive low-income

housing tax credits from the Ohio Housing Finance Agency to help fund its construction. Tenants will receive housing-choice vouchers through Lucas Metropolitan Housing to cover their rent. The proposal received support from many local organizations including TFHC, MHR SB, and TLCHB but many neighbors expressed opposition.

Reporting period: December 2021 through January 2023

- Changes to the zoning code to better welcome group homes are still needed. The City has proposed legislation before it to accomplish this goal, but the legislation is presently pending in committee.
- Proposals for affordable housing continue to arise, and the City has been more successful than not in welcoming these developments. However, the developments continue to experience opposition and the rate of the development new affordable units is not sufficient considering the significant need for affordable housing in the Toledo area.

Reporting period: January 2023 through June 2023

- The legislation necessary to update the zoning code is still pending before City Council. TFHC continues to ask the City to please move forward with the necessary changes to the law as soon as possible.

Reporting period: July 2023 through December 2023

- Unfortunately, the legislation necessary to update the zoning code is still pending before City Council. TFHC continues to ask the City to please move forward with the necessary changes to the law as soon as possible.
- Recently the City with other partners applied for a grant that requests funding for assistance in redeveloping the zoning code to better encourage the development of housing in the area. The Center submitted a letter of support for this application that also indicates the need for this work.

Reporting period: January 2024 through June 2024

- The Fair Housing Center is currently undertaking work necessary to create a new Analysis of Impediments to Fair Housing Choice. In that report, The Center will highlight the need for this change to the local zoning code, as described above.

Final Report

Most recently the Director of Toledo's Plan Commission indicated a willingness to reengage discussions over changing rules for zoning related to group homes. The Center hopes to return to these discussions and make changes to the group home zoning rules.

Fair Housing Issue: LGBTQIA+

Goal: Adopt changes to policies and practices to ensure adequate protections for LGBTQIA+ individuals

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Establish an effective enforcement process to address complaints	City Council	Equality Toledo	Provide input on policy changes	Second half of FY 2020
Present proposed changes for approval	City Council	Equality Toledo	Advocate for policy changes during public hearings	Second half of FY 2020
Utilize enforcement process to address complaints	City administration	Equality Toledo	Advocacy and support for victims of discrimination	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

No updates this reporting period.

Reporting period: January – March 2021 & April – June 2021

- In February 2021, HUD issued a memo stating that it will begin accepting complaints of housing discrimination based on sexual orientation and gender identity. Based on the Supreme Court decision *Bostock v Clayton County* and the corresponding Executive Order from President Biden, HUD concluded that the Fair Housing Act's recognition of sex as a protected class should be extended to include sexual orientation and gender identity, which means the Fair Housing Act can be enforced to prohibit sexual orientation and gender identity discrimination.
- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement local civil rights protections such as sexual orientation and gender identity.

Reporting period: July - September 2021 & October - December 2021

- TFHC continues to advocate for the City to implement an administrative complaint process to ensure effective enforcement local civil rights protections such as sexual orientation and gender identity.

Reporting period: December 2021 through January 2023

- As mentioned above, the created a new Landlord-Tenant Services manager position. This position has, as one of its duties, the role of ensuring that local civil rights protections are enforced. This includes the local protections to prohibit sexual orientation and gender identity.

Reporting period: January 2023 through June 2023

- As described above, the City is working on ways to enforce the SOI laws under its local anti-discrimination law. This will likely have an added positive impact for enforcement of local anti-discrimination laws related to sexual orientation and gender identity. Once enforcement processes are established, this could positively impact these protected classes as well.

Reporting period: July 2023 through December 2023

- See prior description. The Fair Housing Center is working with the City to advocate for the development of additional processes to pursue discrimination cases through local laws which would benefit the LGBTQ+ community as well.

Reporting period: January 2024 through June 2024

- See prior description. No additional information on this yet, though with the implementation of funding for SOI testing, it is likely that we will see local progress on creation of a system for enforcement as described above.

Fair Housing Issue: Homelessness and Affordable Housing

Goal: Coordinate with private and government partners to create affordable housing and advance No Barriers Housing

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Identify incentives to encourage affordable housing development	City administration, Department of Neighborhoods	LISC, LMHA	Advocacy for projects that support local housing needs	Ongoing, reported quarterly
Direct discretionary funds toward affordable housing	Department of Neighborhoods, City Council		Advocacy for projects that support local housing needs	Ongoing, reported quarterly
Provide administrative support for the "No Barriers Housing" initiative	Department of Neighborhoods, City administration	TLCHB, MHR SB, LMH, Lucas County Commissioners	Participate in committee meetings	Ongoing, reported quarterly
Provide financial support for the "No Barriers Housing" initiative	Department of Neighborhoods, City Council	TLCHB, MHR SB, LMH, Lucas County Commissioners	Advocacy for funding that supports local housing needs	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

No updates this reporting period.

Reporting period: January – March 2021 & April – June 2021

- City of Toledo is supporting and funding a collaborative effort between Toledo Public Schools, Toledo Lucas County Homelessness Board, and Lutheran Social

Services to provide rental assistance and supportive services for 12 months to 75 TPS families at risk or experiencing homelessness.

- City of Toledo is supporting and partially funding the development and implementation of TLCHB's Housing Problem Solving Pilot Program, which is a person-centered approach that will enhance the Continuum of Care's prevention, diversion, and rapid resolution activities.
- No Barriers Housing initiative is currently working with Continuum of Care providers to implement the HUD Housing First Standards Assessment Tool, which will allow for monitoring to ensure system-wide fidelity to housing first principles.
- TLCHB has established a Landlord Risk Mitigation Fund to support the No Barriers Housing initiative through landlord engagement and incentives.

Reporting period: July - September 2021 & October - December 2021

No updates this reporting period.

Reporting period: December 2021 through January 2023

- No further updates for this reporting period. The developments described above are still underway.

Reporting period: January 2023 through June 2023

- The TLCHB recently proposed a reorganization of the local continuum of care. TFHC's CEO has applied to serve on a newly created board to help facilitate this process.

Reporting period: July 2023 through December 2023

- TLCHB has implemented a newly reorganized continuum of care. The Fair Housing Center, through its CEO, is a member of the executive committee of the new COC.

Reporting period: January 2024 through June 2024

- No further updates at this time.

Final report

No further updates, as TLCHB has made significant progress in this effort.

Fair Housing Issue: Housing Conditions

Goal: Change policies and practices to ensure access to housing that is safe, healthy, and habitable

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Enforce housing code violations	Department of Neighborhoods	Housing Court	Connect clients to resources through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Secure staff and resources needed to implement the lead ordinance	City administration, Department of Neighborhoods	TLPPC, Health Department	Advocacy for effective implementation	First half of FY 2020
Effective enforcement of the lead ordinance	City administration, Department of Neighborhoods	TLPPC, Health Department	Education and outreach to tenants and housing providers	Ongoing, reported quarterly
Eliminate barriers to accessing grant funding for home rehab/repairs	Department of Neighborhoods		Advocacy for policy changes that improve access to housing assistance	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

Update from the Toledo Lead Poisoning Prevention Coalition (TLPPC): TLPPC has been holding regular meetings with the City's Lead Safe Coordinator to help ensure the successful enforcement and implementation of the Lead Ordinance. They are working on forming committees to focus on efforts including education and outreach and workforce development.

Update from Stephanie Beebe, who began position as Lead Safe Coordinator for the City of Toledo on Sept. 1, 2020:

-
- Developed lead-safe marketing campaign with Will Lucas of Creadio to be implemented through 2021. Coordinated meetings between Will and multiple community stakeholders, including TLPPC. Implementation plan completed in Jan 2021, to be presented to TLPPC Feb 16, 2021.
 - Launched Toledo Lead Safe Website (www.ToledoLeadSafe.com) Oct 2020 for Lead Poisoning Prevention Week. Ongoing content development and added features throughout 2021.
 - Created processes with Health Department for lead-safe certification and local inspector registration. Paper applications for lead-safe certificates launched November 2020, with local inspector applications launching January 2021. As of now, fully online versions for these applications are in process with an expected launch of March 2021.
 - Coordinated back-end process of lead-safe certification tracking for eventual enforcement via Dept of Neighborhoods Code Enforcement in CityWorks management system. This was finalized and launched in January 2021, with grandfathered lead-safe certificates now being entered and processed.
 - Created and launched Workforce Development group in partnership Ohio Means Jobs, local inspectors, small business program administrators, and Toledo Rotary. Launched private training for inspectors in coordination with Lead Experts in February 2021. More trainers to follow in coming months as we also roll-out programs to help support inspectors and contractors doing lead work.
 - Established and launched Owner Advisory group to open communication between owners, the City, and the Coalition to discuss concerns, new programs, and work together for successful ordinance implementation.
 - Developed and submitted for multiple grant opportunities to support lead-safe programming in Toledo. Such as the Early Bird Match Grant from the Dept of Neighborhoods to be launched February 2021 to encourage property owners to comply with lead ordinance early by incentivizing repairs and compliance inspections. Also received grant from Greater Toledo Community Foundation in January 2021 to support my position as Lead Safe Coordinator in coordinating this work through multiple agencies and refining processes to work together for better service delivery.
 - Gearing up for first enforcement date of the Lucas County Auditor's Rental Registry on June 30th, 2021. We have piggybacked on the Auditor's statutory requirement to have rental properties in Toledo registered by making that one of our lead-safe certification requirements. Code Enforcement will be able to enforce this registration administratively, but the public registry is still pending launch on the Auditor's AREIS website.

-
- Update from Stephanie Beebe, Lead Safe Coordinator for the City of Toledo:
 - Ongoing implementation of lead-safe marketing campaign with Will Lucas of Creadio. Presented implementation plan to TLPPC in Feb. 2021, and have since rolled out OdEds in print and coordinated multiple radio/print/web interviews. Currently in process of finalizing 3-part video “docu-series” for TV release, radio PSAs for landlords and tenants, and a \$10,000 billboard campaign focused around lead-safety and lead-ordinance awareness.
 - Continued development and expansion of Toledo Lead Safe Website (www.ToledoLeadSafe.com). New features include: online lead-safe certificate applications, early bird match grant applications, FAQs and “one-stop shop” resources for rental owners, occupants, and inspectors.
 - Streamlined process with Health Department for lead-safe ordinance. Paper and online applications available. **All grandfathered certificates** mailed in June 2020, and new certificates being processed now.
 - Back-end process to track lead-safe certification complete in CityWorks management system. Continued working with Dept of Neighborhoods Code Enforcement for eventual enforcement of program after June 30, 2022 initial phase-in. Currently working to enforce the Rental Registry portion with the Lucas County Auditor’s collaboration (more below on that).
 - Workforce Development Committee continuing to meet monthly. New Lead Workforce Development Training Program being drafted to provide subsidized training and licensure to local lead inspectors, abatement contractors/workers, and RRP trainees. Also planning to launch both virtual and in-person information meetings for inspectors at large.
 - Owner Advisory group continuing to meet monthly. Currently planning to launch both virtual and in-person informational meetings for rental owners at large.
 - Received \$1 mil grant from HUD in April 2021 for “Healthy Homes and Weatherization Cooperation Demonstration” to provide comprehensive and coordinated service delivery between Dept of Neighborhoods’ Lead Hazard Control program and NeighborWorks Toledo’s Weatherization Assistance program. These funds will go to fill gaps that the two individual programs may be unable to address and also streamline coordination between the two entities.
 - Launched Early Bird Match Grant in February 2021 to provide rental owners assistance with compliance costs under the lead ordinance.
 - Coordinated partnership for BP Husky Settlement grant with Toledo-Lucas County Health Department. This will provide an additional \$1.2 mil of funding to be braided with the Dept of Neighborhoods’ current Lead Hazard Control

grant program.

- Launched rental registry education and enforcement with help of Lucas County Auditor on June 30th, 2021. Working with Code Enforcement and the Auditor to develop best practice enforcement tools on how to partner as registering rental properties in Toledo is Step #1 to becoming lead-safe and assuring we have accurate data of rentals in our community.
- TLPPC formed the Community Engagement/Education Subcommittee to increase awareness and knowledge among community members regarding lead poisoning beginning with primary prevention for lead safe environments for children. Members include representatives from healthcare systems, educational systems, pediatricians/healthcare providers, school nurses, housing, parents of lead-affected children, city/county government and legal representation. Activities completed and in progress during this reporting period:
 - Formation of subcommittee with 14 members
 - Regular email communications with subcommittee members assessing progress of work, questions, and concerns
 - Development of brochures and handouts for health professionals
 - Flyer created for parents/guardians by Lucas County Family Council including resources regarding screening young children and lead safe housing
 - Meetings scheduled with school nurse and advisory board of Escuela Smart TPS bilingual elementary school to initiate blood lead level screenings for children K to 8th grade and educational sessions for parents/guardians
 - Training meeting, 2 hours per Zoom, provided June 16, 2021 by Dr. Marilynne Wood for Health Connections Advisory Group
 - Discussions with ProMedica Health, Paramount and St. Vincent Mercy Health System regarding work of the TLPPC and coordination of community blood lead level screenings and lead poisoning prevention education for families
- The Lucas County Land Bank and the City hired a consultant to assess Toledo's code enforcement needs and recommend how the city can more effectively and equitably address nuisance properties and code violations. Findings were presented to City Council in March 2021. Recommendations included:
 - The City should move away from being reactive and relying on housing court to instead encourage voluntary compliance.
 - The City should form a neighborhood conditions working group so multiple interested parties can share information about problem properties, prioritize issues, and work together to bring a resolution.

-
- The City should offer home repair grant and loan programs to offset the financial burden of compliance for property owners.

Reporting period: July - September 2021 & October - December 2021

Update from Stephanie Beebe, Lead Safe Coordinator for the City of Toledo:

- **LEAD COMMUNICATIONS PLAN DEVELOPMENT AND IMPLEMENTATION:** Continued development and implementation. Approved \$160,000 budget for 2022 ad spend and content creation. Billboard, radio, video, and social media campaigns being quoted and booked. Additional add of Children's Board Book distribution through childhood and healthcare partners. Completed filming of video docu-series and released parts 1, with parts 2 and 3 to release Q1 2022.
- **ONGOING WEBSITE UPDATES:** ToledoLeadSafe.com continues to be developed as new information rolls out. Recent additions include News page, Residents page, complete FAQ overhaul, and video trailer inclusion.
- **ONGOING ORDINANCE PROCESSING:** Working with code enforcement and health department to continue to process and streamline new applications, reminder letters, and fines/penalties as applicable to the lead-safe and rental registry ordinances. Approximately 23,000 letters being sent in Q1 2022 to rental owners to remind them of compliance requirements. To date, approximately 1,900 Lead-Safe Certifications and 19,000 Rental Registrations active in Toledo.
- **HIRING PERSONNEL:** Posted job opening for Lead Enforcement Specialist to work with Lead Safe Coordinator and Code Enforcement to handle program administration and fines/penalty processing.
- **WORKFORCE DEVELOPMENT:** Lead training program approved \$234,460 budget to train and license lead inspectors, lead abatement workers, and Renovation, Repair, and Painting (RRP) certified individuals to support lead work and ordinance. Over 300 students will be trained through this entire program. Schedule and details to be launched. Enrollment through community referral basis only. Attempting to develop additional building trades pipeline with Cherry St Mission, Goodwill, Northwest College, Owens, and others at monthly roundtable discussion.
- **GRANT/LOAN PROGRAMS IMPLEMENTATION:** HUD Lead Hazard Abatement and BP Husky grants continue to be administered through Department of Neighborhoods. Beginning application process for Toledo Healthy Homes and Weatherization Cooperation Demonstration (THHWCD) grant in partnership with NeighborWorks—finalized all healthcare partner trainings and opened to referrals. Concluded Toledo Community Foundation grant for lead-safe coordinator staffing role.
- **OUTREACH:** Ongoing outreach, communication, and partnership building with Toledo Lead Poisoning Prevention Coalition, Owner Advisory Group, Lucas Metropolitan Housing, Lucas County Land Bank, Mercy, ProMedica, other healthcare and pediatricians, TPS, early childhood education resources, Help Me

Grow, Ohio Department of Health, Governor's Lead Advisory Council, Ohio Healthy Homes Network, NeighborWorks, Historic South Initiative, Maumee Valley Habitat, etc.

Reporting period: December 2021 through January 2023

- The same attorney who previously represented landlords in filing a lawsuit to stop the enforcement of the local lead poisoning prevention law has again filed suit representing another landlord to stop the law. In response, the City proposed to change some aspects of the law. These changes made the law stronger in some respects.
- The lawsuit continues but has not, as of yet, stopped the ultimate goal of enforcing the local lead law. Presently, the law is scheduled to begin enforcement in March, 2023. The Fair Housing Center with many other community groups continues to monitor enforcement of the law.

Reporting period: January 2023 through June 2023

- The City was recently successful in the lawsuit described above in that a temporary restraining order was lifted, allowing the City to enforce the local lead poisoning prevention law. TFHC and others hope the City will promptly move forward with enforcement of the local law.

Reporting period: July 2023 through December 2023

- As an additional update, The Fair Housing Center has successfully developed a new program where it provides assistance to tenants facing housing conditions issues. The program has met tremendous demand from tenants and significant success. The program is currently seeking additional funding to sustain its success and potentially expand.

Reporting period: January 2024 through June 2024

- The City will provide The Fair Housing Center with funding to act as a fiscal agent for a new entity to be created that will be a "Lead Resource Center" that provides significant services and supports for local residents to prevent lead poisoning. This will include lead screenings and work necessary to abate lead hazards.

Final Report

The Center has helped successfully create a new Lead Resource Center thanks to support from the City and the leadership of the Toledo Lead Poisoning Prevention Coalition. This, along with significant steps by the City to begin enforcement of the local lead poisoning prevention law show excellent progress in addressing this barrier. The Fair Housing Center has also continued to successfully implement its housing conditions and neighborhood reinvestment program.

Fair Housing Issue: Public Transportation

Goal: Lead efforts to adopt and expand county-wide transportation system

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Outreach to suburban jurisdictions to encourage participation	City Council, City administration	TARTA, Lucas County Commissioners, Chamber of Commerce, CATR, Ability Center	Advocacy for expansion of transportation	Ongoing, reported quarterly
Support sales tax ballot initiative to increase funding and expand TARTA services	City Council, City administration	TARTA, Lucas County Commissioners, Chamber of Commerce, CATR, Ability Center	Advocacy for expansion of transportation	Ongoing, reported quarterly
Offer alternative transportation options	City administration	TARTA, Lucas County Commissioners, Chamber of Commerce, CATR, Ability Center	Advocacy for expansion of transportation	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

CATR worked to create a group of interested Sylvania Township residents to encourage the trustees to support the sales tax initiative in Nov. 2020. Although Sylvania Township did pass the resolution, it was Maumee who voted it down in 2020, preventing it from going on the ballot in November. CATR has discussed and plans to reach out to legislators in Maumee to educate them and advocate for county wide public transit for the next or a future election.

Reporting period: January – March 2021 & April – June 2021

The Ohio transportation budget signed in March 2021 included a provision to reduce the requirement from unanimous to majority approval of current member jurisdictions to admit Lucas County as a new member. This advanced efforts to expand TARTA's service county-wide, as previous efforts failed due to the rejection of the measure by just one of the seven current member jurisdictions.

TARTA sought approval from its seven member jurisdictions and received approval from six (all except Maumee), meeting the majority requirement. TARTA's board then voted to officially admit Lucas County as a new member and place the sales tax measure on the November ballot.

The ballot measure will convert TARTA's funding source from property tax to sales tax and increase Lucas County sales tax by 0.5%. If approved by Lucas County voters, the measure would increase TARTA's revenue to enable the expansion of services to the entire county and ensure broader access to public transportation throughout the region.

Reporting period: July - September 2021 & October - December 2021

- In November 2021, voters approved a ballot measure to switch TARTA's funding source from property tax to sales tax and increase Lucas County sales tax, thereby generating additional revenue to support the expansion of TARTA's services.
- Launch of TARTA Next project, a comprehensive operations analysis that will take a broad and detailed look at TARTA's network, with the goal of improving existing system and services. Goals include: redesigning bus services to match the way people travel in the Toledo area, making it easier and faster for more people to get to work, and creating more opportunities to use TARTA for different kinds of trips.

Reporting period: December 2021 through January 2023

- The effort to expand TARTA county-wide has been successful and TARTA is now funded by sales taxes to operate county-wide.
- An important question now, however, is whether TARTA will develop routes that best assist the low-income families that rely on public transportation the most, as well as county-wide paratransit to assist persons with disabilities.

Reporting period: January 2023 through June 2023

- TARTA is continuing to develop new routes. TFHC plans to monitor the development of these routes in the hopes of seeing them provide new opportunities for minority and low-income families and neighborhood areas.

Reporting period: July 2023 through December 2023

- TARTA is continuing to develop new routes. One new route, for example, now extends to Oregon, Ohio. TFHC plans to monitor the development of these routes in the hopes of seeing them provide new opportunities for minority and low-income families and neighborhood areas.

Reporting period: January 2024 through June 2024

- TARTA should also consider adopting policies for county-wide paratransit. This point may be highlighted further in the next FHAP current being written. Many residents otherwise report significant improvements to public transit.

Final Report

Transportation access continues to be a critical housing issue in the Toledo area. While much progress occurred in the 2020-2025 period, much remains to be seen, and this issue remains in the 2025-2030 AI.

Fair Housing Issue: Impediments in Rental Housing

Goal: Address the eviction crisis in Toledo

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Educate tenants and housing providers about rights and responsibilities	Department of Neighborhoods will distribute information to CDBG partners as appropriate	LAWO	Assist clients through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Provide emergency housing and financial assistance for those displaced due to eviction	City Council, Department of Neighborhoods	2-1-1, Pathway, Catholic Charities, Salvation Army, TLCHB, LMHA	Connect clients to community resources	Ongoing, reported quarterly
Increase legal representation for tenants in Housing Court		LAWO	Assist clients through the Landlord Tenant Mediation Program	Ongoing, reported quarterly
Stricter enforcement of housing code violations	Department of Neighborhoods	Housing Court	Assist clients through the Landlord Tenant Mediation Program	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

- As part of its new Landlord-Tenant Mediation program, TFHC conducted recurring Facebook live trainings to educate tenants and landlords on their rights and responsibilities.
- The City of Toledo and other agencies are currently providing emergency rental assistance and plan to continue these programs as funds are available. However, these programs must be improved and increased. Accessing the program can be difficult. Requirements for these programs that the City adds

locally and that HUD does not require must be removed. Wherever possible, the City should increase funds available.

- TFHC provided referrals and support to callers by connecting them to service providers offering rental assistance. When the federal government issued an eviction moratorium due to the COVID-19 pandemic, TFHC informed tenants about these protections and created a document to assist tenants in understanding and asserting their rights. TFHC also created and maintains a dedicated page on its website with information and links to housing-related resources during the pandemic.
- TFHC approached the Toledo Municipal Court to discuss increasing the filing fee to increase legal representation for tenants in Court and make other changes. These discussions are ongoing. The City of Toledo should support and advocate for increased representation in Court as well.
- TFHC has made a public records request to better understand the enforcement of the local housing code. Unfortunately, the City does not specifically track whether the person requesting code enforcement is a renter or a homeowner. We do know anecdotally, however, that renters often face significant challenges when attempting to complain about a housing code violation by their landlord. The City should track this data and work to be better responsive to tenant complaints about housing code violations.

Reporting period: January – March 2021 & April – June 2021

- The Fair Housing Center assisted the University of Toledo and ABLE in completing a study covering evictions and eviction trends in the Toledo, Ohio area. The study reviews more than 24,000 evictions in the Toledo area over a four-year period. It analyzes the harm of geographic location and impact of the evictions, as well as the relationship between race and other demographic information related to the evictions. The focus of the study was on the relationship of evictions and mental health disabilities and includes trends identified through interviews with mental health service providers serving persons with mental health disabilities. Now, this information can be used to guide policy advocacy including efforts to advance the goals of the Fair Housing Act as part of the City of Toledo's Analysis of Impediments to Fair Housing Choice. [Read more about the study.](#)
- Community partners and several City Council representatives have been meeting regularly to discuss policies and legislation that will improve housing stability for tenants by expanding access to safe, affordable, quality housing. An ordinance has been drafted and discussed to implement Right to Counsel, ensuring income-qualifying tenants have access to legal representation in Housing Court. A budget has also been developed by LAWO to determine the funding needed for attorneys and other resources to support the program. Right to Counsel has proven successful in other cities to help tenants better understand and assert their rights, thereby preventing unnecessary evictions. It's expected to be introduced to City Council in August.

-
- The recipient of federal COVID relief funding, the City of Toledo and Lucas County collaborated to launch a second round of emergency rental assistance, allocating \$11,507,996 for direct rental assistance to benefit income-eligible tenants in Toledo and Lucas County. The new program will assist low- to moderate-income households in the city and county with up to 12 months emergency rental assistance, which may include payment for current and future rent, past due rent, late fees, new renter fees, security deposits, and utility deposits and payments. Attempts were made to correct some of the barriers identified in previous rental assistance programs by removing unnecessary requirements, establishing a centralized intake process, and offering applications online. Financial assistance is a critical tool to help preserve housing stability for tenants and avoid eviction, displacement, and homelessness.

Reporting period: July - September 2021 & October - December 2021

- In September 2021, Toledo City Council approved a Right to Counsel ordinance, ensuring low-income tenants will have legal representation in eviction court. Services will be provided by LAWO.
- TFHC continues to operate its Pre-Litigation Landlord Tenant Mediation Program for residents of Lucas County, offering free, confidential mediation services to resolve rental disputes and prevent evictions.
- In December 2021, the City of Toledo and Lucas County announced the relaunch of its rental assistance program. An additional \$10 million is being made available to assist low to moderate-income households in the city and county with up to 18 months of rent, utility, and internet support. That may include payment for current and future rent, past due rent, late fees, new renter fees, security deposits, and utility deposits and payments.

Reporting period: December 2021 through January 2023

- The City has continued its efforts to better fund legal aid to represent more tenants in eviction actions.
- The City continues its work to provide rental assistance as well.

Reporting period: January 2023 through June 2023

- The City and TLCHB recently hosted an event to bring the community up to speed on the latest developments with eviction prevention. The Fair Housing Center participated and presented in the event.
- The Center has also recently developed a program where tenants receive assistance from an attorney at the Center with housing conditions cases. The program has been extremely successful, filling a significant gap in services locally.

Reporting period: July 2023 through December 2023

- The Fair Housing Center's new housing conditions program has been extremely successful and is seeking funding to sustain and expand the program.

Reporting period: January 2024 through June 2024

- No further updates at this time.

Final Report

The Fair Housing Center's housing conditions program was the most significant update regarding this issue over the last 5 years. This program has prevented countless evictions as it goes upstream before evictions are filed and prevents evictions from occurring in the first place.

Fair Housing Issue: Impediments in Rental Housing

Goal: Ensure access to reasonable accommodations and modifications to improve housing accessibility

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Educate tenants and housing providers about rights and responsibilities	Department of Neighborhoods will distribute information to CDBG partners as appropriate	Ability Center	Conduct trainings, distribute educational materials, place advertisements	Ongoing, reported quarterly
Enforce Fair Housing Act violations		Ability Center	Assist victims, conduct investigations, file complaints	Ongoing, reported quarterly
Provide funding for accessibility modifications	Department of Neighborhoods	Ability Center	Advocacy for funding that supports housing needs	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

Update from TFHC:

- Number of RA/RMs granted for persons with disabilities: 3 cases (5 persons)
- 17 out of 26 new cases (65%) were based on disability discrimination
- TFHC regularly conducts fair housing trainings for community groups and housing professionals, distributes educational materials, places advertisements in various media outlets, posts information on its website and social media, distributes quarterly newsletters, and has staff representatives serving on various community committees, boards, and coalitions. These activities help to raise awareness about housing rights for persons with disabilities.

Update from The Ability Center:

- The Ability Center operates a Home Accessibility Program where it provides ramps at no-cost to homeowners with disabilities.
- The Ability Center fielded 215 calls from individuals with disabilities who had housing issues.
- 8/25/2020: Housing Equity Roundtable
- 9/2/2020: Ohio Housing Policy Panel
- 9/29/2020: Housing Equity Policy Group
- 10/15/2020: COT 10-year Housing Action Plan
- 12/16/2020: DD Council Housing Policy Panel
- Ramps built:
 - 24 - grants & waiver
 - 8 – temp ramp program
 - 1 – hospice

Reporting period: January – March 2021 & April – June 2021

Update from TFHC:

- Number of RA/RMs granted for persons with disabilities: 7 cases (11 persons)
- 37 out of 65 new cases (57%) were based on disability discrimination
- TFHC regularly conducts fair housing trainings for community groups and housing professionals, distributes educational materials, places advertisements in various media outlets, posts information on its website and social media, distributes quarterly newsletters, and has staff representatives serving on various community committees, boards, and coalitions. These activities help to raise awareness about housing rights for persons with disabilities.

Update from The Ability Center:

- 3/10/2021 Ohio Housing Policy Panel
- Tenant Protection Initiatives

-
- 4/7/2021: housing review for accessibility
 - 4/2021: meeting with DON to discuss housing accessibility
 - 4/2021: COT 10-year housing plan
 - 5/2021: OSILC Housing Workgroup meeting
 - 5/2021: housing accessibility review
 - Ramps built:
 - 15 – grants & waiver
 - 9 – temp ramp program
 - 2 – hospice

Reporting period: July - September 2021 & October - December 2021

Update from TFHC:

- Number of RA/RMs granted for persons with disabilities: 24 cases (3,219 persons)
- 39 out of 57 new cases (68%) were based on disability discrimination
- TFHC regularly conducts fair housing trainings for community groups and housing professionals, distributes educational materials, places advertisements in various media outlets, posts information on its website and social media, distributes quarterly newsletters, and has staff representatives serving on various community committees, boards, and coalitions. These activities help to raise awareness about housing rights for persons with disabilities.
- TFHC conducted several trainings with a specific emphasis on reasonable accommodations and modifications to ensure accessibility for persons with disabilities. These sessions included a presentation to homeless service providers hosted by TLCHB and TAAEH, trainings for two local public housing authorities, a virtual training on Zoom/Facebook Live covering housing rights for people with disabilities, and a CLE training for attorneys conducted in collaboration with the Toledo Bar Association.

Update from The Ability Center:

- Ramps built:
 - 15 – grants and waiver
 - 6 – temp ramp program to help D/C safely
 - 2 – hospice installs

Reporting period: December 2021 through January 2023

- As with previous reporting periods and as demonstrated in the statistics provided above, disability continues to be the most common type of case that The Fair

Housing Center handles. This includes, primarily, reasonable accommodations cases.

- The Ability Center continues to provide its ramp program and its advocacy for persons with disabilities as described above.

Reporting period: January 2023 through June 2023

- No further updates at this time. The work described above is ongoing.

Reporting period: July 2023 through December 2023

- The work described above is ongoing.
- In addition, The Fair Housing Center has filed multiple reasonable accommodation cases in federal court.

Reporting period: January 2024 through June 2024

- The work described above is ongoing. No further updates at this time.

Final Report

This work was successful throughout the five year period of this Action Plan as described above.

Fair Housing Issue: Access to Water Services

Goal: Adopt policy and practice improvements through Water Affordability and Consumer Protection Committee

Measurable Objective	City Department Responsible	Other Institutions	TFHC's role	Deadline
Review and revise consumer policies and programs as needed	Department of Public Utilities, City administration, City Council	UPSE, Junction Coalition, Freshwater Future, Ohio Environmental Council	Participate in committee meetings and offer input	Ongoing, reported quarterly
Collect and analyze data related to water access and affordability	Department of Public Utilities, City administration, City Council	UPSE, Junction Coalition, Freshwater Future, Ohio Environmental Council	Participate in committee meetings and offer input	Ongoing, reported quarterly
Educate consumers about assistance programs	Department of Public Utilities, City administration, City Council	UPSE, Junction Coalition, Freshwater Future, Ohio Environmental Council	Connect clients to community resources	Ongoing, reported quarterly
Outreach to residents and neighborhood groups to seek input on water access and affordability	Department of Public Utilities, City administration, City Council	UPSE, Junction Coalition, Freshwater Future, Ohio Environmental Council	Advocacy for policies that support housing needs	Ongoing, reported quarterly

Discussion:

Reporting period: July – September 2020 & October – December 2020

-
- The Water Affordability and Consumer Protection Committee has been meeting monthly to discuss policies and legislation to improve water access and affordability for all residents. Representatives from City Council, DPU, TFHC, Ohio Environmental Council, Freshwater Future, Junction Coalition, UPSE, and neighborhood residents attend meetings. Data has been requested and provided by DPU to help members analyze water issues and identify who is being impacted. Committee members communicated the need for a water affordability study to better understand the scope of the community's needs and make appropriate recommendations for changes to the City's water policies. An RFP was developed and posted, and a contractor was selected to begin work. The committee also drafted an ordinance to establish a debt forgiveness program that would enable residents to eliminate past due balances and avoid water shutoffs. The ordinance is currently under review by the City's law dept.
 - City Council passed an ordinance in June 2020 to help protect tenants from water shut offs that occur when owners do not pay the water bill or request termination of water services. The new ordinance, drafted by TFHC, enables tenants to pay the water bill to avoid disconnection and gives them the right to deduct these costs from future rent payments. Further, it prohibits the Department of Public Utilities from terminating water service to occupied rental properties, which prevents owners from shutting off utilities as a form of "self-help eviction" to force tenants to leave. Water is essential for a home to be safe, healthy, and habitable, and this legislation will ensure tenants are not denied the right to this vital resource.

Reporting period: January – March 2021 & April – June 2021

- In May 2021, City Council approved the debt forgiveness program developed in partnership with the Water Affordability and Consumer Protection Committee. Residents that are low-income, elderly, or have disabilities may enroll beginning in August. By paying their current water bill monthly for a period of one to two years (depending on the amount of debt on the account), residents will receive credit that will eventually erase all past accumulated arrears. The goal of the program is to prevent water shutoffs by offering manageable monthly payments and forgiving debts that consumers do not have the ability to pay.
- TFHC drafted a water reselling ordinance that was introduced to City Council in July 2021. The legislation aims to clarify the City's current prohibition against reselling water, in order to prevent the abusive and confusing practices that often arise when landlords pass the cost of water onto tenants.

Reporting period: July - September 2021 & October - December 2021

-
- Because Ohio law requires that water service be set up in the landlord's name, complications arise when tenants are asked to pay for water but do not have access to the account. In an effort to combat the confusing and abusive practices that often arise when water costs are passed onto tenants, TFHC educated the community and City Councilpersons on the need for revisions to Toledo's local rules on water reselling. Approved by City Council in August 2021, the legislation restricts landlords from charging tenants separately for water unless they meet specific conditions. For rental properties with more than one unit, owners may not charge tenants separately for water unless they obtain permission through a contract with the Department of Public Utilities and meet sub-metering requirements for each unit. For single-family rental properties, owners may not charge tenants separately for water unless they set up a landlord-tenant agreement with the Department of Public Utilities, giving the tenant direct access to the water account.
 - TFHC created and distributed an educational document outlining Toledo's local regulations related to water access for rental properties.
 - Ohio Environmental Council hosted its annual law conference in November 2021, featuring an extensive discussion about efforts Toledo has made to address environmental justice issues and provide better access to clean water. The conference included a presentation from TFHC's VP and General Counsel George Thomas on the disparate impact of water shut-offs on low-income neighborhoods and communities of color.

Reporting period: December 2021 through January 2023

- The overall efforts to improve affordability as described above. The City has implemented a number of programs to help address affordability in the area.
- One important aspect of affordability is that landlords sometimes resell water to tenants, by charging the extra for water that the landlord pays for through their account with the City. The City has appropriate rules to prohibit this practice. However, the City must ensure enforcement of these rules and accurate communication with residents about the rules. The City should better communicate the rules and dedicate resources to enforcement of the rules against reselling.

Reporting period: January 2023 through June 2023

- The City recently publicly committed to try to find ways to enforce its local prohibition on reselling of water so that tenants can benefit from this protection. TFHC is watching the situation closely, as this issue continues to be very important in the Toledo area.

Reporting period: July 2023 through December 2023

- The City decided not to enforce the local law on reselling water services which has been a significant setback for water affordability and consumer protections.
- The Fair Housing Center is continuing to monitor this issue. Although the City has chosen not to enforce the local law, the local law is still very helpful as it still provides individual tenants with rights to prevent water reselling.

Reporting period: January 2024 through June 2024

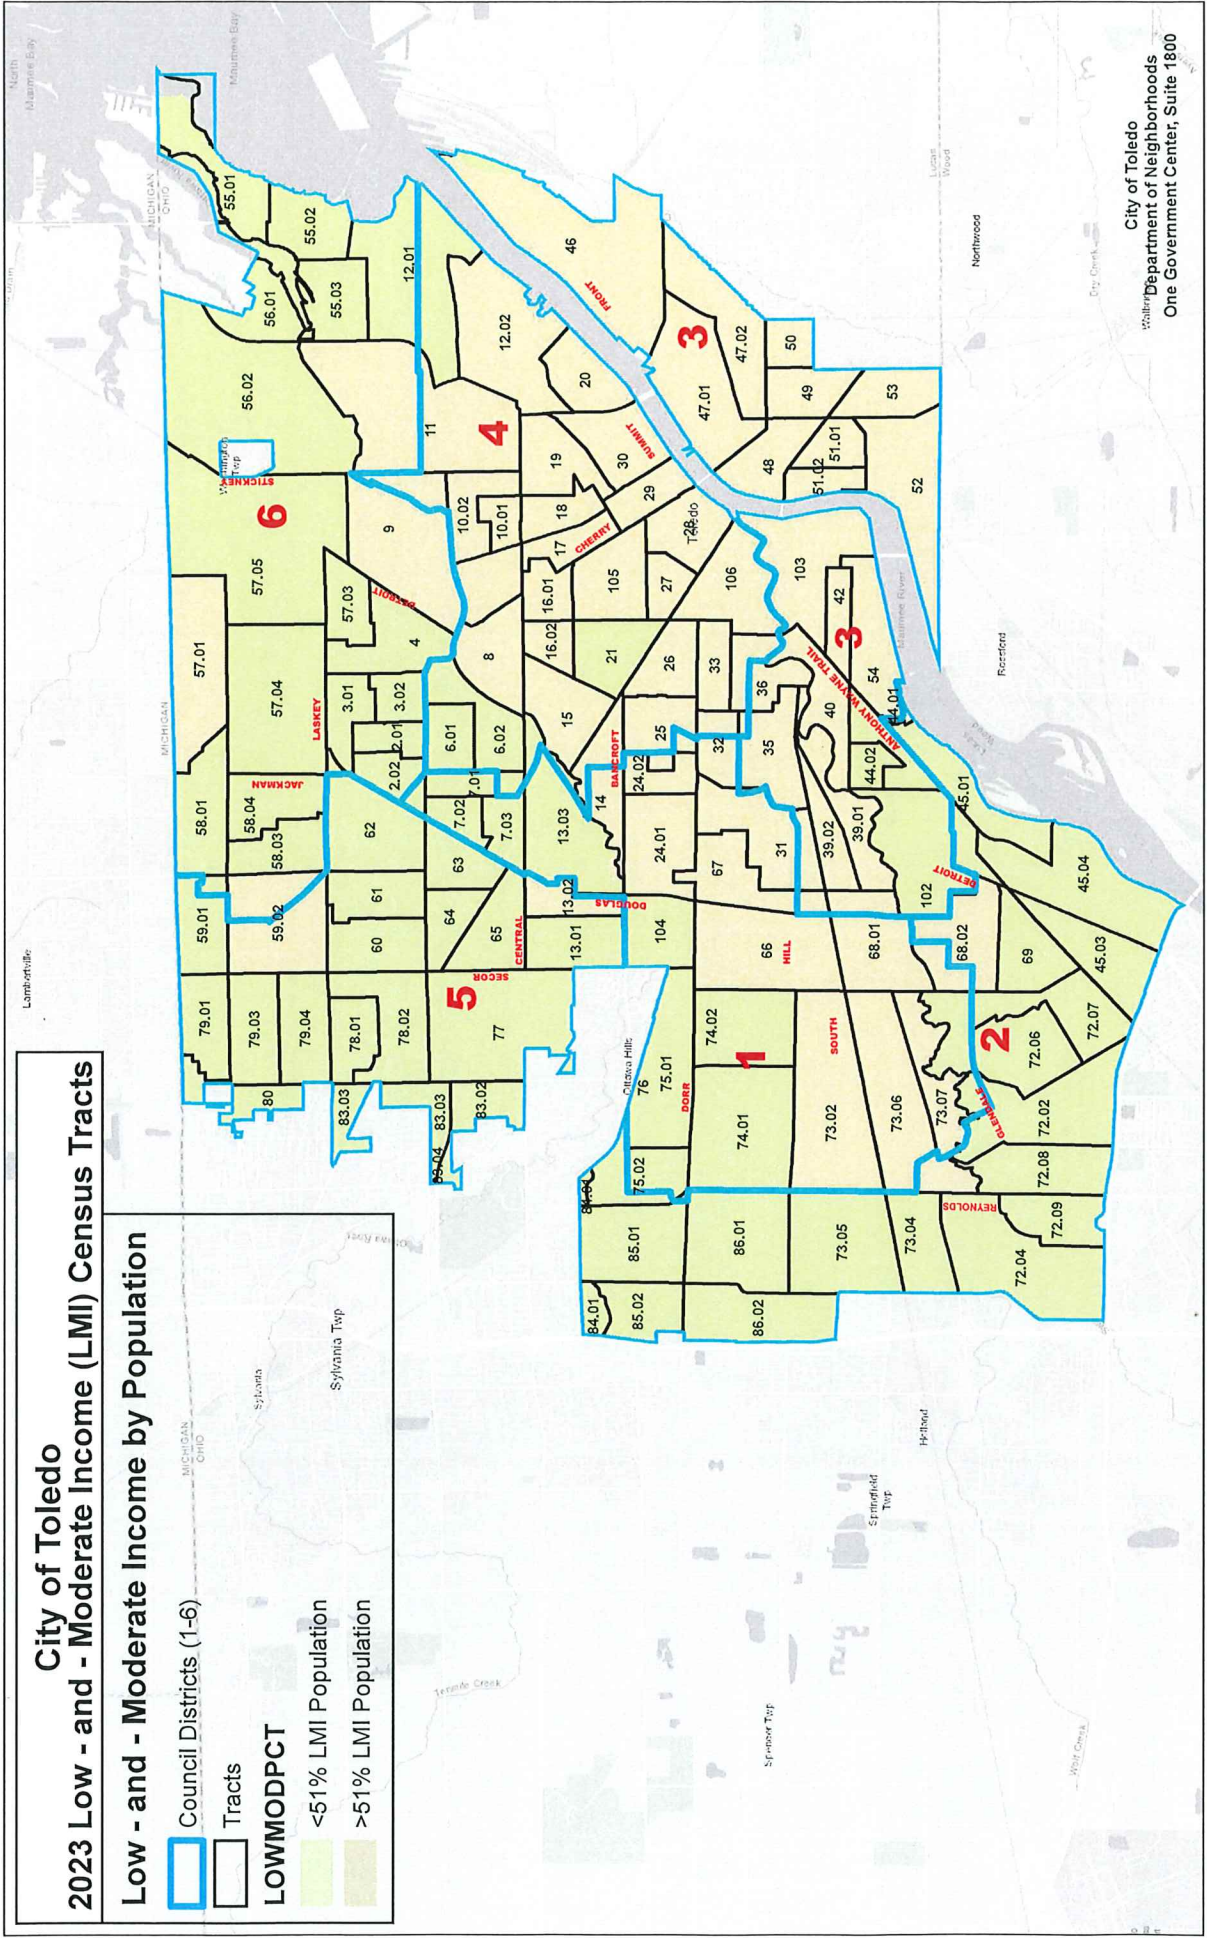

-
- No further updates at this time. The FHAP currently being written will emphasize the need for enforcement of the laws as described above.

Final Report

The City has begun shutting off water services for nonpayment after years of a hiatus on shut offs following the pandemic. The Center has advocated for policies that ensure landlords do not resell water in an abusive manner and that ensure tenants can access account information and take advantage of affordability programs and repayment programs where applicable. This important issue continues to be highlighted in the 2025-2030 AI.

Fax Number	(419)245-1192

Step 4: Grant Information

Emergency Shelter Rehab/Conversion

Did you create additional shelter beds/units through an ESG-funded rehab project	No
Did you create additional shelter beds/units through an ESG-funded conversion project	No

Data Participation Information

Are there any funded projects, except HMIS or Admin, which are <u>not listed on the Project, Links and Uploads form</u> ? This includes projects in the HMIS and from VSP	No
---	----

Step 5: Project Outcomes

Project outcomes are required for all CAPERS where the program year start date is 1-1-2021 or later. This form replaces the narrative in CR-70 of the eCon Planning Suite.

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: "Describe performance standards for evaluating ESG."

In September 2022, the local Continuum of Care (CoC) introduced updated performance standards for agencies receiving funding. Not all program types have suggested targets for every performance indicator; some have specific targets for special populations, either in lieu of or in addition to overall targets. This aligns with HUD's Interim Rule, which emphasizes "performance targets appropriate for the population and program type." Targets are categorized based on the National Alliance to End Homelessness Rapid Re-Housing Triage Tool, which assesses three areas of housing barriers. The Key Performance Indicator list outlines recommended targets for each program type and indicator.

These performance indicators remain consistent across all funding sources. The standards set by the TLCHB for emergency shelter, transitional housing, homeless prevention, and rapid re-housing activities are applicable to the evaluation of ESG activities. These measures are evaluated during TLCHB monitoring visits, and snapshots of performance are provided to the COT quarterly or annually. Annualized snapshots are provided to the CRC for review during new application funding processes.

In the Integrated Disbursement and Information System (IDIS), HUD's computerized reporting system, the performance objectives and outcomes are already predetermined based on the activity type or category. Each category has subcategories in IDIS. The grantee may not choose their performance objectives and outcomes; applicable objectives and outcomes as established in IDIS are as follows:

HESG Activity Category Performance Objective Performance Outcomes
 Prevention Provide Decent Affordable Housing affordability
 HMIS N/A N/A
 Rapid Re-Housing Provide Decent Affordable Housing Affordability
 Administration N/A N/A
 Shelter Create Suitable Living Environment Availability/Accessibility

The COT is not funding street outreach activities through ESG funds. Please refer to AP-65 of this Action Plan for existing outreach and assessment activities in the COT within the CoC.

Based on the information from the Action Plan response previously provided to HUD:

1. Briefly describe how you met the performance standards identified in A-90 this program year. *If they are not measurable as written type in N/A as the answer.*

Prevention: N/A

HMIS: N/A

Rapid Re-Housing:

This year, Rapid Rehousing programs had 5% of participants employed at exit, which did not meet the employment standard.

Administration: N/A

Emergency Shelter

Emergency shelters reported 26% of participants exiting to permanent housing. Employment at exit reached 34%, and the average length of stay for households was 138 days.

2. Briefly describe what you did not meet and why. *If they are not measurable as written type in N/A as the answer.*

Average lengths of assistance in Rapid Rehousing reached 375 days this year. more than double the standard of 150 days. This extended stay continues to be driven by households' difficulty securing employment at a level that can sustain rent and other essential expenses, as well as the persistent shortage of affordable housing. While the program's target is to place individuals into housing within 15 days, the lack of available housing stock has again made that timeline unachievable.

In 2024, an expansion of Permanent Supportive Housing units allowed single adults to exit homelessness significantly faster, contributing to stronger system-wide outcomes. The absence of a similar increase in 2025 has had a marked negative effect on performance, particularly in permanent housing exits.

OR

3. If your standards were not written as measurable, provide a sample of what you will change them to in the future? *If they were measurable and you answered above type in N/A as the answer.*

N/A

Step 6: Financial Information

Step 8: Program Income

Program income is the income received by the recipient or subrecipient directly generated by a grant supported activity. Program income is defined in 2 CFR §200.307. More information is also available in the ESG CAPER Guidebook in the resources tab above.

Did the recipient earn program income from any ESG project during the program year?

I
