1.3 Interpretation and Conflict

In interpreting and applying the provisions of this Resolution, they shall be held to be minimum requirements for the promotion of comfort, morals, prosperity and general welfare. SECTION 3   ESTABLISHMENT OF DISTRICTS

3.1 Agricultural and Residential Districts

3.1.1 "A" Agricultural (Revised 3-5-01, Z34-C12)

The Agricultural District is to provide for agricultural and agriculturally related uses, essential public facilities and services such as public buildings, schools, railroads, public utilities. This may include some commercial activities which are an integral part of agriculture, such as roadside stands or structures used for the sale of agricultural produce or products and/or nursery and greenhouse sales areas; churches and other related nonprofit public service facilities. Residential development is discouraged.

3.1.2 "A/R" Agricultural/Residential (Revised 3-5-01, Z34-C12)

The Agricultural/Residential District is to provide for residential uses, agricultural and agriculturally related uses, essential public facilities and services such as public buildings, schools, railroads, public utilities. This may include some commercial activities which are an integral part of agriculture, such as roadside stands or structures used for the sale of agricultural produce or products and/or nursery and greenhouse sales areas; churches and other related nonprofit public service facilities. Intense residential development is discouraged.

3.2 Commercial Districts

3.2.1 "C-1" Restricted Commercial

The Neighborhood Commercial District provides for businesses which primarily serve nearby residential areas with convenience goods and services. Business should be of the type which are low generators of traffic and compatible with surrounding residential areas. All uses and activities should be inside buildings. Where it is necessary to use external areas of buildings for storage of equipment or business activities, sufficient distance separation from neighboring properties and/or fencing or natural screening shall be required as specified under Section 8.2.

3.2.2 "C-2" General Commercial

The General Commercial District provides for businesses which serve a regional market. Businesses may be grouped into small shopping centers located along a major thoroughfare, or at corners of major intersections on large lots to allow for ingress, egress, internal circulation and adequate parking. Typically these businesses will be high generators of traffic. Examples of these include, but are not limited to, shopping centers, malls, drive-through businesses, motels, restaurants, gas stations, etc. All uses and activities shall be inside buildings unless related to the existing primary use of the property.
SECTION 3 ESTABLISHMENT OF DISTRICTS (cont’d)

3.3 Industrial Districts

3.3.1 "M-1" Limited Industrial

The Limited Industrial District is to provide for light industrial, research laboratories, warehousing types of businesses which may be conducted in areas proximate to residential and commercial areas with attempts to provide as much isolation as possible. These uses may include activities of manufacturing, processing, or assembly of products or the provision of services. No offensive or hazardous conditions shall be created by an industry and other disruptive activities shall be minimized to maintain tranquility if near commercial or residential areas. This would include such things as excessive traffic, dust, dirt, noxious gases, smoke, noise, fumes or vibrations. Since certain industrial uses as a part of their operation may have need for sales distribution and sales outlets, it may be permitted only as an accessory use providing that goods and services are produced at the site or are an integral part of a warehousing distribution system. Wherever possible work activities and material handling shall be confined to buildings or enclosures. When possible, materials and products will be stored in enclosed structures or areas screened from view of adjoining property. External areas of structures will be landscaped and maintained. Undeveloped areas will be kept free of debris, weeds and routinely maintained by cutting grass areas.

3.3.2 "M-2" Heavy Industrial District

The "M-2" Heavy Industrial District provides for industries which by their nature and function require large parcels for development, and access to utilities and major transportation networks. These uses may be objectionable to adjacent residential or commercial properties and therefore should be grouped together when similar uses are located. Certain industries may need special consideration because of their potential spill-over effect on surrounding areas. These are provided for either as a conditional use or as a special use. These industries may include such activities as fabricating, processing, smelting and refining, extraction of minerals and stone, foundries, blast furnaces and similar industries which have the potential of creating impacts in the area adjacent to and near the industrial activity. Sales distribution and sales outlets may be permitted as an accessory use providing that goods and services are produced at the site or are an integral part of a warehousing distribution system.

3.4 District Map

3.4.1 Description: The location and boundaries of districts established shall be shown on the map entitled "Richfield Township Zoning Plan, 1968". A certified copy of this map is on file in the office of the Board of Richfield Township Trustees. Said map and all notations, dimensions and designations shown thereon are hereby declared to be a part of this Resolution.

3.4.2 Replacement: In the event that the Official District Map becomes damaged, destroyed or lost, the Township Board of Trustees may by Resolution adopt a new Official District Map which shall supercede the prior Official District Map.
3.5 **District Boundaries**

**3.5.1 Description:** The district boundary lines on said map are intended to follow either centerlines of streets or alleys or lot lines; and where the districts designated on the map are bounded approximately by such street, alley or lot lines, the street or alley or lot line shall be construed to be the boundary of the district unless such boundary is otherwise indicated on the map. In the case of un-subdivided property, the district boundary line shall be determined by the use of the scale appearing on the Zoning District Map or by dimensions. In the case of the vacation of a street, alley, water course or other right-of-way, the abutting zoning classification on each side thereof shall automatically be extended to the centerline of said vacated street, alley, water course or right-of-way.

**3.5.2 Exceptions:** District boundaries following shore lines shall be construed as moving with any shoreline changes. Where boundaries appear to approximately follow such aforesaid lines and are not more than 10 feet distant there from, such lines shall be construed to be the boundary lines unless specifically shown otherwise.

SECTION 4 USE REGULATIONS

The permitted and special uses for each district are shown in the following tabulations which shall constitute Section 4 of the Zoning Resolution. SECTION 5  OFF-STREET PARKING AND LOADING

5.1 Purpose

It is the purpose of this section to regulate land use by providing adequate space for off-street parking, loading and maneuvering of vehicles for all principal and accessory uses. The following provisions are intended to provide safe ingress and egress to all lots, minimize traffic congestion, limit on street parking and reduce noise and visual impact of vehicular movement and loading activities.

5.2 Off-Street Parking and Loading Requirements

5.2.1 General

a) When a building or structure is erected, changed or enlarged by 50% or more in floor area, or increases by 50% the number of employees, customers/users, dwelling units, or seating capacity it shall comply with the requirements of this section.

b) When there is a new use of an existing building or structure, which does not require enlargements or additions, it shall comply with the requirements of this section.

c) Where a lot abuts a public or private alley or easement of access there shall be provided an access drive not less than eight (8) feet in width for a single dwelling and not less than 20 feet in width for an access drive leading to parking, loading, or storage spaces herein required for multiple dwellings and nonresidential uses.

d) Total number of spaces required shall equal the sum of all the requirements for each separate primary and accessory use.

e) All off-street parking and loading spaces as required by this section shall be located on the same parcel as the building or use requiring the spaces, except as provided for under 5.2.2(c)

f) Off-street parking and loading spaces required for any use not specifically listed herein shall be the same as that required for a similar use as determined by the Zoning Commission.

g) A request for a reduction of parking and/or loading requirements may be submitted to the Board of Zoning Appeals as provided for in Section 12.
SECTION 5  OFF-STREET PARKING AND LOADING  (cont’d)

5.2  Off Street Parking and Loading Requirements (cont’d)

5.2.2  Special Requirements

a)  **Setback:** Parking areas for nonresidential uses shall be no closer than five (5) feet to a street, alley or right-of-way.

b)  **Joint Use:** Two (2) or more nonresidential uses may jointly provide and use parking spaces when their hours of operation do not normally overlap, provided that a written agreement, approved by the Township Attorney and accepted by the Board of Zoning Appeals, shall be filed with the application for a zoning certificate.

c)  **Off-site parking:** Parking spaces may be located on a lot within 300 feet other than that containing the principal use or on a lot within 600 feet for uses within a commercial or industrial district for spaces designated for employees with a written agreement approved by the Township attorney and approval by the Board of Zoning Appeals, to be filed with the application for a zoning certificate.

d)  **Surfacing and drainage:** All off-street parking and loading areas and driveways for nonresidential uses shall be surfaced with concrete, bituminous asphalt or other dust free material other than gravel or loose fill and graded to drain all surface water towards the interior of the parking lot. An internal storm drainage system shall be provided and connected to the nearest outlet subject to regulations and approval of the Lucas County Engineer. Concrete curbs may also be required as part of the overall drainage design for all or part of the parking lot or driveway perimeter.

e)  **Wheel stop device:** Whenever a parking lot extends to a property line, sidewalk planting strip or building, a wheel stop device consisting of concrete stops, a permanent concrete curb, an expanded sidewalk or other suitable restraint shall be installed to prevent any part of a parked motor vehicle from extending beyond the property line, overhanging a pedestrian circulation way or sidewalk, or damaging any structure or landscaping. Minimum height shall be five (5) inches and the minimum length six (6) feet. A wheel stop device shall not be required where a guardrail or other suitable barrier is provided to prevent intrusion into a protected area.

f)  **Striping and Marking:** Parking spaces and aisles shall be clearly designated and marked to assure approved utilization of space, direction of traffic flow and general safety. Parking spaces for the handicapped shall be reserved and designated with a standing sign (not painted on the pavement), displaying the symbol of accessibility.
5.2 Off Street Parking and Loading Requirements (cont'd)

5.2.2 Special Requirements (cont'd)

**g) Handicapped Parking:**

1. The required number of accessible spaces shall be as follows:

No commercial vehicle as herein defined shall be stored or parked in an “A” or “A/R” district, excluding vehicles in an "A" or “A/R” district which are stored in an enclosed building or vehicles used in agriculture which are an integral part of the on-site agricultural business. Infrequent short term parking of a commercial vehicle for conveying tools and materials to premises for use on the premises, or the delivery or moving of goods to or from a dwelling unit is exempted from this section. An exemption to this section is authorized subject to conformance with all the following criteria:

2. No disabled vehicle shall be parked within an "A" or “A/R” district for a period of more than 30 days, except such vehicle may be stored in an enclosed building providing no business is conducted in connection therewith while such vehicle is parked or stored.

3. The storage of a disabled automotive vehicle, obsolete and/or un-repairable farm vehicle or implement, or obsolete and/or un-repairable household appliance shall be prohibited, except within completely enclosed buildings.
5.2 Off Street Parking and Loading Requirements (cont'd)

5.2.2 Special Requirements (cont'd)

j) Parking and Storage of Vehicles and Trailers (cont'd)

Such vehicles, boats, or trailers may be parked in a side yard, April 1 through October 31 only. No more than one (1) each and a maximum of two of the aforementioned vehicles or trailers may be stored in the rear yard and shall be a minimum of 10 feet from a lot line. (Revised 1-16-96, Z34-C6)

The location of this area, if provided, shall be shown on the site plan with proper loading and maneuvering space and for the purpose of location, shall be treated as an accessory structure. A trash receptacle area shall be screened from view on three (3) sides. Such area shall not be located in any required yard or setback and shall be maintained according to the requirements of the Lucas County Board of Health.

n) Maneuvering: Every parking and loading space shall have sufficient access and maneuvering area. The maneuvering area for a parking space may occur anywhere on a parcel except within the required minimum front, side and rear setback area. It may include an aisle or circulation area. For single residences it may include a driveway, street or parking space. The Board of Zoning Appeals may waive these requirements for lots which have an operator on duty during all hours of operation.

o) Loading Spaces: No loading spaces shall be located in a front or side yard, nor in a required rear yard.

SECTION 6  CONDITIONAL USES

6.1  Procedure (Rev. Z34-C34, 9/17/18)

Under certain unusual circumstances, a use of property which typically affects an area more intensely than those uses permitted in the zoning district in which it is located may nonetheless be desirable and compatible with permitted uses, if that use is properly controlled and regulated. Such uses are listed as “Conditional Uses” within the respective zoning districts.

The Board of Zoning Appeals may grant conditional approval for the use of the land, buildings, or other structures and may allow such a use to be established where such approval will be consistent with the general purpose and intent of this Zoning Resolution as well as the general purpose and intent of the Richfield Township Land Use Plan.

6.2  Conditional Uses and Procedures (Rev. Z34-C34, 9/17/18)

The following uses may be approved pursuant to Section 6 – Conditional Uses:

6.2.1 Conditional Uses (Rev. Z34-C34, 9/17/18)

It is further the intent of this Resolution that non-conformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

9.2 Avoidance of Undue Hardship

To avoid undue hardship, nothing in this Resolution shall be deemed to require a change in the plans, construction, or designated use of any building on which a valid building permit was issued, or actual construction was lawfully begun prior to the effective date of adoption or amendment of this Resolution and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that the work shall be carried out diligently.

Any nonconforming structure that is ready for or under construction at the time of adoption or amendment of Resolution may be completed and occupied in accordance with the requirements of a valid building permit and zoning permit issued prior to such adoption or amendment data.

9.3 Single Nonconforming Lots of Record

In any district in which single family dwellings are permitted, a single family dwelling and customary accessory buildings may be erected on any single lot of record existing at the effective date of adoption or amendment of this Resolution, notwithstanding limitations imposed by other provisions of this Resolution. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area and/or width that are generally applicable in the district. Yard dimensions and requirements other than those applying to area and/or width shall conform to the regulations for the district in which such lot is located.

Variances for district requirements, other than lot area or lot width, shall be obtained only through action of the Board of Zoning Appeals as provided in Section 12.
9.4 Nonconforming Lots of Record in Combination

If two (2) or more nonconforming lots, or portions thereof, with continuous frontage are in single ownership, the BZA may, upon appeal of the Zoning Inspector's decision to deny a zoning permit for failure to meet the requirements of this Resolution, determine that these lots are or are not to be an undivided parcel for the purpose of this Resolution. If considered an undivided parcel, no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Resolution, nor shall any division of said parcel be made which creates a lot with a width or area below the requirements stated in this Resolution.

If each said parcel is developed separately, a finding shall be made by the BZA that such development and density will not be a detriment to the surrounding area.

9.5 Nonconforming Uses of Land

Where, at the time of adoption of this Resolution, lawful uses of land exist which would not be permitted by the regulations imposed by this Resolution, the uses may be continued so long as they remain otherwise lawful, provided:

1. No such nonconforming uses shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Resolution;

2. No such nonconforming uses shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such uses at the effective date of adoption or amendment of this Resolution;

3. Additional structures which do not conform to the requirements of this Resolution shall not be erected in connection with such nonconforming use of land;

4. If any such nonconforming uses of land are discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises), any subsequent use of such land shall conform to the regulations specified by this Resolution for the district in which such land is located. A nonconforming use shall be considered voluntarily discontinued or abandoned:
   a) When the intent of the owner to discontinue the use is apparent, or,
   b) When the characteristic equipment and the furnishings of the nonconforming use have been removed from the premises and have not been replaced by similar equipment within the two (2) year period, or,
   c) When it has been replaced by a conforming use, or,
   d) When it has been changed to another nonconforming use by first obtaining a permit from the Board of Zoning Appeals.
9.6 Nonconforming Structures

Where a lawful structure exists at the effective date of adoption or amendment of this Resolution that could not be built under the terms of this Resolution by reason of restrictions on area, lot coverage, height, yards, its location on the lot, bulk, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity;

2. Should such nonconforming structure or nonconforming portion of structure be damaged so extensively that such structure is rendered unfit for occupancy by any means, it shall not be reconstructed except in conformity with the provisions of this Resolution;

3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

9.7 Nonconforming Uses of Structures or of Structures and Land in Combination

If a lawful use involving individual structures, or of a structure and land in combination, exists at the effective date of adoption or amendment of this Resolution that would not be allowed in the district under the terms of this Resolution, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Resolution in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;

2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Resolution, but no such use shall be extended to occupy any land outside such building;

3. If no structural alterations are made, any nonconforming use of a structure or structure and land, may, upon appeal to the Board of Zoning Appeals, be changed to another nonconforming use provided that the Board of Zoning Appeals shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. The appeal procedure (See Section 12.3) requires that the request for substitution be made first to the zoning inspector, who must deny the zoning permit. The appeal is then taken to the BZA for the final determination. In permitting such change, the Board of Zoning Appeals may require appropriate conditions and safeguards in accord with other provisions of this Resolution;
9.7 Nonconforming Uses of Structures or of Structures and Land in Combination (cont'd)

4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed;

5. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land;

6. When a nonconforming use of a structure, or structure and land in combination is discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises), the structure or structure and land in combination, shall not there-after be used except in conformity with the regulations of the district in which it is located. A nonconforming use shall be considered voluntarily discontinued or abandoned:
   a) When the intent of the owner to discontinue the use is apparent, or,
   b) When the characteristic equipment and the furnishings of the nonconforming use have been removed from the premises and have not been replaced by similar equipment within the two (2) year period, or,
   c) When it has been replaced by a conforming use, or,
   d) When it has been changed to another nonconforming use by first obtaining a permit from the Board of Zoning Appeals.

9.8 Expansion, Repair, and Maintenance

A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this Resolution by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be generally prohibited in the district in which such use is located.

On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring, or plumbing, provided that the cubic content (floor area) existing when it became nonconforming shall not be increased. Nothing in this section shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.
SECTION 10  PLANNED UNIT DEVELOPMENT

10.1 General

For the purpose of conserving land through more efficient allocation of private lots, multi-family dwelling units, common grounds and other non-residential uses, promoting efficiency in providing public utility services and receiving the benefits of new techniques of community development and renewal, the process of planned unit development shall be established for all districts.

10.2 Description

Planned Unit Developments may be residential, commercial or industrial developments, or they may be combinations of uses, such as residential and commercial, or commercial and industrial. The minimum site area for a residential development shall be five (5) net acres; for a commercial development, 10 net acres; and for an industrial development, 25 net acres. If a combination of uses is proposed, a residential-commercial development shall have a minimum of 25 net acres and a commercial industrial development, a minimum of 35 net acres. Net acres being defined as gross parcel acreage less public or private rights-of-way. In combination developments, the amount of land devoted to commercial usage shall not exceed 12 1/2% of the total land area of the development. All Planned Units must be arranged progressively in relation to the zoning of the abutting areas. The Zoning Commission may recommend and the Township Trustees may approve reduction in the area of a Planned Unit Development for those sites which are isolated by natural or man made barriers or by existing development so that additional land is not available for inclusion in the new development. All planned developments shall be platted in accordance with applicable subdivision rules and regulations.

10.3 Procedure

10.3.1 Application

The development plan shall be submitted and processed in accordance with Section 13 and shall meet requirements of Section 7.20.

10.3.2 Amendments (changes)

After the final development plan has been approved by the Board of Township Trustees, adjustments or rearrangements of buildings, parking areas, entrances, heights, or yards may be requested by the proponents. Minor Changes as defined herein are allowed, provided such requests conform to the standards established by the final development plan and this Resolution. A major change as defined herein, shall require approval by the Zoning Commission with review of the Planning Director of the Lucas County Planning Commission.

A. Minor changes or revisions to an approved Planned Unit Development are allowed for the following:
10.3 Procedure (cont'd)

10.3.2 Amendments (cont'd)

1. Adjustments to the size and location of buildings, swimming pools, and other on site structures so long as:
   a) they do not result in an increase in the number of units over and above those that the plan covers;
   b) they do not encroach materially into the established setback areas;
   c) they do not encroach into the designated parking areas to the extent that would necessitate an alteration in the layout of the access drives or provisions for additional parking spaces; and
   d) they do not create a large building mass either through an increase in their height or length that would magnify their effect on the adjoining areas.

2. Alterations to the proposed drives and/or parking areas so long as they do not encroach into building areas or specified recreation areas.

3. Adjustments in the size and location of development identification signs.

B. A major change is any change that does not meet the criteria under part A of this section and in addition, is one which would constitute a significant alteration in the basic plan design or result in a use different from those originally intended. A major change shall require approval by the Zoning Commission with review of the Planning Director of the Lucas County Planning Commission.

10.4 "A" District, Planned Unit Development

10.4.1 General

In an "A" District Planned Unit Developments may be permitted as follows:

A. No more than 40% of the gross parcel acreage shall be devoted to coverage by buildings, street pavement, motor vehicle driveway pavement, and parking area pavement.
10.4 "A" District, Planned Unit Development (cont'd)

10.4.1 General (cont'd)

B. No less than 22,000 sq. ft. or 10% of the net parcel acreage whichever is greater, none of which shall be a part of any yard, shall be allocated to consolidated common green space and/or recreation areas. Such open space land or recreational facilities shall be held in corporate ownership by the owners of the project area building sites, and the developer shall incorporate into the protective covenants and/or deed restrictions, a clause giving an interest in such land to each owner who buys property within the development. As an alternate to a property owners' association, the developer may deed the land to the township, which shall maintain the open space in lieu of a property owners' association.

C. A yard setback of 25 feet shall be maintained on all perimeter parcels of the Planned Unit Development.

D. A maximum number of dwelling units permitted shall not exceed the number of units permitted without the Planned Unit Development as determined by the zoning district, subdivision, or other applicable regulations. The maximum number of dwelling units permitted in the Planned Unit Development shall be calculated by dividing the net residential acreage by the minimum lot area per dwelling unit as shown under Section 4.3. For purposes of this calculation, net residential acreage equals 80% of the gross parcel acreage and gross parcel acreage is the total parcel area excluding public rights-of-way or flood plain.

10.4.2 Zero Lot Line Development

A. Minimum Dimensions

To provide maximum flexibility for the development of residential lots, the dimensional requirements under Section 4 may be reduced 33 1/3% or no less than the following dimensions:

5. Floor Area Requirements for Dwellings shall apply as specified for each "A" district under Section 4.3.2.

6. The provisions of the following shall govern as to the rights and obligations and occupants of lots respecting side yard easements. For purposes of definition, the "servient tenement" is defined as the property providing a side yard easement. The "dominant tenement" is defined as the property adjoining benefiting from the easement.

B. Minimum Requirements (cont'd)

a. A five (5) foot maintenance easement shall exist along all zero lot lines exclusive of lots which share a common zero lot line wall.

b. Lots subject to this easement will be set forth as an appropriate reservation grant in the deed to the dominant tenement.

c. The easement shall be maintained by the owners or occupants of the servient tenement as open space, landscaping or as a garden and shall be retained in a manner not to restrict its use by the owners or occupants of the dominant tenement.

d. The owners or occupants of the dominant tenement shall have a limited, nonexclusive right to use and occupy the side yard easement for purposes of maintenance, repair or replacement of the structure. Ingress and egress will be provided without limitation for these purposes. Owners and occupants of the dominant tenement shall be responsible for all damage to the servient tenement which may restrict the use and enjoyment of the side yard. This responsibility extends to maintenance of the exterior walls of the structure which shall be maintained and retained in a manner compatible with the servient tenement.

e. The owners and occupants of the servient tenement shall be limited to the use of the easement for purposes described in (d) of this section. The owner or occupant of the servient tenement shall be responsible for any damage to the structure of the dominant tenement which is caused by the negligence of the owner or occupant of the servient tenement or by persons entering on the servient tenement with consent of the owner or occupant.
SECTION 10 PLANNED UNIT DEVELOPMENT (cont’d)

10.5 "C" District Planned Unit Development

10.5.1 General: In "C" Districts, a planned unit development may be permitted in accordance with the following provisions if the Zoning Commission and Board of Trustees are satisfied: (1) that the proponents of the development are financially able to carry out the proposed project; (2) that they intend to start construction within one (1) year of the approval of the project and necessary change in zoning; (3) that they intend to complete it with a reasonable time as determined by the Commission; and (4) that the need for the proposed development has been demonstrated by means of market studies and such other evidence as the Commission may require.

A. Commercial buildings and establishments shall be planned as groups having common parking areas and common ingress and egress points in order to reduce the number of potential accident locations at intersections with thoroughfares. In planning these groups of buildings or establishments, no yard space will be required between uses within the groups; however, the yard requirements must be observed at the edge of the complete development. Planting screens or fences as provided elsewhere in this resolution shall be required.

B. Off-street parking and loading requirements shall be observed as required; however, group parking is recommended so long as the number of spaces provided is equal to the required number of spaces required for each use to be developed.

C. The plan of the project shall provide for the integrated and harmonious design of buildings, and for adequate and properly arranged facilities for internal traffic circulation, landscaping, and such other features and facilities as may be necessary to make the project attractive and efficient from the standpoint of the developer as well as from the standpoint of the adjoining and surrounding existing or potential developments.

D. The ground area occupied by all the buildings shall not exceed in the aggregate 24% percent of the total area of the lot or tract.
10.6 "M" District Planned Unit Development

10.6.1 General: In "M" Districts, a planned unit development may be permitted as follows:

A. Industrial uses and parcels shall be developed in park like surroundings utilizing landscaping and existing woodlands as buffers to screen lighting, parking areas, loading areas or docks and/or outdoor storage of raw materials or products. A planned industrial area shall provide for the harmony of buildings and a compact grouping or groupings in order to economize in the provision of such utility services as are required. Thoroughfares shall be kept to a minimum throughout a planned industrial area in order that those thoroughfares which are constructed may be built to the highest possible standards.

B. Certain types of commercial uses, such as a restaurant, central secretarial or stenographic pool, or other business service type uses, repair services, or clinics may form a small commercial center to serve the needs of the industries or their personnel, such a center may be permitted in a planned industrial area.

C. Off-street parking and loading areas shall conform to the provisions of this resolution, and all screening requirements shall be observed.

D. No building shall be less than 75 feet distant from any boundary of the tract on which the office, research, or industrial development is located. All intervening spaces between the street pavement and the right-of-way line and intervening spaces between buildings, drives, parking areas and improved areas shall be landscaped with turf, trees, plantings and properly maintained at all times.

B. Replacement of Nonconforming Buildings

Permit the reconstruction of a nonconforming building which has been damaged by explosion, fire, act of God, or the public enemy, to the extent of more than 75% of its fair market value where the Board finds some necessity requiring a continuance of the nonconforming use and the primary purpose of continuing the nonconforming use is not to continue a monopoly.

C. Modification of Parking and Loading Space Requirements

Permit the modification of the automobile parking space or loading space requirements where, in the particular instance, such modification will not be inconsistent with the purpose and intent of such requirements; or permit (a) the waiver of the requirement that automobile parking space be provided on the same lot with a dwelling, if other suitable and convenient parking space is available within or without a building; or (b) the dual use of parking facilities (i.e. by stores during the day and theaters during the evening) provided there is no overlapping of use and the parking space requirements for each building or use are complied with during each period.
13.3 **Jurisdiction** (cont'd)

13.3.2 **Exceptions** (cont'd)

D. **Public Parking Areas Location**

Permit in the "A" District, public parking areas or storage garages adjacent to any existing or proposed use in the multiple dwelling, commercial or industrial districts.

F. **Substitution of Nonconforming Uses**

The substitution of a nonconforming use existing at the time of enactment of this Resolution of another nonconforming use, if no structural alterations except those required by law or resolution are made; provided, however that in an "A" District, no change shall be authorized by the Board to any use which is not a permitted or special use in any "A" District, and in a "C" District no change shall be authorized to any use which is not a permitted or special use in any "C" District.

The Board may renew this permit once for the above time periods, respectively.

13.3.3 Variances

In hearing and deciding appeals, the Board shall have the power to authorize such variances from the provisions or requirements of this Resolution as will not be contrary to the public interest. In authorizing a variance, the Board may attach conditions and require such guarantee or bond as it may deem necessary to assure compliance with the objectives of this Resolution. On appeal where there is unnecessary hardship, the Board may grant a variance in the application of the provisions of the Zoning Resolution only if all of the following findings are made:

A. That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions generally created by the provisions of the Zoning Resolution in the neighborhood or district in which the property is located.

B. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the Zoning Resolution and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.

C. That such unnecessary hardship has not been created by the appellant.

The Board shall have the authority to grant an extension or permit completion of a building devoted to a nonconforming use upon a lot occupied by such building, or on a lot adjoining, provided that such lot was under the same ownership as the lot in question on the date such building became nonconforming, and where such extension is necessary and incidental to the existing use of such building; provided, however, that the floor areas of such extension shall not exceed in all 100% of the floor area of the existing building or buildings devoted to a nonconforming use.
